

MEMORIAL DAY, MAY 30, 1918

At first, Memorial Day was a day of memories; the graves of the brave men who gave their lives in the Civil War were decorated with flowers; a sign that a grateful people had not forgotten the supreme sacrifices these men made.

THEN the day gradually became a popular holiday; games, sports, picnics, were more important than heroic memories; the original idea of the day was in danger of being lost.

Now we have come to a time when Memorial Day can be, and should be, consecrated anew; when we may look back with reverence upon the victorious past, and forward with courage and determination to a victorious future.

Let us make the day a time when we renew our declarations of loyalty to the great cause of which our country has always been the foremost champion--the cause of Human Liberty.

We shall do our work, whatever it may be, with a better spirit, if we keep that idea before us.

C. O. I. INSTALLS CANAL WEIRS

COMPANY COMPLIES WITH ORDER OF PUBLIC SERVICE COMMISSION FOR DISTRIBUTION OF WATER TO SETTLERS.

(Special to The Bulletin.)

SALEM, May 24.—Weirs are now installed on the Central Oregon irrigation project to all water users but about 50 and these are being completed and are expected to be finished before the season is far advanced, according to a statement just submitted to the public service commission through the desert land board by Chief Engineer Redfield. This information is a part of that furnished at this time in line with the order of the commission handed down in December, which ordered the company to file a plan of systematic distribution of water for irrigation of the lands of the various settlers prior to the opening of the irrigation season of 1918. The data just filed is very extensive and covers practically every phase of the situation on the Central Oregon project.

Ownership by Districts Shown.
The matter filed includes a print showing the tracts cultivated, occupied and scheduled to receive water and the ditch rider's beats. Another statement shows the present ownership and acreage for the Redmond, Deschutes, Bend, Alfalfa and Powell Butte districts. A weir list of the Pilot Butte and Central Oregon canals divided into 16 beats is also included.

The lists show the lateral, owner, length of weir, irrigable acres under the weir, second feet required, required height above the weir and the basis on which allowance is calculated. In a few cases allowance for loss has been allowed between the settler's weir and his land. In addition are included sample page of record of gauge readings, containing all data on the weir lists, and also the station diverting from the main canal, contract number, irrigable acres, name of patrolman, gauge height for each day, May 23 to August 30 and the corresponding discharge in second feet, the average discharge in second feet and the total discharge in second feet.

Water Every 7 1/2 Days.
"We now have 43 rotations in force under the Central Oregon canal and 72 rotations in force under the Pilot Butte canal," states Mr. Redfield in his letter of transmittal. "Water is usually required every 15 days, but on account of water being required for domestic use the periods are figured 7 1/2 days between, which enables the settler to fill his cistern and irrigate a portion of his ground, usually one-half. These are nearly all confined to heads under two second feet, as most of the settlers' ditches will not carry a larger head and to a few users under each lateral a constant head being maintained at the head of the lateral."

"As the rotation expands, entire laterals can be included in the rotation with increased saving of water."
* * * Repairs were begun early last fall, after the settlers were through using water and every available man was used. The structures are in good condition and the system is in excellent repair for the greater part, but owing to the difficulty of procuring labor a few portions of the system have not been covered. The labor situation affects all branches so that it is difficult to secure and retain ditch riders and office help."
Much more data is included in the report, which is very comprehensive.

GERMANY ISSUES DANES ULTIMATUM

(By United Press to The Bend Bulletin.)
WASHINGTON, May 29.—Germany has sent an ultimatum to Denmark to withdraw immediately from the allied trade 400,000 tons of Danish bottoms offered for the transportation of needed products from the United States to Great Britain. The news leaked out when the Danish shipping mission arrived in this country.

NOTICE

Irrigation District pertaining to the election authorizing the issue and sale of bonds, and of the regularity and legality of said bond election in the sum of \$125,000.00.

To the Squaw Creek Irrigation District and to all freeholders, legal voters and assessment payors within said district, and owners of title to land within said district, and to any person or persons interested in the proceedings of said district or in the issue and sale of bonds and any other indebtedness incurred by said district, and to each of you:

In the Name of the State of Oregon: You and each of you are hereby commanded and required to appear and answer the petition of the petitioners, the Board of Directors of the Squaw Creek Irrigation District, filed herein against you, and each of you, in the above entitled room of the above entitled court in Bend, Deschutes county, Oregon, and if you fail so to appear and demur or answer, or otherwise plead within said time, said petitioners or plaintiffs will apply to the court for the relief prayed for in the petition on file herein, to-wit:

For a decree of this court to the effect that the said district is duly and legally organized under and pursuant to the laws of the State of Oregon; that all elections held in said district, both for the formation and organization of the district and for the issuance of bonds have been held in the manner provided by law and are valid, and that all indebtedness incurred and all warrants issued and obligations entered into by said district are legal and binding upon said district, and that the authorization by said district of the issuance of bonds in the sum of \$125,000.00 for the purpose of acquiring control and ownership of the Squaw Creek Irrigation system, including all lands and water rights necessary to be acquired in connection therewith is in all things legal and regular, and for any other and further relief as to the court may seem just and equitable in the premises.

(Seal.) J. H. HANER,
County Clerk of Deschutes County, Oregon.
H. H. DE ARMOND,
Attorney for Petitioners,
Bend, Ore.

FOREST FIRE DOES BUT LITTLE DAMAGE

The fire which was raging between La Pine and Ft. Rock the latter part of last week did but very little damage to the area over which it burned, according to the members of the forest service, who have returned after several days in that vicinity, in which they worked to get the blaze under control.

The area covered about six hundred acres, but owing to the lack of underbrush there was little trouble in fighting it and keeping it confined to the region where it was first started.

We buy all kinds of hides, pelts, furs, wool. Briggs' Second Hand Store. 3711c

EIGHTH GRADE MAKES RECORD

ELEVEN OUT OF FIFTEEN ARE PROMOTED INTO HIGH SCHOOL—FOUR OTHERS ARE CONDITIONED.

Eleven out of fifteen passing with high honors and the other four conditioned is the record established by the eighth grade class of the Reid school, which took the county examination here last week.

County Superintendent J. Alton Thompson, in speaking of the success of the pupils this afternoon, stated that the record was an enviable one, and due almost entirely to the efforts of Miss Cane, principal of the Reid school, and to Miss McClay, their instructor. The record conflicts favorably with the examination of December when but two members of the class passed the test.

The names of the successful candidates are as follows: Loyde Blackley, Marie Catt, Louise Inabit, Winona Kleinfeldt, Helen Mahoney, Ervin McNeil, Buell Orrell, Elizabeth Veltum, Wilbur Watkins, Francis Whitlock, Howard Watson. Those conditioned were: Agnes Johnson, Beulah Bannister, Ema Lou Myers, Guy Smith.

The following high school pupils worked off conditions: Ronald Sellers, grammar; Mildred Hoover, grammar; Saphrona Morris, grammar.
