DIME SOCIAL SWELLS WAR FUND

PLAINVIEW, May 27.—The dime social given by the O. D. O. club at the Hoss home last Saturday evening added a little more than \$6 to the war relief funds of the club. Three dollars and sixty cents of this amount was received from selling tickets for a sack of sewed woolen rags that had been donated to the club by a friend to help in raising a little more money. Emmett Knickerbocker drew the lucky number. Games of cards, special stunts and a short program helped to make the evening pass very quickly and pleasantly. Great excitement prevailed for about ten minutes when everyone entered into a game of indoor football. A tie Mrs. Malcolm Vought left for Port-game was played, the final score being 2 to 2. Some of the contestants believe it takes about as much wind for this sport as it does to play regular football. After the games a light lunch and coffee were served.

The regular meeting of the O. D. O. club will be held next Thursday, May 30, with Mrs. J. A. W. Scoggin. At this time the ladies will be comforters for Mrs. Scoggin to add a little to the club funds.

Better than metal
Certain-teed is fast taking the place of metal roofs, not only because of the scarcity and high cost of metal, but because

Certain-teed Roofing

is superior in every important roofing quality. Metal easily rusts and disintegrates from atmospheric gases. Certain-teed cannot rust and its asphalt base makes it practically immune to any form of corrosion. Metal absorbs heat and transmits it to the interior of a building. Certain-teed insulates against heat and cold, and makes the building cooler in summer and warmer in winter. Metal must be painted frequently. Certain-teed gives years of weather-proof service practically without any upkeep expense. Metal is noisy in wind or storm. Certain-teed fully deadens sound from such sources. Metal is not safely guaranteed. Certain-teed is absolutely guaranteed 5, 10 or 15 years, according to thickness, and actually gives longer service than its guarantee. Metal is a direct drain on military materials. Certain-teed is made principally of waste rags and asphalt—materials which have no military use whatever. Certain-teed has proved its efficiency and economy for every kind of roofing service—factories, warehouses, hotels, stores, farm buildings, outbuildings, etc. Certain-teed is more economical and more efficient in service than metal or any other type of roof. Certain-teed is the best quality of roll roofing—it costs no more to lay than ordinary roll roofing and lasts much longer. Sold by dealers everywhere.
