Good
Figure**

Quite Often Depends on
Correct Corseting

Today, corsets are designed for the needs of the individual figure.

It is most important that you wear the model designed for your particular requirements, if you expect your corset to give you a better figure line.

Among the many models in G-D Justrites, is one suited to you.

G-D Justrite

Perfection

It's in
the
Designing

You can, by wearing the corset that is designed for your type, correct many figure defects; while if you wear the wrong corset you make more prominent these points, and you may so push the flesh into positions that it will be very hard, indeed, to correct. Your health, comfort and good appearance demand of you the best care and attention in the selection of your corset.

G-D Justrites are RUSTLESS and guaranteed to give satisfactory wear

We are showing Models for all types of figures.

CORSETS at the Old Prices

CORSET manufacturers have sent out notices that prices will advance 25% on May 1st, 1918. Our policy is to keep prices down just as long as possible and we are going to sell our present stock of Corsets at the old prices—\$1.00 and upwards. One lady said this morning, "My! that \$3.50 corset is a better corset than I am wearing now, and I paid \$5.00 for mine." And so it is all through our store—whether you buy a pair of stockings at 15c or a Dress, Suit or Coat—we always give you a better article for less money. We have only one price—marked in plain figures.
