

SCHOOL SYSTEM IS EXPLAINED

PRINCIPAL GRANT DISCUSSES CHANGES IN THE METHODS OF CHECKING ON CONDUCT—MANY PARENTS ATTEND MEETING.

(From Thursday's Daily.)

Explanation of the new high school system of disciplining the students occupied the principal part of the meeting of the Parent-Teachers' Association held last night in the school assembly room. Following a talk by Principal H. M. Grant, parents of the students discussed the recent change in the method of checking up on conduct and attendance. As a whole the meeting was agreed that the present one was an improvement upon the old system, a few parents, however, objecting to suspension as a penalty for disorderly conduct. Two maintained that sufficient inquiry had not been made into individual cases.

Mr. Grant, in opening his lecture, emphasized the need that the students have a proper respect for authority. "We need cooperation between the faculty and parents in bringing this about," he said. "The student whose parents are not co-operating with his teachers is bound to get in friction with the school system. The average child feels that as long as his parents are back of him he is all right."

Change Was Necessary.

Introduction of the new method was the outgrowth of the increased attendance at the school, making it impossible to keep account of each pupil at all hours of the day. After conferring with faculty members and prominent educators of the state, Mr. Grant evolved the plan, which is being tried out. It was put together from suggestions made by all of those whom he consulted. Both Mr. Grant and the teachers, who spoke on the matter last night, said it had already had a beneficial effect in the few weeks of its existence.

Among the new rules instituted are the following:

No student shall be exempt from final examination if he has unexcused absences against him.

A readmittance card must be obtained from the office when a student returns to classes after an absence.

Records will be kept of the scholarship standing of each student by means of graphs on file in the office. If a poor student shows a rise in his work in three weeks he may continue as they are, if not he drops one course.

Noise in the assembly hall before classes is not permitted, in order that those coming early may study.

A check is kept on pupils in the assembly hall so that an absentee slip may be turned in.

Any student proving unsatisfactory in one class is automatically suspended from all and must promise to behave before readmittance.

Welfare Is First.

"Don't let the child's will be first. Make his welfare the foremost consideration," said Mr. Grant, in closing. Answering inquiries from C. L. Simpson, Mr. Sanders, and others, he explained the manner in which the recent difficulties in the high school had been handled and said each pupil had an opportunity to hold a conference before being suspended from school.

Miss Helen Manny, Miss Mabel Lawrence, R. M. Smith, Carl Johnson, J. P. Keyes, City School Superintendent F. Thordarson and H. J. Overturf all spoke on the matter.

Mr. Thordarson was of the opinion that the scholarship standing of the high school was about average. He said the attendance had been poor principally on account of the scarlet fever scare last semester.

As to the matter of giving a child a hearing when called up on the floor for poor conduct, he expressed himself highly in favor of letting the pupil tell his side of the case.

After the speaking last night, a social meeting was held in the domestic science rooms, where refreshments were served by the faculty women.

CLARENCE ORR WHITES.

(From Thursday's Daily.)

A letter just received from Clarence Orr, of Bend, who is now stationed on a U. S. receiving ship at Cavite in the Philippine Islands, says he has been at that point just one week. The weather is extremely warm and Mr. Orr has been sleeping on a lawn, where he can hear the monkeys in the trees. Swimming is fine but the sailors have to look out for the sharks, he says. Mr. Orr has a brother with the Atlantic fleet.

LOAD UP THE PIPES OF THE BOYS IN FRANCE.

Tear out this coupon, fill it in and send as much money as you can spare to buy tobacco for our fighting men.

THE BEND BULLETIN.

Enclosed find.....to buy.....packages of tobacco, through "Our Boys in France Tobacco Fund" for American fighting men in France.

I understand that each dollar buys four packages, each with a retail value of forty-five cents and that in each of my packages will be placed a postcard, addressed to me, on which my unknown friend, the soldier, will agree to send me a message of thanks.

CITY.....

H. H. DE ARMOND SUNDAY SCHOOLS SEEKS ELECTION TO SELL STAMPS

DISTRICT ATTORNEY IS CANDIDATE TO SUCCEED HIMSELF—FIRST TO ANNOUNCE INTENTION OF ENTERING PRIMARIES

(From Friday's Daily.)

Announcement that he will be a candidate to succeed himself as district attorney of Deschutes county was made by H. H. De Armond this morning. Mr. De Armond's is the first announcement from a candidate for county office but others are expected to follow soon. The primary election will be held on May 17.

Mr. De Armond has been a resident of Bend since 1913, coming here from Medford. He has been city attorney and, on the formation of Deschutes county, was appointed district attorney by Governor Withycombe. He is prominent in fraternal circles, being active in the Moose and Knights of Pythias lodges, and he is one of the trustees of the Baptist church. He is also an officer of the Oregon Irrigation Congress and is acting as attorney for local irrigation districts.

Mr. De Armond is married and has one son.

SUPERINTENDENT OF PLANT ARRIVES

C. R. Jordan Will Take Charge of Shevlin-Hixon Sash and Door Factory.

(From Saturday's Daily.)

To take charge of the Shevlin-Hixon sash and door factory when it re-opens, C. R. Jordan recently arrived in Bend and has become identified with the company here. Mr. Jordan was formerly in charge of a cut-up plant at Sisson, Cal., operated by Curtis Brothers, of Clinton, Iowa.

The sash and door factory will not re-open for at least six months, according to General Manager T. A. McCann, nor until general building conditions permit. At present a request from Director General McAdoo of the railroads, calls for no building except for government work, which has lightened the call for the product of the local plant.

FRATERNAL ORDERS ALSO APPOINT COMMITTEES TO HANDLE SALES—CHILDREN ARE VERY ENTHUSIASTIC.

(From Friday's Daily.)

Practically all of the fraternal orders of the city have been organized as thrift stamp agencies by H. H. De Armond, chairman of the general committee. Mr. De Armond has placed these agencies with the Knights of Pythias and Moose lodges, the latter permitting their office at the Moose club to be used as a selling point.

Children in the Baptist, Methodist and Presbyterian Sunday schools have appointed committees to manage the sales. Mr. De Armond has not yet had an opportunity to take the matter up with the Catholic, Lutheran and Christian churches but feels confident that they will enter into such an arrangement as readily as the others have. A large number of the children are already buying stamps through other mediums.

The lodges have shown considerable enthusiasm and promise to put the sale of stamps on a business basis.

PURCHASING BOARD TAKES NINE HORSES

Few Brought In to Town Saturday for Inspection By Cavalry Officers—Will Return In Month.

(From Monday's Daily.)

Owing to lack of information given ranchers in this district concerning the inspection of the cavalry horses held here Saturday, not enough of the mounts were brought in to make up a carload. The purchasing board, composed of three officers from Fort Keough, Montana, examined the horses at Aune's barn and found nine satisfactory ones. They secured enough for a carload from Redmond and Prineville together.

In order to give ranchers another opportunity to break in the animals and bring them into town, the members of the board will return to Bend the latter part of March or early April and inspect any others. They have gone on to Pendleton and will go from there to Klamath Falls.

CHICKEN RULES ARE EXPLAINED

FARMERS SHOULD NOT KILL HENS—EVERY ONE WOULD REPRESENT LOSS OF 30 EGGS BEFORE MAY 1.

PORTLAND, Or., Feb. 22.—W. B. Ayer, federal food administrator for Oregon, has issued the following statement, to which he directs the attention of all farmers, poultrymen, wholesale and commission men and retail dealers who sell supplies to hotels, restaurants or other public eating places, in this state:

"The United States Food Administration states that 'every hen which is sold before the 1st of May represents a food loss to the nation of about 30 eggs. The total loss of eggs represented by the customary selling of hens between Feb. 1 and May 1 is about 12,500,000 dozen. The value of these eggs is about 80 per cent of what a hen is worth, so that this prohibition against the sale of hens and pullets is not a loss to the farmer, but an actual gain. Therefore, no licensee shall, between February 11 and April 30, 1918, purchase, ship, sell or negotiate the sale of any live or freshly-killed hens or pullets. Farmers should not kill them, and people should not buy them."

"As this prohibition applies only to licensees, it does not prevent the producer or the unlicensed dealer from selling his stock. I have therefore, set a price of not to exceed 24 cents for live hens and pullets, and 28 cents for dressed, and the same shall not retail for more than 30 cents, and the same cannot be sold by a licensee and as before announced, any dealer selling supplies to hotels, restaurants or other public eating places, must be licensed. There is no restriction on the killing or the sale of roosters or cockerels, or other poultry."

"Fully appreciating that the supply of poultry would become insufficient for ordinary needs, except for the stock now held in cold storage, I am compelled to recognize the price for this stock in other markets, and if poultry is to be retained here for consumption, and not to be shipped out of the state, a reasonable price must be assured. I have assurances from a number of cold storage plants that they will not charge over 32 cents per pound, and such cold storage stock cannot be retailed for over 35 cents, and any prices in excess of these will be considered unfair and unreasonable."

UNION PACIFIC WILL DISCONTINUE OFFICE

(From Thursday's Daily.)

The local office of the traffic department of the Union Pacific lines in the O'Kane building has been closed, owing to war conditions. H. C. Oliver and H. W. Hicks, traveling freight and passenger agents for the O. W. R. & N. will continue to come in here alternate weeks and handle the entire Central Oregon territory in addition to their work on the main line.

Mr. Oliver went out to Eastern Oregon on the morning train. He was accompanied on this trip by Mrs. Oliver, who had never visited Deschutes county before.

According to Mr. Oliver, the Oregon Trunk traveling agent, J. T. Hardy, has had his territory extended so that he now works in the Willamette valley in addition to the Deschutes. Mr. Hardy is out of town just at present.

The movement to cut down in the traffic department is one of the results of the Federal Railroad Administration. In the state of Washington lines heretofore competing are now employing joint representatives.

FIRST HALF OF TAX FALLS DUE IN APRIL

(From Saturday's Daily.)

Warning is issued by the sheriff's office that the first half of the 1918 taxes must be paid on or before April 5 and the second half on or before October 5, becoming delinquent on the latter date. If the first half is not paid by April 5, interest is charged thereon at the rate of one per cent for each month or fraction of a month until paid. Thus if the entire tax on a piece of property is \$100, the first half is due in April. If paid on any day from April 6 to May 5, both dates inclusive, there should be added an interest charge on the first half due of one per cent, or 50 cents; from May 6 to June 5 inclusive, two per cent, or \$1.00, and so on.

FRANCE, JANUARY 7, 1918

To FRANKLIN MOTOR CAR CO'Y.

Syracuse, N. Y., U. S. A.

From OFFICER COMMANDING,

Vosges and Jura Groups,

Canadians, France.

Dear Sirs:

Will you kindly send me a couple of your catalogues? This zero weather is supplying us with a steady supply of frozen water-jackets, and both our own and the French Transport Officers have arrived at a keen appreciation of the many good qualities of the Air-Cooled Car.

I have owned two Franklin Cars, and expect to buy another one, if I last to finish this job. I have tried to get the War Office to supply us with one or two Franklins, for our work in France, and very nearly succeeded. The French appear keenly interested in that machine of yours, and from what I have told them, and from the advertisements that occasionally appear in "Life," I believe that if a Franklin demonstrator were attached to one of the Armies, you could sell all the cars that you could make.

In any case, send me a couple of catalogues, please.

Yours truly,

(Signed) LT.-COL. GEO. H. JOHNSON,

Officer Commanding,

Vosges and Jura Groups, Canadians, B. E. F., France.

STATE FORESTER ISSUES REPORT

SEVEN WARDENS EMPLOYED IN DESCHUTES COUNTY—CONSIDERABLE SUM EXPENDED FOR FIRE FIGHTING.

SALEM, Feb. 25.—The annual report of State Forester Elliot for 1917, just issued, carries some interesting facts as to what has been done in the way of forest patrols to fight fires in the Central Oregon counties.

In Deschutes county, the report shows, seven wardens were employed, of which number two worked for individual timber concerns, two were employed by associations, two were employed by the state under the Weeks federal law, and one was employed by the Forest Service. In Crook county 12 wardens were employed, one of these being by individual timberowners, one by an association, nine by the Forest Service and one was employed by the state. In Jefferson county two were employed, one by individual timber concerns, and one by an association.

The state and private agencies also expended considerable money in fighting forest fires in the three counties during the year. The total expended on the three counties was \$3611.49, of which \$900 was paid for individual patrol, \$1930.27 for association patrol, \$471.22 for state patrol.

patrol and \$319 was paid from the federal Weeks fund.

In Deschutes county 24 fires were reported, with 81 acres of merchantable timber burned over, 20 acres of second growth and 31 acres of cutover lands and old burns. In Crook county six fires were reported which burned over 115 acres of merchantable timber and in Jefferson county seven fires were reported which burned over 71 acres of merchantable timber.

The report shows that the Central Oregon Fire Patrol Association, which J. H. Haner of Bend is secretary, patrols 593,404 acres, of which 404,084 is the acreage represented by the members and 189,320 acreage patrolled for the state.

Showing the amount which has been assessed against the forest for fire patrol work since 1911, State Forester points out that Deschutes county was assessed \$78 in 1917. Jefferson county was assessed \$15.67 in 1916 and \$29.27 in 1917. Crook county was assessed \$934.84 from 1911 to 1915 inclusive, in 1916 Crook county was assessed \$1188.33 and in 1917 \$39.27.

The report states that J. B. De Armond of Bend is District Warden for Crook, Deschutes and Jefferson counties. The following patrolmen were also paid from the Federal War law fund: Robert Gatherwood, placing Wallace McCuen), La and A. W. Palmer, Bend

Now Is the Time to Be Careful. Avoid imitations or substitutes get the genuine Foley's Honey Tar, and you have a cough medicine you can depend upon. It gives relief, clears throat, loosens phlegm, soothes, heals. Checks coughs, whooping cough, la grippe, bronchitis, colds. Contains no opiates. everywhere.—Adv.
