

QUOTA OF CITY EASILY PASSED

\$138,250 IN BONDS IS BOUGHT HERE.

Bend's Percentage For Liberty Loan 125—Total Reaches Minimum Expected For County—Many Pledges Came Unsolicited.

(From Monday's Daily.)
Exceeding all expectations, Liberty bond subscriptions in Bend mounted to \$138,250 Saturday night, this sum being officially announced by the Central Oregon and the First National banks this morning as the city's total in the two weeks' Liberty Loan campaign. The figure given includes all mill subscriptions, even the \$5000 given by the home office of the Shevlin-Hixon Company. A small part of the amount represents bonds purchased in the outlying districts tributary to Bend.
As Bend's quota for the purchase of bonds was fixed at \$110,000, the percentage reached by the city is 125, the bulk of the increase over the minimum required being subscribed during the last two days of the campaign. The amount in fact, is just over the county quota, and with Redmond and La Pine banks still to report, it is certain that Deschutes county's pledges will be well above the minimum.

Support General.
The larger part of the Bend subscriptions came during the first week of the campaign as the result of wide publicity given the movement, and whirlwind soliciting. It was during this period that out-of-town speakers conducted meetings at the mills and camps, where approximately \$55,000 was pledged. The total for the first week was slightly over \$100,000.
During the second week subscriptions were almost entirely without solicitation, the only work of this

kind consisting in the sending out of letters to the rural districts.
The campaign throughout was featured by the large number of subscriptions made, \$50 bond purchases being by far the most numerous and indicating the general support of the community.

INCREASE WAR BREAD OUTPUT

BAKERY MANUFACTURES FOUR TIMES USUAL QUANTITY OF DARK LOAVES—PATRONS ARE MORE CONSERVATIVE.

(From Friday's Daily.)
Four times the usual quantity of dark breads are being purchased in Bend since the food conservation campaign began in earnest, according to the statement made today by N. R. Oliver, proprietor of the American Bakery. Every restaurant in the city, in cooperation with the food administration, now receives coarse bread only on Wednesdays, while the local trade in rye and graham loaves has increased about one-fourth.

No attempt has been made to put out a straight so-called "war bread" composed of a very little white flour and more rye, graham and whole wheat on account of the present demand being small. Even doing this once a week, Mr. Oliver feels that people would not make purchases unless the plan were made compulsory.

Whereas in the past, the bakery had on hand an average of six sacks of stale bread at the end of each week, it now requires two weeks to accumulate one sack. This small amount does not go to waste, as farmers are eager to get it for their chickens. There is a noticeable conservatism shown by customers now when making bread purchases, according to bakery employees. People are finding ways in which to use up their stale bread and seldom make a purchase when a half loaf is remaining in the bread box. The bakery likewise is more careful in estimating the exact output needed each day.

In spite of the increased cost of sugar and eggs, the price of pastries has not been raised and will not be until wholesale prices on the ingredients take another big jump. The demand for sweets continues normal. Agitation for the use of corn bread has been stopped, according to Mr. Oliver, on account of the price being much higher than that of any other kind.

LODGE ROOMS WILL SOON BE COMPLETED

Masons Get Completely Equipped Hall—May Be Ready for Occupancy in Ten Days.

(From Friday's Daily.)
Within a week or ten days the Masonic lodge rooms in the Pringle Building will be ready for occupancy. The plastering has been completed and only the finishing touches remain to be put in.

The building is complete in every detail and Contractor J. J. Cunningham believes that it is one of the finest equipped in the state. Besides the main lodge room there are a dining room, club room, commandery and kitchen, occupying the entire upper floor. The woodwork is to be finished in golden oak with a floor of fine maple.

In the main lodge room, which is 20 by 70 feet in size, a platform is arranged at either end. The club room directly in back of this is equipped with a fireplace and library. The kitchen will contain a sink, tank and electric range besides a number of cupboards. This adjoins the dining room, which occupies the other side of the front. Six small ante rooms have been arranged along the main hall and these will be used as lockers for paraphernalia.

ELUDES HUSBAND BY HASTY DEPARTURE

Mrs. Frank Wolters Settles Question of Custody of Child by Taking Him With Her.

(From Friday's Daily.)
Following a complaint filed by her husband, who was seeking to obtain a divorce and custody of their two and a half year old child, Mrs. Frances Wolters left town last night with her children and returned to her former home in Grand Rapids, Michigan. The complaint which was to have been served yesterday, failed to reach the woman, who was seeking to elude her husband because, she told officials earlier in the day,

New Orders Change Lineup of Drafted Men Certified to Serve in National Army

(From Monday's Daily.)
New instructions received this morning by the local draft board have made necessary a revision of the lists of the drafted men called to leave for American Lake on Saturday. As a result a number of those already ordered to mobilize will not have to go, their places being taken by men with lower order numbers whose exemption claims have been denied by the district board.

So far as now known the men affected by the order are Kenneth Sawyer, Jerry Winkle, Emerson Cooper and Victor McElfresh. These, the adjutant general has ordered the local board to send to American Lake on Saturday, notifying the board that two more names will be sent in shortly. Nine will be needed to fill out the county quota of 37, one of these filling the place of a man already sent to American Lake and rejected because of physical disability.

The men called last week whose numbers are higher than those of the six mentioned in the telegram from the adjutant general will not leave

on Saturday except as needed to fill out the nine.

The local board is also ordered to reopen the case of Hartwig M. Tanum who was rejected when he attempted to volunteer and believed this made it unnecessary for him to go through the forms of the draft, resulting in his name being held for posting for failure to appear. The board is instructed to apprehend R. W. Laughlin and Edward Walker.

In connection with the denial of claims for exemption made on the ground that the man has dependents the district board has called the attention of the local officials to the provisions of an act of Congress designed to assist in such cases. As the law now stands a soldier with dependents must allot at least \$15 of his monthly pay to them and in addition they will receive, on application, amounts not over \$50 per month. Applications for this aid must be made to the Military and Naval Insurance Division, Treasury Department, Washington, D. C.

he had made threats to kill her. She hired an automobile last night to take her to Deschutes where she boarded the north bound train.

In the divorce papers sworn out by her husband, Frank Wolters, Mrs. Wolters is charged with cruel and inhuman treatment. The complaint states that she abandoned their home-stead and took the furnishings with her, threatened to shoot the plaintiff and refused to cook his meals. The father asked the custody of the one child, Harold. The other three children are by a previous marriage.

RETURN FROM TRIP.

(From Thursday's Daily.)
After spending 10 days on an outing at C. W. Allen's ranch, "Allendale," on the Metolius river, J. Wesley Ladd, president of Ladd & Tilton's Bank, of Portland, and A. L.

Tibbets returned this morning to Portland. Although they bagged no deer, the sportsmen found plenty of fish and grouse. They climbed Mount Jefferson and went over the other side of the Green Ridge. Mr. Ladd expressed appreciation of the wonderful scenery. This is the fifth trip he has made to the ranch, having come each time during the hunting season.

TO LOOK FOR SPRINGS.

(From Monday's Daily.)
Grazing Examiners J. C. Kuhns and F. V. Horton are planning to go to the Pine Mountain country this week to look for springs on the range. In case they do not find any they will locate a suitable place for a well and will consider other problems of water development.

Don't put on the roof until you investigate

It is poor economy to save money by substituting something inferior but wouldn't you like to save on cost if you could get something better? You can get a better roof for less money if you put on

Certain-teed Roofing

Before its merits were recognized, roll roofing was regarded as a more or less temporary roof—but now CERTAIN-TEED has demonstrated that it is not only a most durable roof, but also the most efficient roof.

It is economical to buy, inexpensive to lay and costs practically nothing to maintain. It is light weight, clean, sanitary, fire-retardant and weather-tight.

It is now used as the preferable type of roof for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is demanded. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

Certain-teed Slate-Surfaced Asphalt Shingles are supplanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire-retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes are the best quality paint materials, ground and mixed with mechanical accuracy. Made for all uses and in all colors. With paint, as with roofing, the name CERTAIN-TEED is a guarantee of quality and satisfaction.
