

CLASSIFICATION WORK GOES ON

FOUR DAYS ARE NOW COMPLETE.

Many Questionnaires Are Delayed In Mail—Delinquents of Last Two Days Account For Large Number In Class I.

(From Friday's Daily.)

That there will be a few delinquent questionnaires is to be expected, said a member of the local board today. He stated that many of the questionnaires were mailed in the proper time to get them to the local board if the mail had been normal, but the delayed trains, the heavy rains and the Christmas rush have all tended to create a congested condition in the postoffices throughout the county.

It is expected by the draft board that they will receive some word as to what will be done with the delinquents. Probably on the evidence of good faith on the part of the registrant to get his copy to the local board in the required time, the board will be allowed to extend the time.

All the questionnaires for the first day are in the hands of the board except that of Eugenio Saravalle. This has not been heard from at the present time.

Delinquents in yesterday's classifications are as follows: Vasilta Francu, James E. Peterman, Charles A. Hiscock, Vernon L. Calverley, Walter J. Boyd, Shigeru Skiyama, Charley Nelson, George Smith, Steve Saban, Sherman G. Wilson, Samuel E. Kline, John C. Thompson, Naum P. Jordan, Henry N. Fowler, Hugh P. Crow, William J. Lyons and Eric Boit. These are all automatically placed in Class I, on account of failure to return the questionnaires within seven days of the date they were mailed. Several of the men in the list are already in the army but the local board has not received formal notification of this.

Because of the vacation on Christmas night catching up on the classifications, all of which are now up to date.

EVEN THE FIREMEN ARE KNITTING FOR THE SOLDIERS

Knitting for the soldiers is no longer confined to the women. The firemen of Rome, N. Y., have found quite a deal of time to spare while waiting in their firehouse for blazes to start. So all day and all night those on duty are at their knitting turning out socks for the American fund for French wounded, which installed three knitting machines in engine house No. 2.

GRIEVANCE BOARD HEARS FIRST CASE

(From Monday's Daily.)

The agreement between the saw mills and the Timberworkers' Union for the settlement of disputes over the discharge of employes was brought into use for the first time last week when Lee McFarren, discharged by the Brooks-Seaton company on a charge of incompetence, requested a hearing before the grievance committee. The hearing was set for Saturday afternoon but before any testimony was introduced, Vernon A. Forbes, stating that the company wished to eliminate the trouble and inconvenience of a long hearing, said that he had been authorized by Manager Keyes to announce the company's willingness to place the discharged man in another position with equal pay. This offer was accepted and the case dismissed.

VOTERS DEFEAT ALL MEASURES

THREE AMENDMENTS FAIL TO CARRY.

Only 155 Votes Cast In Special City Election—City Will Be Short of Funds, Says Member of the Finance Committee.

(From Saturday's Daily)

With each of the three measures voted on at the special city election defeated, the polls were closed last night after 155 ballots had been cast. As a result the city must prepare for a lean year on account of the financial shortage, which the council hoped to remedy if the proposed \$25,000 budget had been passed. Including the six per cent increase which the council is permitted to make in the budget without the vote of the people, the treasury will have in it during 1918 a sum in the neighborhood of \$10,600, whereas it required nearly \$20,000 to pay expenses this year.

Shortage of Funds.

According to Clyde McKay, chairman of the finance committee, none of the improvements made this year could have been held off as they were cut down till only the absolutely necessary ones remained. "There wasn't enough interest shown by the taxpayers in the election," he said. "If we have to cut off the lights or something of that sort the business men will realize they should have voted more funds. The city will have only 35 or 40 per cent of the money needed in its operation."

Failure to pass the measure which would make the Bancroft act effective in Bend virtually stops most of the proposed street improvements, as the same old method of paying for them will continue. Under the Bancroft act bonding companies may finance an improvement while it is being made. When the cost is learned the city council issues bonds which run for 10 years and which are payable semi-annually. By the present method property may be sold for the cost of the construction work within 30 days after notice is given.

Election is Changed.

Under the present arrangement, according to a city official, all of the six councilmen will be elected new every two years instead of having the terms expire on alternate dates, as a result of the defeat of the second measure.

The votes counted showed the following figures:

Bancroft Act amendment—

For	71
Against	81
Biennial City Elections—	
For	69
Against	84
\$25,000 Tax—	
For	59
Against	93

It is difficult to say what the tax levy for the next year will be until various figures are compiled. The city already has a bonded indebtedness of \$60,000 for sewers, \$35,000 for Strahorn terminals, and \$16,500 for refunding bonds. An automatic tax levy provides interest on these.

SUIT BROUGHT TO DENY CITIZENSHIP

I. W. W. Who Was Active In Bend Last Spring May Have Naturalization Revoked.

(By United Press to The Bend Bulletin.)

PORTLAND, Dec. 28—Assistant Federal Attorney Rankin has today filed a suit to revoke the naturalization granted to Carl Sweiglin on the grounds that Sweiglin is an I. W. W. worker and could not truthfully subscribe to the constitution. This is the first suit brought in the country on these grounds.

Sweiglin was active in the Bend and Klamath I. W. W. work and was arrested in the latter town.

Sweiglin came to Bend early last summer and opened an I. W. W. headquarters. In July he was arrested and taken to Portland for examination by Federal authorities but was not held. Later he went to Klamath Falls and was arrested there in the country wide round-up of suspected I. W. W. members.

THRIFT STAMPS SOLD HERE BRING IN \$600

Children Show Interest In Savings Scheme—One Man Buys Five Certificate Stickers.

(From Friday's Daily.)

Why not make a New Year's resolution to buy so many thrift stamps a week? Postmaster Ford suggests that men put part of their cigar allowance in stamps. Women could easily find some similar source of savings.

About \$600 worth of the stamps have been sold in Bend thus far. On account of the Christmas rush very little interest has been shown in the sales but now that here is more time it is hoped they will increase. As yet no one has made application for place as agent for the money saving stickers.

Children are taking much interest in the scheme and many of the 25-cent stamps are paid for in pennies. The largest number of certificate stamps owned by any one person so far is five.
