VOL. XV.

BEND, DESCHUTES COUNTY, OREGON, THURSDAY, NOVEMBER 15, 1917

NO. 37

## CROWD ENJOYS CARNIVAL NIGHT

### MOOSE PARADE STARTS WEEK OF FUN.

Red Cross Booth Is Tastefully Prepared—Arrests By Carnival Policemen Amuse—Many Dance During Evening.

(From Tuesday's Daily.)  
With a large crowd of fun seekers attending, the second annual Moose Carnival opened last night at the Hippodrome. Although more successful than on the opening night last year, from a financial standpoint, it is only a starter, is the declaration of the committee in charge, who have added new features, and improved those already in operation, for tonight's session.

As a prelude to the carnival itself, members of the local Moose lodge gathered shortly before 8 o'clock at their club rooms on Bond street, and with two lodge policemen leading, marched to the Hippodrome. The prize car which is being offered by the lodge, carried the members of the carnival committee.

Inside the building, the walls were lined with booths, with a stand near the entrance where United States coin was sturned in for Moose currency, the preferred medium of exchange. Doll racks, refreshment stands, and poultry pens attracted much attention, while an especial feature was the big gambling den, where various games of chance were going full blast. Only Moose currency could be wagered on the gaming tables.

**Red Cross Has Booth.**  
One of the most tastefully prepared booths of the entire carnival was that of the Bend Red Cross chapter, bearing the order's emblem, with signs of "Help win the war with your needle." Mrs. W. C. Birdsall was in charge of the booth, and aided by a number of girls, sold red and white carnations for the benefit of the chapter. The flowers were eagerly purchased and the stock was soon exhausted.

The Red Cross exhibit included a Christmas package for the soldiers in France, comfort kits, and specimens of sewing, knitted work, and surgical dressings. Articles of home cooking are also to be on sale this evening, and Mrs. Birdsall declared that any donations for this purpose would be gratefully received.

**Jail Delivery Thrilling.**  
Order was carefully preserved during the evening, for special policemen decorated with huge tin stars, made numerous arrests, incarcerating their prisoners in a cell constructed on the stage. Trial with a certain and speedy conviction followed in practically every instance, only one prisoner making his escape. Making his way through the top of the cell, Charles W. Erskine clambered about the rafters at the top of the building in a thrilling jail delivery.

Music was furnished during the evening by Beer's four-piece orchestra, and dancing proved a popular amusement.

## RENEW CONTROVERSY OVER COUNTY SEAT

(From Saturday's Daily.)  
The question of the validity of Madras as the county seat of Jefferson county has been renewed by a petition presented in the supreme court this week asking for a re-hearing. Although the court rendered a decision last month giving Madras the seat, attorneys for Culver are working on the theory that the county division law was misunderstood by the court. Further action may be taken within the next few weeks.

### GAME WARDEN COMING.

(From Wednesday's Daily.)  
That Carl Shoemaker, state game warden, will be here during the latter part of the week has been learned by J. J. Cunningham, Mr. Shoemaker will go from Bend to Burns. While in town he may look over the proposed site for a fish hatchery on Fall River.

## Aroma of Whiskey Rises as Sheriff Breaks Glassware

(From Wednesday's Daily.)  
Sheriff Roberts has a little hammer. It is a neat little implement, easily adapted to cracking bottle necks. One tap of its slender point and aromatic waters are released from many a quart of forbidden amber liquid which flow over the window ledge in the sheriff's office into an alley back of the court house, where a heap of broken glassware has accumulated in the past few days.  
This morning workmen on the new county jail and chefs in a nearby restaurant sadly witnessed another assassination of 24 quarts of sparkling liquid contributed to the irrigation system in the alley by Sam Woods, who was fined yesterday afternoon for having them in his possession.  
The cargo which went over the window sill this morning was minus three quarts of Blue Ribbon, which were destroyed yesterday for the especial benefit of Mr. Wood, who expressed skepticism as to the disposal of the confiscated goods.

## BEND BANK NAMED U. S. DEPOSITARY

First National Will Handle Federal Funds, Is Notice Received From San Francisco.

(From Saturday's Daily.)  
Notification from federal reserve headquarters in San Francisco was received this morning by C. S. Hudson, president of the First National Bank, of Bend, to the effect that the Bend bank has been designated a United States depository. The appointment has been sought for the last three years by Mr. Hudson, and will mean the handling of all money used for government purposes, or loaned by the government, including funds coming in from the federal land bank under the rural credits law.

The First National is already a depository of the State of Oregon, Deschutes county, and the City of Bend.

## ASKS BIDS FOR NEW POSTOFFICE

NEW LEASE TO BE MADE FOR FIVE OR 10 YEARS—AT LEAST 2000 SQUARE FEET OF FLOOR SPACE NEEDED.

(From Monday's Daily.)  
Bids are being called for by Postal Inspector C. W. Linebaugh, who is in town on a brief trip, for post office quarters for the next five or 10 years. Specifications for the building require not less than 2000 square feet of floor room. The situation should be close to the business center and not more than a quarter of a mile from the depot. A lease of from five to 10 years beginning on March 2, 1918, is asked. Bids are receivable until November 27.

The lease on the present building expires early in the year and it therefore becomes necessary for a new lease to be made.

Mr. Linebaugh is the long expected inspector who was to make a report on the number of houses which have been numbered and the advisability of bringing in delivery service.

Because a sufficient number of houses have not been numbered, Postmaster H. B. Ford was unable to petition for the service, and therefore no report will be made this time. Mr. Linebaugh has been here twice before expecting to receive orders to look into the matter, but unless house numbers are secured he cannot do this.

At present his principal concern is the postoffice. With floor space nearly twice the size of the present area it will be possible to accommodate more private boxes. The owners of the building leased will be required to furnish all equipment. Applications blanks and specifications may be obtained of Postmaster Ford.

## DISTRICT PLAN MAKING GAINS

### PRELIMINARIES FOR VOTING ARRANGED.

Meetings to Be Held Last Week in November to Explain Issue to Settlers on C. O. I. Lands, and to Name Directors.

(From Wednesday's Daily.)  
With the date for the irrigation district election set for December 17, the final details for the preliminary organization are in line for completion, and in a few weeks more it is expected that a long step will have been taken toward giving the settlers on the C. O. I. project control of irrigation affairs within the boundaries of the proposed district.

A large amount of preliminary work necessary in preparing for the election was handled by a steering committee headed by J. Alton Thompson, and having as its other members J. J. Ellinger, Charles Douglas, C. L. Mead and J. F. Rice. Mr. Ellinger acted as secretary and Mr. Rice as treasurer of the organization.

**Meetings Planned.**  
To explain thoroughly all phases of district organization and its benefits to the settlers, it is planned to call meetings for the last week in November at Terrebonne, Alfalfa, Redmond, Powell Butte, Deschutes and the Grange hall. These meetings will also offer an opportunity for the nomination of directors for the district, 10 settlers being necessary for the voicing of such a choice.

When the district election is finally held, voting will be at the following places:  
Terrebonne, Harvey Gates' residence; Redmond, the Redmond home; Alfalfa, the Alfalfa school house; Deschutes, the Deschutes school house. Names on the ballot must be in not later than December 7.

The settlers are represented in the legal phases of the organization by H. H. De Armond, of Bend, and Claude McColloch, of Portland. Mr. De Armond was also attorney for the old Squaw Creek Irrigation district.

## POTATOES YIELD WELL

One of the heaviest potato yields reported this fall is that obtained by B. Torkelson on his ranch east of town. Mr. Torkelson put in four acres of spuds and from these he obtained 946 sacks, or 236 sacks to the acre.

## Springer Quits Under Fire; Wallace Gets Job in Crook

(From Saturday's Daily.)  
SALEM, Nov. 10.—N. G. Wallace, of Prineville, was named county judge of Crook county yesterday by Governor Withycombe, to succeed Judge Springer, who resigned to avoid recall proceedings said to have been pending against him.

The change in county judges in Prineville comes as the climax of a stormy year in Crook county politics. Recall proceedings had been earlier considered at a mass meeting in the county seat, one of the chief complaints made against Judge Springer being that he made his home on his ranch in Jefferson county. Agitation for his removal was temporarily dropped when he removed to Crook county. Shortly after, Judge Springer filed a suit for \$50,000 damages against the leaders in the campaign, charging libel. The suit was decided against him, however.

N. G. Wallace, the new head of the Crook county court, is well known to Deschutes county people, chiefly from the fact that he is counsel for the plaintiffs in the quo warranto proceedings, filed shortly after the formation of Deschutes county, questioning the existence of the county.

## COURT UPHOLDS THE NORTH UNIT

### ORGANIZATION LEGAL IS DECISION.

Opinion By Supreme Court In Appealed Case, Removes Important Obstacle to Flotation of \$5,000,000 District Bonds.

(By United Press to The Bend Bulletin.)  
SALEM, Nov. 13.—The Oregon supreme court today affirmed the decision of Circuit Judge T. E. J. Duffy in the suit of Hiram Links, et al, vs. the North Unit Irrigation District, appealed from Jefferson county. Links endeavored to contest the organization election, and lost in the lower court.

By virtue of the opinion handed down today by the supreme court, an important obstacle in the way of the bonding of the North unit district is removed, and it is expected that steps will now be taken to secure the approval of state authorities, as a \$5,000,000 bond issue has already been voted, settlers in the district holding an election for the purpose on October 25 of this year. Since then the outcome of the appealed case has been anxiously awaited, as deciding whether or not further steps could be taken toward the watering of the large area included in the district.

The North Unit settlers contemplate the irrigation of approximately 100,000 acres of land and for this work a tentative rate of \$50 an acre has already been made, it is understood. Storage reservoirs at Crane Prairie and possibly at Benham Falls are planned to furnish the needed water for the land, most of which lies tributary to Gateway, Madras, Metolius, Opal City and Culver.

## SEASON FOR MOVING STOCK NEARLY ENDED

(From Saturday's Daily.)  
This year's movement of sheep will be practically ended when the 16 car special train leaves tomorrow for Chicago with 2209 head of stock shipped by W. H. McCormick. The Union Pacific is providing special transportation for them while the O.-W. R. & N. is also sending an extra train to Portland the same morning with 275 head of cattle which K. O. Buick has brought up from the southern border of the state. Through the efforts of S. L. Wiggins these have been brought through Central Oregon instead of California. Mr. Wiggins is endeavoring to direct similar shipments through here and develop the local line as an avenue for stock.

## Springer Quits Under Fire; Wallace Gets Job in Crook

(From Saturday's Daily.)  
SALEM, Nov. 10.—N. G. Wallace, of Prineville, was named county judge of Crook county yesterday by Governor Withycombe, to succeed Judge Springer, who resigned to avoid recall proceedings said to have been pending against him.

The change in county judges in Prineville comes as the climax of a stormy year in Crook county politics. Recall proceedings had been earlier considered at a mass meeting in the county seat, one of the chief complaints made against Judge Springer being that he made his home on his ranch in Jefferson county. Agitation for his removal was temporarily dropped when he removed to Crook county. Shortly after, Judge Springer filed a suit for \$50,000 damages against the leaders in the campaign, charging libel. The suit was decided against him, however.

N. G. Wallace, the new head of the Crook county court, is well known to Deschutes county people, chiefly from the fact that he is counsel for the plaintiffs in the quo warranto proceedings, filed shortly after the formation of Deschutes county, questioning the existence of the county.

## Tobacco Fund For Soldiers Boosted by Contributions

(From Wednesday's Daily.)  
Subscriptions sufficient to fill five American soldiers with tobacco joy, have been received in response to the announcement Monday of The Bulletin's army tobacco fund, \$1.25 having been given without personal solicitation, to finance the purchase of five smoker's kits.  
Mrs. W. H. Staats started the fund with a contribution of 25 cents, and H. E. Baker and A. R. Foxley each donated a half dollar.  
The lack of good American tobacco is one of the needs most keenly felt by the United States soldiers in France, and it is to help fill this want that the tobacco fund is being handled in Bend by The Bulletin.  
Subscriptions may be made either in person, or by mail.

## POTATO GROWERS TO MEET ON OCTOBER 17

Final Details of Reorganization May Be Completed By Farmers Saturday at Redmond.

REDMOND, Nov. 15.—An important meeting for all interested in the Deschutes Valley Potato Growers' Association will be held in Redmond, Saturday, November 17. At this time the plans for the final reorganization of the association will be decided upon and directors for the ensuing year elected.

The fame of the quality of the Deschutes valley potato output has been developed largely by the business transacted in standardized potatoes by the association. To continue the reputation for the crop so far attained, it has become necessary to strengthen and enlarge the association. It has for some time been apparent that the many evils which exist in the marketing and distribution of farm products can only be remedied by the organization of producers to form their own selling associations conducted upon a businesslike basis. It is hoped by the directors of the association that a large representation of growers will attend the Saturday meeting.

## DESCHUTES GETS SCHOOL FUNDS

ATTORNEY-GENERAL SUSTAINS OPINION GIVING DISTRICT NO. 8 PREFERENCE OVER CROOK COUNTY SECTION.

(From Wednesday's Daily.)

The opinion given by District Attorney H. H. De Armond in the controversy over the ownership of school funds in District 8, which was split between Crook and Deschutes counties at the time of the county division, has been sustained by the attorney general of the state. This means that Deschutes county is entitled to the funds originally intended for the whole large district.

There has been much discussion on the subject the past six months and the issue remained in doubt until the letter came from Salem yesterday and settled, presumably once and for all, the questions over similarly divided districts.

Prior to the last election, when Deschutes was made a county, the people in District 8 had voted a special tax for the erection of a school house in the section now in Crook county. Then with the election the territory was redistricted, making two instead of the one section for which the school house had been intended. The one on the Deschutes side of the line collected the funds for the building and there began the quarrel, as the Crook people could get no share of the money. In order to end the dispute Mr. De Armond recently requested the attorney general to give his opinion in the matter.

## FUND FIGURES ARE INCREASED

### BEND REACHES \$2650.00 THIS MORNING.

State Reports Show Other Counties Over-Subscribe—Telegram From John R. Mott Says More Money Will Be Needed.

(From Tuesday's Daily.)  
Roughly estimated figures given out this morning by T. H. Foley, chairman of the Y. M. C. A. war fund committee show a total of \$2650 as Bend's contribution to the work. R. M. Smith, H. A. Miller and A. Whisnant were the group securing the largest sum of money, which amounted to \$525. Another committee whose work was not reported with yesterday's figures was composed of Fendall Waite, C. V. Slivis and H. M. Greiner.

It will be impossible for the committee to prepare a complete list of subscriptions until later in the week, only the preliminary checking having been accomplished. Many of the small pledges are still to be collected. In addition to the \$200 given by each of the mills four contributions of \$100 from the First National Bank, the Central Oregon Bank, the Bend Company, and the Bend Water, Light & Power Company were received by Mr. Foley.

**Expresses Appreciation.**  
A telegram received this morning from L. G. Nichols, chairman of the eastern division, expresses appreciation of the way in which Bend gave to the fund. It reads:  
"Your report for Deschutes county is excellent, just what I would expect from the bunch I met when in Bend. Hope you will push the campaign to the limit. Later reports indicate that a sum very much in excess of \$35,000,000 is going to be needed. State Chairman Davidson and Lockwood send congratulations."

**\$15,000 IS RAISED.**  
PORTLAND, Ore., Nov. 13.—Incomplete returns from 10 counties show that \$15,000 has been received by the state Y. M. C. A. war fund committees. Three counties have already over-subscribed.

**Fund to Be Increased.**  
A significant telegram just received from John R. Mott, general secretary of the International Y. M. C. A., says, "In the light of startling developments on the eastern and southern fronts within the past few days and of a significant cablegram just received from the prime minister of France it is clear that we shall need much more than \$35,000,000, and this is in the national interest as well as for the sake of the allies. These recent developments have convinced our best advisers that the war will continue longer than most of them anticipated when our goal was fixed. All think it most desirable to raise a sum sufficient to make another drive unnecessary prior to October of next year."

**Speed Is Urged.**  
Subscriptions are coming in most liberally in practically all sections of the state, said S. O. Lockwood, state chairman, this morning. The committees are urged to prosecute the campaign and produce as great results as possible. Several counties have already over-subscribed and conditions throughout the state are most pleasing. Chairmen are instructed to fill their allotment at the earliest possible date, then work for the largest possible surplus.

## TURKEY SHOOT AT SISTERS PLANNED

Preparations for a turkey shoot on a grand scale are being made at Sisters this year by P. Huntington, of that section, who has now on hand more than 150 fat young birds to be available as prizes for the marksmen. Central Oregon turkeys are becoming more and more popular by reason of their excellent flavor, and a big turnout at the shoot is expected.  
The shooting will start at 10 o'clock in the morning and will continue all day.
