**It May Happen to Yours**

—whirled on skidding tires into a disastrous crash

Stop endangering your life as well as the lives of others. When streets are wet, always "chain your car to safety." Take no chances. Equip all four tires with

**Weed Anti-Skid Chains**  
 The ONLY Positive Safeguard Against Skidding

Safety demands that all tires be equipped with Weed Chains. It doesn't require the gift of second sight to see why this is true. Rubber slips—never grips. It slides on wet pavements and roads like a cake of soap on the moistened hands.

Rubber lacks the bite-and-hang-on ability to prevent skidding, while Weed Chains hold on like a bull dog, prevent side-skid and drive slip. Equip both front and rear tires with Weed Chains. Do it today—before it's too late.

Complete Stock—All Sizes—For all Makes and Styles of Tires
