SMALL CORRALL IS TO BE PUT ON RANGE

(From Tuesday's Daily.)
At a meeting of the executive board of the Tumalo Stockmen's association in the local forestry service office Friday afternoon, arrangements were made for accommodating 575 head of cattle on the range this season. An assessment of 75 cents per head will be collected from each user of the range, two-thirds of this to be in the hands of the association before grazing permits are issued.

A small pasture will be fenced in for saddle horses and stock during the fall round-up. The rider for this season has not yet been picked. The executive committee decided to put out three tons of salt.

EXCEPTION IS MADE

(From Thursday's Daily.)
Word has been received from the fuel administration that an exception to the new office building regulations regarding turning off the heat after 5:30 in the evening has been made and they will not apply to the court house on account of it being used for such a variety of purposes.

MAY FILL OUT CARDS.

One hundred registration cards for women, who would be willing to volunteer for government service of any kind, have been received here and are at the library, where anyone may fill them out as long as the supply remains. These are similar to the ones filled out last fall when the women's committee of the Council of Defense conducted a registration day.

The list of candidates, which appears today for the first time, shows a good representation for each district and assures every family in this section an opportunity for subscribing for The Bulletin and helping their favorite candidate win the prize which she most desires.

The list as it appears today is not entirely complete, as new nominations are coming in daily, but it is a start and will enable The Bulletin readers to ascertain whether or not their favorite's name is there. If anyone finds that the name of the lady whom they would like to see win one of the numerous prizes is not included in the list, they still have plenty of time to correct this situation by filling out the nomination blank which will be found on another page of this issue and sending it to the campaign manager with the lady's name properly filled out.

Prizes for All.

As announced heretofore, this is in no manner a popularity contest, but simply represents The Bulletin's idea of the best means of building up circulation and doing it quickly. Instead of hiring professional solicitors to call on the people, we have decided to divide the money among the ladies of this section and so help in keeping the money at home. Every lady who joins this campaign will be adequately and properly remunerated. The winners of the larger prizes will receive many times what they could possibly earn during the next few weeks at any other employment and our promise of ten per cent. commission on all money collected on subscriptions by non-prize winners will enable many to earn

CARDS ARE INDEXED.

(From Monday's Daily.)
Twenty school teachers working in the high school all of Saturday completed the classification of statistical information regarding all of the 800 Deschutes county questionnaires. The indexed cards prepared by them were sent yesterday to the provost marshal general.

PROMINENT MEN TO SPEAK HERE

GOVERNOR WITHYCOMBE AND SEVERAL POLITICAL ASPIRANTS COMING TO DINNER—LIBERTY LOAN TO BE DISCUSSED.

(From Wednesday's Daily.)
Numerous prominent speakers will be here Saturday to attend the sheepmen's dinner to be given at the Pilot Butte Inn by C. S. Hudson, Governor Withycombe, R. N. Stanfield, Gus Moser, Ed. Cusick, Thomas G. Ryan and others will be on the program. Mr. Stanfield has announced his candidacy for the nomination for U. S. senator and Moser for governor, so the dinner will be slightly seasoned with a political flavor. The Liberty loan will be pushed particularly by Mr. Ryan, assistant district attorney for Multnomah county, who has been sent out by the state Liberty loan committee. Mr. Cusick is president of the Oregon bankers and will take up financial problems. Several representatives of the two railroads coming into Bend will also probably give addresses.

In order that the townspeople as well as the sheep men may benefit by the speeches, Mr. Hudson has arranged for them to make reservations for places in the grill room. These men will pay for their own places.

ORDER LIMITS FLOUR SALES

MORE SUBSTITUTES ARE REQUIRED

Must be on Equal Basis—Situation Serious—Requirements Made More Strict by Food Administration

(From Tuesday's Daily.)
Purchases of flour can no longer be made without an equal quantity of substitutes, according to the last order received here by County Food Administrator Hartrant, who yesterday notified all dealers that instead of insisting on selling 17 pounds of dark flour with every 50 of the wheat product they must do it on a fifty-fifty basis. Most of the local groceries are better prepared to meet the increased demand for the substitutes than they were a few weeks ago. While it is practically impossible to get corn meal and rice flour local merchants have managed to stock up on barley and potato flour. The latter, once so scarce, is now plentiful but is much more costly than other kinds. However, the situation regarding securing a sufficient supply of substitutes is still serious.

The following is the telegram sent Rev. Hartrant late yesterday by W. B. Ayer, food administrator for Oregon:
"Owing to the absolute necessity that the country furnish wheat for shipment to our army abroad and to the people of France, I have received positive instructions that no sale of flour can be made without an equal quantity of substitutes and I am putting this order into effect today. This will undoubtedly inconvenience many of our people but they must thoroughly understand that it is an absolute necessity and the time has arrived when we are called upon to come through and do our full part."

ERNEST DICK PAYS FINE OF \$100 TODAY

(From Wednesday's Daily.)
Having pleaded guilty to attempted burglary, Ernest Dick was this morning fined \$100 by Justice of the Peace J. A. Eastes. Dick, who is a chauffeur, 24 years of age, could not give a definite explanation of his motive in entering the Skuse Hardware Company's store Monday evening. He was very much frightened. Up to this time the boy has had a clean record and several business men attending the trial vouched for his good reputation. The fine was paid immediately Arthur J. Moore handled the case for the defendant and H. H. De Armond for the state.

BANQUET IS GIVEN BY EASTERN STAR

(From Thursday's Daily.)
About 70 members of the Eastern Star and other guests were present last night at the banquet given by the local chapter in its rooms for Mrs. Lena C. Mendenhall, worthy grand matron of Oregon, who is making an official visit to the lodge. Mrs. Mendenhall will leave Bend tonight.

MRS. BROOKS HEADS WOMEN'S COMMITTEE

(From Friday's Daily.)
Mrs. H. K. Brooks this morning received a letter from the chairman of the Oregon Liberty loan drive committee apprising her of her appointment as head of the women's drive in Bend. She will work in connection with C. S. Hudson, who will have charge of raising the men's share.

CONVENTION IN MARCH

(From Thursday's Daily.)
The Knights of Pythias will hold a district convention here on the 27th of March. There will probably be one hundred delegates from the different sections around here. Several of the grand officers are expected to be present, including Grand Chancellor Crouch and Walter Gleason. The convention will last one day.

RETURNS FROM SHOP ARE BIG

MANY PATRONS AT RED CROSS STORE

Thirty-five Lunches Served on Opening Day—Children Register for Employment—Must Turn in Earnings for One Day.

(From Saturday's Daily.)
Indicating that the Red Cross Superfluity Shop, which had its formal opening yesterday, will be a financial success is the report of the first days business. Previous to Friday \$28.50 was taken in and this was increased yesterday by \$42.30. A large number of people visited the shop, some from Tumalo, Madras, Redmond and even La Pine. Not all were women, for about eight or nine business men lunched there and several others patronized it in the afternoon.

Thirty-five lunches were served during the day, all of them being made from homemade delicacies, the bill of fare including two kinds of salad, sandwiches and tea or coffee. More salad and bread are needed in order to save cooking each day by the women in charge of the shop.

Volunteers Wanted.
Mrs. H. K. Brooks and Mrs. D. A. Houston were on hand all of yesterday and today, being assisted by a member of the Honor Guard during the lunch hour. Volunteers are wanted who will put in an entire day each week at the store in order to relieve Mrs. Brooks and Mrs. Houston.

Boys and girls registered yesterday for employment, members of the Campfire Girls, Junior League, Boy Scouts and Honor Guard expressing their willingness to assist. These children will do sewing, take care of little tots, throw in wood or do any similar sort of work, turning their earnings for one day each month in to the Red Cross. A wage scale was set, allowing 25 cents an hour for general work, 50 cents an evening for staying with children and 50 cents a load for throwing in wood. No child who does not give to the Red Cross once a month may stay on the Honor Roll, as the employment list is called.

More Gifts Received.

Several more gifts have been made to the shop. M. A. Palmer, the cabinet maker, donated a tea table and the Bend Steam Laundry offered its services in washing all garments table cloths, tea towels and similar articles. More dish towels are needed in order that the women will not have to wash out their supply daily in addition to their other work. Jones' Dairy has promised to supply all of the cream to be used in the coffee served at the luncheons.

MAIL ORDER PRICES COMPARED BY STORE

Hardware Company Prepares Special Window—Result of Commercial Club Discussion.

(From Tuesday's Daily.)
As a step toward furthering the patronage of the local stores and checking the trade with mail order houses, the Bend Hardware Company has taken an unique method of bringing a comparison of prices before the public. This scheme was principally the outgrowth of discussion at the recent Commercial club dinner, when several ranchers spoke on the reduction of prices to be secured through ordering out of Bend.

The hardware company has prepared a window showing certain articles, such as door knobs, roofing, farm implements and the like, quoting the local price on them and the one given by Sears-Roebuck. A catalogue from the large Seattle mail-order house with the pages open at these prices is also displayed. In almost every case there is a considerable reduction in favor of the Bend store. In some, however, it only amounts to several cents. An allowance must also be made for postage.

S. E. ROBERTS
Who Announces His Candidacy for Sheriff.

S. E. ROBERTS IS OUT FOR OFFICE

CANDIDATE TO SUCCEED HIMSELF—RECORD OF TAX COLLECTIONS SHOWS SMALL PORTION OF DELINQUENCIES

The first candidate to file his petition for nomination for sheriff in the primary election is S. E. Roberts, who has been holding that office since the county was formed. Mr. Roberts is well known here, having lived in the Bend country when it was part of Wasco, in fact he is a strictly home-made product, having been born here. For five years he was chief of police of Bend, previous to his appointment to his present office.

That Mr. Roberts has done his work efficiently is shown in a statement prepared by Max Crandall, who is auditing the county books, which shows the amount of taxes the office has collected. Out of the \$196,000 on last year's tax rolls \$174,000 was collected, leaving a very small percentage delinquent. Penalties and interest on 1915 taxes alone amount to \$19,084.11, the collection of this amount practically paying the expenses of the office.

All of this has been done in spite of the additional work which has been given to the sheriff through the draft classification.

WILL GIVE OUT QUESTION CARDS

LIBERTY LOAN INFORMATION TO BE CATALOGUED FOR USE IN CHECKING UP ON THOSE WHO REFUSE TO BUY BONDS.

(From Wednesday's Daily.)
Household questionnaires containing information as to the amounts individuals have subscribed to the Liberty loans will be distributed by members of each district committee for the third drive in this county. All persons visited will be asked to fill one out in order that it may be catalogued by the government.

(From Tuesday's Daily.)
Preliminary organization of the drive to begin on April 6 will occupy the next ten days. Under the direction of County Chairman C. S. Hudson, speakers and special music are being secured and meeting places arranged for. H. J. Overturf will handle the Bend drive, Guy Dobson that in Redmond and F. W. Tone in La Pine, all working through Mr. Hudson.

The cards which will be used to register the work of the committees have blanks for the following information:
Name, town or district, occupation, business address, residence address, family, assessment, auto, first loan, second loan, rating, third loan, bank, why no subscription, nationality, solicitor's name.

This record will be kept in much the same way as that to be prepared by the food administration and will be a check on those who decline to subscribe.

ISSUES VARY IN POLITICAL RACE

PLENTIFUL ARRAY OF CANDIDATES

Everything From Bone Dry to Win the War Listed in Governorial Platforms—Primaries Will be Live

SALEM, Mar. 14. (Special to The Bulletin)—It is interesting to note what issues the various gubernatorial candidates are bringing up as political cud for the proletariat to chew over prior to the primaries.

With the probable array of candidates for the governorship now complete the people are in a position to determine just what issues are being builded for them in this campaign and they are somewhat varied, as an analysis will indicate.

Dr. J. E. Anderson of The Dalles, the first to file his official declaration for executive honors, lays emphasis on the "bone dry" feature. "Doc" Anderson, as he is familiarly called by his colleagues, (but it is nowhere recorded that he likes the appellation), introduced both of the dry bills in the legislature, that of 1913 and 1915, and he has reached a point where he is considered a regular Delphian oracle on the subject of combating the Demon Rum. He incidentally mentions aid in winning the war and the development of Oregon, but it is no closed secret that the physician of The Dalles will depend largely upon the bone dry element for his support. It is also whispered that he is expecting a goodly share of the 8000 or 9000 registered prohibitionists to switch over with their registration into the Grand Old Party and aid their sturdy standard bearer in his present fight. It is pointed out that some of them might do this as prohibition is no longer considered a real issue in Oregon and as a result there seems but little reason for maintaining a real prohibition party here longer.

Win the War Policy

Governor Withycombe will go before the people largely on an issue of winning the war, and his following will lay particular stress on the manifold activities of the Governor in that direction since the war started. They point out that the Governor leaped into the breach from the time of the declaration by the President and has been busy on war aims and war issues ever since. They see in his advocacy of patriotic motives and patriotic issues a splendid opportunity for the executive to succeed himself.

Ben Olcott has the laconic slogan "Business" printed on his cards and it is considered a very Olcottesque style of slogan. His followers advance the theory that while their champion is as patriotic as any of the candidates that one of the best ways to show patriotism is by economy in state government and that will be the line largely followed by him and his friends in making their present campaign to elevate the secretary of state to the governor's chair.

Highway is Standby

Gus Moser is relying on his splendid personality in buttonholing voters by and large, but so far the main issue he has developed in his campaign has been a steady series of slaps at the State Highway Commission. The friends of Gus have it figured out to a mathematical certainty that by this plan of attack they can come home with the bacon.

They figure Gus is the ace card in the Multnomah County deck and will have the winning hand in the vote there. This he did four years ago, but it is also pointed out by others, who are not so friendly to Gus, that at that time the wets had a strong organization in that county and they threw it to their home town aspirant. That organization is now scattered to the winds, but on the other hand the friends of Gus say that he will command a solid labor vote. If he can command a solid labor vote it is something that has never been commanded before, and those who are weatherwise say that it is something that never will be accomplished. Labor is like the wind—it blows.
