This building with

Certainteed

Last in place but first in

choice

The roof is the last to go on your

building; but the selection of an efficient and eco-

nomical roof is of first importance. If you will use

Certain-teed

Roofing

on your building you will get the most efficient roof, and will cut down the cost of the roof materially.

CERTAIN-TEED Roofing is economical to buy, inex-

pensive to lay, and it costs practically nothing to main-tain. It is weathertight, fire retardant, clean, sanitary, and

gives the utmost roofing service over a period of years.

CERTAIN-TEED is guaranteed for 5, 10 or 15 years,

The quality and merit of CERTAIN-TEED have made it the

preferable type of roofing for office buildings, hotels, factories,

stores, warehouses, garages, farm buildings, etc. If you are build-

ing it will be to your interest to investigate CERTAIN-TEED.

There are many roll roofings, but only one CERTAIN-TEED.

As it costs no more to lay a CERTAIN-TEED Roof than it

does to lay a poor roof, it will pay to get the best, and save on renewals and upkeep. You can't tell the quality of roll roofing

by its appearance, or by feeling of it; your only safety is in the label. Be sure it is CERTAIN-TEED.

Certain-teed Slate-Surfaced Asphalt Shingles

are supplanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes

according to thickness (1, 2 or 3 ply).
