

# WEEKLY EDITION THE BEND BULLETIN.

VOL. XV.

BEND, DESCHUTES COUNTY, OREGON, THURSDAY, SEPTEMBER 27, 1917

NO. 39

## THIRD SET OF MEN IS CALLED

DEPARTURE IS SET FOR  
NEXT WEDNESDAY.

Five Alternates are Named—Men are  
to Mobilize in Bend on October  
2—Not Now Known When  
the Last Call Comes.

(From Wednesday Daily.)

Completing the preliminary work toward calling the third installment of the Deschutes county draft quota County Clerk J. H. Haner, secretary of the local draft board, is today mailing notices to 29 men to mobilize in Bend on October 2 preparatory to leaving for Camp Lewis at American Lake. The departure will be on the evening train on the next day, Wednesday, October 3.

Of the 29 called, the first 15 are the percentage of the quota actually due to serve, the remaining 14 being brought in in readiness to go in case any of the 15 do not appear. The high number in the call is 154.

With this call 32 of 37 to go from Deschutes county on the first draft are in line for service, two having gone to Camp Lewis in the first installment and 13 on the second. These total 85 per cent of the whole number and the remaining 15 per cent, numbering five, will go on the final call, the date for which has not yet been set.

The men to whom notices are being mailed today are as follows, the names being given in their order of liability for service:

### The 15 Per Cent.

Frank Ziellinski, David R. Miller, August Elmquist, Charles M. Frazier, John W. Garrison, Herbert H. Edgar, Irving B. Horner, Samuel E. Kiene, Chester A. Brown, Bles Zlatich, Edward Walker, Harry Thomas, Frank G. Hedstrom, Ralph T. Cooper and William W. Wheeler.

### The Five Alternates.

John H. Johnson, Ben H. Morris, Stanley Smith, Alphonse W. Aya, Henry N. Fowler.

## REDMOND SHOW FEATURES SALE

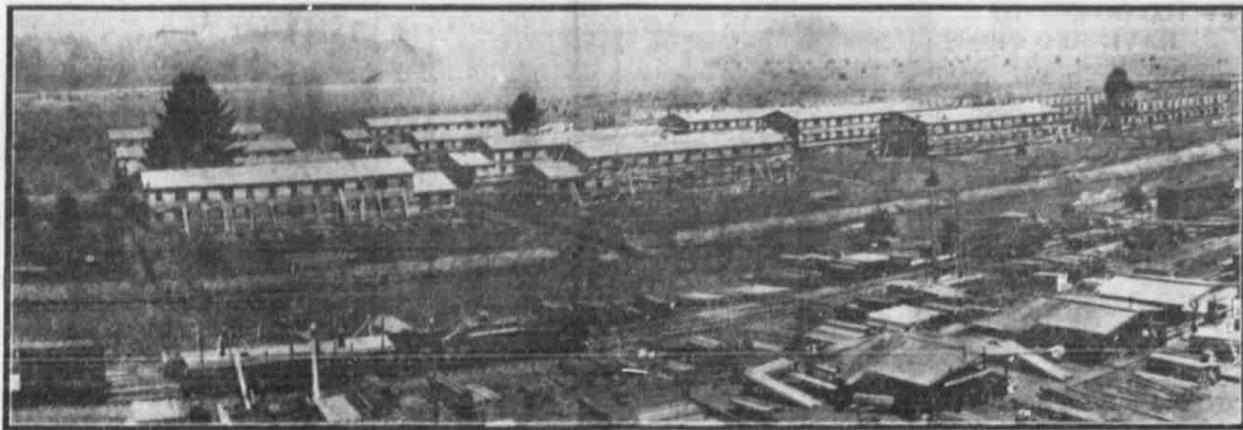

LARGE NUMBER OF ATTRAC-  
TIONS ARRANGED FOR—SUB-  
STANTIAL CASH PRIZES ARE  
OFFERED FOR PRODUCTS.

REDMOND, Sept. 26.—Redmond is making elaborate preparations for the Seventh Annual Potato Show to be held at Redmond October 18, 19 and 20. Besides the usual fair attractions there will be prominent speakers from other sections of the northwest. A special feature of the show this year will be the Deschutes Valley seed potato auction sale. Five bushel entries of 100 per cent potatoes will compete in this contest for a prize of \$150.00. All potatoes entered in this contest will be sold in five-bushel lots to the highest bidder. The most perfect and highest scoring five bushels will receive the first prize of \$150 cash, the second prize five bushels will receive \$50 cash. Under the direction of County Agriculturalist R. A. Ward, a committee of Deschutes Valley potato growers are busily engaged in securing the five-bushel entries to the contest. In recent culinary tests, Deschutes Valley potatoes proved to be the highest quality cooking potatoes in the state. The local growers plan on buying up the first prize potatoes themselves and retain the seed in the valley.

### FOUR BROTHERS IN H. S.

(From Wednesday's Daily.)  
For the first time on record four brothers are attending the Bend high school at one time. They are Craig, Marlon, Le Roy and Vance Coyner. Three of them are officers of their respective classes and all are prominent in school activities.

## Kenwood Chickens Become Victims of Youthful Fishermen

Suppose you wanted chicken for dinner. Did you ever consider the possibilities of "fishing" for them?

Mike Kasprowitz, over in Kenwood, believes his neighbor's children are very expert in this line, so expert in fact, that he took his complaint to Judge Ellis yesterday afternoon in hopes of finding some means of stopping the clandestine activities of the youngsters next door who are missing the only two chickens of his flock of eight which have not yet fallen into their snare.

According to Kasprowitz, he moved in six weeks ago with eight hiddies which he duly installed in the back yard. Since that time they have gradually disappeared, leaving no trace of their whereabouts except the agonizing squawks which heralded their arrival on the other side of the fence. The complainant did a little Sherlocking on his own account and soon discovered that the children in the next house had rigged up a fishing line which they baited with meat and hung over the fence. When the unsuspecting chick nibbled the tempting morsel, the fisherman gave a jerk and landed the drumsticks for dinner.

Kasprowitz now feels abused. According to his own words, he wants it stopped so his family can live in "peace and harmonies."

## LOGGING REGIMENT IS FORMING RAPIDLY

Returning yesterday from San Francisco, Frank R. Prince, of The Shevlin-Hixon Company, reports that matters are progressing fast in the formation of the lumbermen's battalion of the 20th Engineer regiment. Mr. Prince has been recommended as a first lieutenant in the battalion and G. Horskotte as a captain.

Mr. Prince spent nearly a week in San Francisco assisting S. O. Johnson, who is well known in Bend, in recruiting for the regiment. Mr. Johnson holds a commission as major and is accepting as recruits only those who have had experience in lumbering.

## FLY PAPER THOUGHT CAUSE OF DEATH

(From Saturday's Daily)  
An examination of the body of little Fred Benson, who died suddenly Thursday night, established the fact that poisoning was the cause. So far as known, the only place the child could have obtained it was by sucking fly paper.

## TRUCK ARRIVES FOR ROAD WORK

WILL OPEN BUNKERS NEAR THE  
BRICKYARD AND ON LAVA  
BUTTE—AUTO TO BE USED FOR  
LONG HAULS ONLY.

(From Monday's Daily.)

The three and one-half ton auto truck and Troy trailer to be used on the county road work arrived yesterday from Portland after several days' delay. These will be used on long hauls in connection with the road work in progress south of Bend and will together carry 16 yards of cinders each trip. Teams will continue on short hauls.

Not until the fourth mile on the new road is begun will the truck be employed. Mr. Mathena, of Portland, who brought it down, will drive it.

Next week new bunkers are to be opened at Lava Butte and a camp established to accommodate the men as soon as they reach that vicinity. A. H. Horn is also opening a pit of heavy red cinders on the brickyard road. These are heavier than those from either butte and will be placed on the two-mile stretch out from Newport avenue. Local teams will be employed on this piece.

On account of the Columbia Highway being closed between The Dalles and Hood River it was necessary to ship the truck to the former place. From there it was brought in by way of Dufur and Shaniko. This is the first truck owned by the county.

## GEOLOGIST ARRIVES TO STUDY NITRATES

(From Wednesday's Daily.)  
Hoyt S. Gale, geologist of the United States Geological Survey, arrived in Bend this morning for the purpose of investigating the nitrate deposits in the country east of Bend. With George S. Young, deputy mineral surveyor, Mr. Gale left at once for the Rivers section where he will make his first study of the deposits. Other sections will also be visited on the trip.

Mr. Gale last year made a study of the American Nitrate Company deposits in the Wagon Tire and Sucker Creek sections, finding them of sufficient size to be of commercial value. The present investigation is of newly discovered deposits which have been brought to the attention of the Survey by Mr. Young.

## CASE IS LOST BY SPRINGER

JURY REMAINS OUT FOUR HOURS  
BEFORE RETURNING VERDICT  
FOR THE DEFENDANTS EARLY  
THIS AFTERNOON.

(From Saturday's Daily.)

After remaining out four hours, the jury sitting on the Springer case at Prineville, at 2 o'clock this afternoon returned a verdict in favor of the defendants. The case was brought by Judge G. Springer against G. H. Russell, J. W. Stanton, B. F. Johnson, Jay H. Upton and S. W. Yancey for alleged libelous publication of an article last May.

The Crook County Journal says the following of the case, which was called on Friday:

"Stapleton, Conley & Stapleton, of Portland, and N. G. Wallace were attorneys for the Judge, while Seneca Fouts represented the defense.

"The jurors in the case were J. A. Way, E. L. Ashby, B. E. Bennett, R. A. Ammons, C. F. Ferris, E. J. Clark, J. E. Fuller, Wm. Herold, O. I. Davidson, H. G. Dobson, Eli H. Cox and Selwin Montgomery.

"Former Judge H. C. Ellis, and ex-Commissioners W. W. Brown, K. H. Bayley, H. J. Overturf and J. F. Blanchard were all used as witnesses, besides Commissioner E. T. Luthy.

"The methods of handling the county business, which have been discussed widely, were reviewed to some extent, and the witnesses mentioned above were called to testify to various methods and events that were used and occurred during their connection with the county affairs."

## COUNTY FINDS COST OF ONE SCHOOL YEAR

(From Wednesday's Daily.)  
To send one pupil to school for one year it costs Deschutes county approximately \$56.57, according to figures just compiled by County School Superintendent J. Alton Thompson. During the year of 1916-17, 1894 children attended the schools in the county. For the care of these \$102,067.47 was paid out. The figures on the total attendance were not taken from the school census as some of those included in the latter have either not begun or have completed their courses. This number comes from the actual registration and covers all those pupils who at any time during the year attended.

## SUGARBOWL SQUASH CREATED BY FARMER

Ernest Frank, of Deschutes, Combines Five Vegetables  
in One.

(From Wednesday's Daily.)

"The Sugarbowl," is the name Ernest Frank, of Deschutes, has given his new squash which he has grafted from five different vegetables. Mr. Frank brought one of his peculiar creations into town this afternoon as a specimen of his crop. The vegetable is about seven inches in diameter and has the color of a pale watermelon. Around the top it takes on the shape of a covered bowl, thus explaining the origin of the name. The skin is softer than that of most garden products of the melon variety. Mr. Frank says his squash tastes like an oyster and that he worked several years experimenting in order to get just the proper flavor.

## TUMALO FAIR COMES FRIDAY

J. T. HINKLE, OF HERMISTON,  
WILL BE ORATOR OF THE DAY  
—LUNCHEON TO BE SERVED  
BY MEN FOLKS THIS YEAR.

(From Wednesday's Daily.)

The second fair to be held this week in Deschutes county will be the annual exhibition given by the West Side Fair Association at Tumalo on Friday. No attempt is made by the association to have anything in the way of a formal racing program, events of this nature being confined to foot races and the like, held in the afternoon on the main street.

The big event, as always, will be the show of Tumalo farm products in the exhibition hall, where will be seen the varied products of the irrigated and dry land ranches. Following the usual custom an address will be given in the afternoon, the speaker this year being J. T. Hinkle, of Hermiston, a prominent irrigator.

Instead of the dinner served by the ladies of the West Side, a luncheon will be provided by the men of the community.

The Tumalo Fair has always been largely attended by Bend folks and it is expected that a goodly number will visit the show on Friday.

## SCHOOL WORK IS DISCUSSED

REED ATHLETIC PLANS  
TO BE FOLLOWED.

Teachers and District Board Meet to  
Consider Problems—New Grade  
Teacher Is Needed for the  
Large Enrollment.

(From Saturday's Daily.)

An innovation in the conduct of the affairs of the local school district occurred last evening when the members of the school board met with the whole teaching force and discussed school problems. In the course of the evening each director and each teacher was called on for suggestions and many ideas calculated to benefit the schools were presented.

Chief among the needs of the district, as set forth at the meeting, is a new lower grade teacher to care for the unexpectedly large enrollment. Another subject prominently mentioned was the question of districting the city and placing children in buildings according to the location of their homes. Considerable dissatisfaction was reported to exist because of alleged hardships enforced by the present grouping, a plan being finally suggested by Superintendent Thordarson which is expected to remove the dissatisfaction.

In connection with the physical training it was suggested that an effort be made to develop pupils after the Reed College idea, which takes into account the fact that school athletics ordinarily trains those who are least in need of training, and that best results are obtained when the other pupils are cared for as well.

It is expected that similar conferences will be held from time to time through the year for the discussion of school problems.

## SCHOOL FUNDS ARE GIVEN OUT

STATE MONEY PORTIONED ON  
LAST YEAR'S REGISTRATION—  
NEW CENSUS TO BE TAKEN ON  
OCTOBER 25.

(From Monday's Daily.)

State school funds today are being turned over by County School Superintendent J. Alton Thompson to the individual districts. The entire sum, the first since Deschutes county was organized, amounts to \$4,506.78, of which Bend district gets \$1250. The county fund will be distributed in November after the second half of the 1917 taxes are in.

There are 2432 children registered in the county schools, making an apportionment of \$1.86 per capita. School districts are warned that the state law distinctly requires that warrants be paid in the order of their issue and now that the money is on hand, old ones must be paid up before new ones are attended to.

Census blanks are now being distributed among the school clerks who are to have them ready on October 25 instead of November 25, as last year. This change has been made on account of the county fund which will be distributed according to the new census, whereas the state money goes with last year's as a basis.

## HEALTHY GAIN IS SHOWN BY C. O. BANK

Total Resources Now Over \$268,000  
Deposits Show a Gain  
of \$54,000.

(From Friday's Daily.)

Reporting on its condition on September 11, at the call of the state bank examiner, the Central Oregon Bank shows a healthy increase over its report of a few months ago. Deposits now stand at \$242,366.27, a gain of about \$54,999, or 23 per cent. The bank's total resources now amount to \$268,683.88.
