

BOARD WILL HOLD SECOND INSPECTION

(From Saturday's Daily.) Another inspection of calvary horses will be held here on April 3, Captain Von Stad, of the purchasing board, has written E. P. Mahaffey, of the Central Oregon bank. The first inspection took place several weeks ago, but brought poor results because so few ranchers were acquainted with the information regarding the stock they were asked to furnish.

The government pays \$140 for good saddle horses and \$125 for mules. It is hoped that several carloads may be secured in Deschutes county.

CLOVERDALE

PLAY IS REHEARSED BY PLAINVIEW CLUB

Donald Elkins Loses Two Fingers in Accident—Ditch Meeting Held.

PLAINVIEW, March 20.—The O. D. club held its regular meeting with Mrs. F. W. Leverenz last Thursday afternoon with a large number present. A busy afternoon was spent sewing and rehearsing for The Old Maids' Convention. The new ruling made by the club that no refreshments are to be served at the regular meetings during this war time was initiated last Thursday. Next Thursday, March 21, the ladies will meet for the entire day with their secretary, Mrs. John McKinney.

Donald Elkins had two of his fingers cut off accidentally by his elder brother one day last week. He was taken to Redmond to have the injuries treated.

Last Saturday afternoon the Three Creek Irrigation Company held its annual meeting at the school house. R. H. Parsons was re-elected president. Mrs. Pulliam vice president and Hubert Scoggin secretary-treasurer.

The Plainview-McCallister Ditch Company held a meeting on Monday afternoon to make plans for ditch work for the coming year.

Mr. A. W. Armstrong spent two days of last week in the Squaw Creek country.

Sinking Of Tuscania Is Described By Survivor

(From Monday's Daily.)

A first hand account of the sinking of the Tuscania is given in a letter from Alfred Moe, just received here by his father, Ole Moe. The writer is now at a camp in England waiting orders to go on to the front.

The letter is as follows:

"I suppose you have read and heard all about the boat we sailed on, which was sunk by a German sub. We were his about a quarter of six. I was sitting on my lifebelt near the dining room door when I heard a terrible noise and shock and then the lights went out. We all rushed to the top deck, where the lifeboats were, for we all knew what had happened.

"When I say I rushed to the top deck, I mean we got there in order and as fast as we could. We had boat drill every day on board so all seemed to be quite cool and took their places by the lifeboats we were assigned, so there weren't as many missing as we thought there would be at first.

"The boat I was in held about 70 men. Some of the boats were broken right in half on account of the ropes breaking while they were being let down. The men in these boats nearly all got drowned or killed.

buyers passed through Pinehurst Saturday.

G. W. Snyder assisted F. V. Swisher to butcher Friday.

Mrs. Austin Graham called on Mrs. James Dawson Monday.

Mrs. G. W. Snyder entertained Mrs. Della Nichols and children at her home Thursday evening.

DE LAVAL CREAM SEPARATOR

The concave-bottom, self-centering bowl in the NEW De Laval Cream Separator is the biggest advance in separator construction in 30 years.

It has greater capacity without increasing either the size or the speed, and it is so supported upon the detached spindle that it will run true and do perfect work even after long and hard wear.

Cross-section of new bowl, showing new method of distributing milk between the discs.

It has fewer discs than the old type bowl. All discs are unnumbered and interchangeable. Discs are caulked only on one side. The milk distributing device is removable. It's easier to wash than ever before.

We're here every day to explain the NEW De Laval to you—to go into all the details. You can buy one from us on such easy terms that it will save its cost while you are paying for it. Come in and talk it over.

Certain-teeed

Roofing - Paints - Varnishes

Certain-teeed means certainty of quality and guaranteed satisfaction—

the first and last object of careful buyers. Both quality and satisfaction are guaranteed by a business which has gained world leadership because of its ability to manufacture and distribute the highest quality products at fair prices.

Certain-teeed Roofing & Shingles

Certain-teeed is a conservation product. It is made from rags and asphalt, skillfully converted into roofing that is impervious to the elements.

Certain-teeed is the most efficient type of roof for all kinds of buildings, from the modern skyscraper to the farm barn. It is light weight, weatherproof, clean, sanitary, fire-retardant. *Certain-teeed* is not affected by fumes or gases, and cannot rust or corrode. Its first cost is moderate, laying cost low, and upkeep practically nothing. *Certain-teeed* is guaranteed 5, 10 or 15 years, according to thickness.

Certain-teeed Paints & Varnishes

Made from the best quality materials, mixed by modern machinery in scientifically correct proportions to produce the highest quality paint.

Certain-teeed Paints and Varnishes are sold at cost plus a small profit. Each color is priced according to its cost. Paint makers usually charge the same for all colors, basing their prices on the cost of making the expensive colors. The *Certain-teeed* policy puts each color on the right basis. Therefore most *Certain-teeed* Paints cost you less than competing paints of anything like the same high quality.

Certain-teeed Products Corporation

Factories: St. Louis, Mo., East St. Louis, Ill., Marseilles, Ill., York, Pa., Niagara Falls, N.Y., Richmond, Calif.
