

News of the World in Brief

The re-awakening of the national spirit in Russia, following the disorganization of the nation which followed the revolution, was demonstrated clearly to the waiting world when the Slav army which had practically ceased to be considered as a factor in the war with Germany, took the field with renewed vigor, opening a terrific fire on the Teutonic entrenchments on the Gallipoli front, and capturing 19,000 prisoners by Tuesday evening. Considerable gains were reported as the result of the new offensive.

As the outcome of the stand taken by Russia, together with the pro-Ally attitude of the new Greek ministry, German troops will be diverted from the western front to aid in endeavoring to repel the Slav attacks, while the allied troops hitherto engaged in the Macedonian campaign, it is expected, will be released for service elsewhere.

During the past week, tremendous activity in France and Belgium has been reported, Haig's troops making gradual headway against von Hindenburg, while the German Crown Prince has sacrificed thousands of picked soldiers in desperate but fruitless attacks on the French in the Verdun section. The fall of Lens, regarded by experts as the key to the Hindenburg positions, is believed to be merely a matter of days.

In the south, the Austro-Italian campaign is focused on the efforts of the Teutons to gain possession of Mount Ortigara. Successful in driving the defenders from the hill with deadly shell fire, the Austrians have so far been able to maintain the position evacuated by the southern troops. The battle is described as one of the bloodiest of the war.

War legislation in the United States continues to center about the food control bill. This has been made so all inclusive that not only food, fuel, and building materials are taken in, but various metals, and all fabrics and goods necessary for any kind of wearing apparel. By a

recommendation made by the Senate Agricultural committee, the prohibition clause will include only spirits while a ruling as to the fate of wines and beers will be left to President Wilson. Exemption regulations for the draft are completed, and the machinery for conscription has been fairly set in motion from Washington. In line with the rushing of war measures was the launching of the dreadnaught Idaho, a sister ship of the Pennsylvania and the Mississippi, America's most powerful battleships.

More outbreaks incident to the supposed activities of German spies were reported from East St. Louis, and from Gila county, Arizona. Race riots in the Illinois city, in which 100 negroes are estimated to have been killed, and a general strike of copper miners in the southwest, are thought to be the result of German intriguing.

A virtual decision handed down by the Interstate Commerce commission on the petition of the railroads of the United States to be allowed a 15 per cent rate increase, denies the request suspending the proposed new tariffs until October 28. An accompanying statement indicated that no rehearing of the case would be of value. Advances in certain classes of freight were allowed.

A much mooted question in connection with prohibition was answered in the negative Tuesday when the Oregon state supreme court handed down a decision interpreting the law as forbidding the home manufacture of intoxicants, even for home consumption.

Alcoholic beverages will also enter largely into the financing of America's war with Germany, for the latest outline of the war tax gives \$155,000,000 as the amount which it is expected will be raised from this source. Other items in the war tax will probably be the excess profits tax, soft drinks and tobacco, making up the remainder of the \$1,570,000,000.

of young cattle, raised by Silver Lake stockmen, were shipped from Bend last night on the O.-W. R. & N. after having been driven here from Klamath Marsh. The cattle are destined for the Kansas City markets.

PETITION SENT.

(Continued from Page 1.)

the Secretary of the Interior for a five-year extension of time on the contract between the state and the federal government covering the lands included in Oregon Segregation List No. 6, and that the secretary be instructed to prepare and submit the necessary papers in connection therewith. An amendment was proposed by Mr. Lewis to the effect that a conference be arranged for June 16, 1917, at which time the representatives of the water users and of the irrigation company be given a full hearing and that an attempt be made to adjust some of the questions raised by the water users prior to the securing of an extension of time from the federal government. The

amendment was lost for the want of a second. The vote on the original motion being, aye, Withycombe, Kay, Gleott, Brown; no, Lewis." It is following the action of that meeting that the petition was prepared and signed which is now being forwarded to Washington for the approval of the Department of the Interior.

The Federal Reserve System Helps You

IT WAS CREATED, PRIMARILY—
To help the Business Men and Farmers,
To provide plenty of currency at all times,
To effect a steadier supply of credit.

The system merits the support of all good citizens; it must have yours in order to reach its full development. You can secure the benefits of this great system and at the same time assist directly in developing it by depositing your money with us.

The FIRST NATIONAL BANK OF BEND

RECEIPTS FOR JUNE SHOW SLIGHT LOSS

(From Tuesday's Daily.)
Receipts in the office of the County Clerk for the month of June showed a slight slump, according to figures compiled this morning, the decrease being accounted for by increased activity in the farming sections surrounding Bend, preventing many in the county from coming to Bend, and because a certain amount of the county business transacted in the earlier months included old transactions which had accumulated and had waited only for county division. The total for June was \$436.30, as against \$545.09 in May, and \$482 in April.

The itemized receipts for June were as follows: Recording fees \$250.50, circuit court \$198.50, probate and county court \$40, marriage licenses \$27.

CITY BOND DEAL IS 3 DAYS OVERDUE

(From Thursday's Daily.)
Although the winding up of the deal between the city of Bend and Keeler Bros., of Denver, bond buyers, for the lifting of the city's war-rant indebtedness is three days past due, no word has been received from

the bond dealers for more than a week, according to City Recorder H. C. Ellis.

LOVE-LORN BOY IS TAKEN FOR BURGLAR

Nixon Answers Call From Householder Fearing for Safety, and Finds Couple on Church Steps.

(From Tuesday's Daily.)
Called from the smoker at the Hippodrome last night by a phone call from the neighborhood of the Methodist church, Chief of Police L. A. W. Nixon was given to understand that a burglary or possibly a murder was threatened, but on hurrying to the scene, he found only a boy and girl on the church steps, displaying their affection in no uncertain way. The report had been to the effect that a man was loitering about the neighborhood, acting in a most suspicious manner. "The boy was only waiting for his girl," the chief explained it this morning. Advising the couple to find a less public "spooning" place, Chief Nixon returned to the smoker in time for the referee's decision on the main bout.
