SATHERS

Remember This--

If you are the least bit particular about the flavor, aroma and satisfying qualities of the coffees you drink,

Chase & Sanborn Coffee

is what you want

In 1-lb., 2-lb. and 3-lb. Cans

OUR TEAS ARE PREFERRED BY PARTICULAR PEOPLE

"Universal" Percolator
"IT PUMPS"

The acknowledged superiority of the "Universal" Percolator over all others is due to the patented valve and pumping process, which, before the boiling point is reached, automatically circulates through the coffee grounds six to ten times more water than any other Pot, thus extracting a correspondingly greater amount of coffee essence or strength and in far less time--making a more delicious beverage than can possibly be prepared in other Percolators.

You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills and Foley Cathartic Tablets. Sold everywhere.--Adv.

We Are Booking Order Now for Spring Delivery

On account of the number of orders that we have at the present time, we have been forced to take orders for spring installations. We have a number of large orders that we are working on now, and as the metal strips have to be cut at the factory it is necessary to find out now about the work for this next spring.

With our experience in this work, and the modern system that we are using, it is possible to do the work in a short time, but we have to get the orders in from thirty to sixty days before the work is to be started.

At the present time we are working on the Pilot Butte Inn, and can be seen there at any day time.

Remember Any Style or Shape Window Can be Fitted with the National Metal Weather Strips.
