Set Style Standards for the World--

Famous modistes of Paris, London and New York often differ on the best styles in gowns. But they invariably agree on BON TON as the criterion of Corset Style.

Their greatest creations are planned for wear over the faultless lines of the BON TON. For they know, from long contact with well-gowned women in many lands, that BON TON is favored by women who really care.

Not alone for the better drape and fit of gown. But for the absolute comfort and wonderful service so carefully blended with most advanced style. Thus does Fashion pay its world-wide tribute to the 60 years of experience behind every BON TON corset you wear. Price
