

News in Brief.

(From Monday's Daily.)
Ford Man Returns.—The Ford Motor Co. has again sent its popular service man into this community to make his headquarters this week at the Cent-Ore. Motor Co. While Mr. Barrell is always willing to be of assistance to any Ford owner, the particular reason for his sudden return at this time was to help assemble, adjust and dispose of a carload of Ford sedans. At present there are five Ford sedans in use in and about Bend and one each in the neighboring towns, Prineville and Redmond, which speaks well for the prosperity of this country and also shows the discrimination and judgment of the car buyers. Three months ago there was not a car of this type in Central Oregon. The people had only to be shown a superior article and they at once realized the comforts and conveniences of the Ford sedan. This is the first exclusive carload of sedans ever shipped to a dealer in Oregon and the Cent-Ore. Motor Co. deserve great credit and success in their undertaking. Considerable mention will be made in the other papers undertaking. Since his former visit, Mr. Barrell has visited Eastern Oregon points, traveling continually in his sedan, and reports business good at all points. Roads, while dusty and rough in spots, were such that good progress could be made at all times.

Goods Sent Out.—One carload of dry goods from the Reed-Smith stock in this city which has been purchased by the Bon Marche of Seattle was sent out by express on Friday evening and a second car will be billed out tomorrow. Under the prevailing high freight rates the purchasers say that the express rates are lower and much more satisfactory, the express company paying for cartage and loading.

Receives Commission.—Mrs. Peter Byberg of this city has received word that her son, George Blooquest, had received a commission as captain at the training station at Ft. Riley, Kansas. Captain Blooquest is but 23 years of age and the youngest man to receive this honor at the training station.

Sisters Man Married.—Portland papers last week carried the report of the wedding of Lieutenant Curtis Bailey and Miss Mary Stuart Smith, which took place on Thursday. Lieutenant Bailey was formerly a resident of Sisters and has been stationed at Camp Lewis since receiving his commission at the Presidio.

County Court Returns.—Members of the county court who have been in Portland for the past four days have returned here, Judge W. D. Barnes arriving this morning, and Commissioner Miller coming in the evening previous.

Geologist Here.—Dr. and Mrs. F. E. Clements, members of the faculty of the University of Minnesota, arrived in the city yesterday and will remain here today. They are on an extended geological tour in the interest of the university.

Forest Service Man Here.—J. L. Peterson, a member of the district forest office at Portland, arrived in the city this morning on business.

Accepts Position.—Miss Mildred Weeks has arrived in the city and accepted a position as bookkeeper in The Bulletin office. Miss Weeks is a niece of D. G. McPherson of this city.

(From Saturday's Daily.)

Will Go to Seattle.—Mr. and Mrs. C. W. Hayes will leave tomorrow morning for a pleasure trip by auto to Seattle, where they will visit for about three weeks. From Bend they will go to Yakima, and cross the range by way of Easton and Blewitt pass on the Sunset highway. Mr. Hayes states that he will make an endeavor to make the trip to Yakima, a distance of about three hundred miles, the first day.

Forest Clerk Leaves.—G. B. Holloway, who has been employed as forest clerk in the offices of the Deschutes national forest in this city, left yesterday for Spokane, where he will join Mrs. Holloway, who has been visiting there for the past two weeks. His position here will be filled by a woman who is to come from Angeles.

Blue Book.—B. B. Ranney, representative of the Automobile Association, arrived in Bend this morning and will spend several days here looking over the roads and

Go to Camp Lewis.—J. W. Wright, accompanied by his son, J. L. Wright, was in the city yesterday on business. J. L. Wright has been called by the local draft board to report here on June 24 to entrain for Camp Lewis.

Will Go to Camp Lewis.—J. W. Wright of Clifton Falls, accompanied

by his son, J. L. Wright, was in the city yesterday on business. J. L. Wright has been called by the local draft board to report here on June 24 to entrain for Camp Lewis.

Fires Under Control.—All of the forest fires on the reserve are now reported under control by the forest officials. Two new ones have been discovered, but were extinguished before they gained headway.

Here from Prineville.—J. N. Williamson of Prineville, ex-senator, was in the city yesterday on business. He reports that he will take his sheep onto the reserve within the next few days.

Employed at Mill.—Frank Rice, a graduate of the Redmond high school with the class of '18, is employed as timekeeper in the box factory of The Shevlin-Hixon Company.

Court in Portland.—Judge W. D. Barnes, C. H. Miller and A. L. Mackintosh, members of the county court, are in Portland on business connected with the county.

Large Number Attend Funeral.—A large number of Bend people attended the funeral of Donald Smith, which was held in Redmond this afternoon.

Mr. Schee Here.—R. L. Schee, manager of the Prineville Commercial club, was a business visitor in the city yesterday.

(From Friday's Daily.)
Forest Fires Numerous.—Forest fires on the Deschutes national forest have been numerous during the past three days, caused by lightning, according to officials of the department here this morning. No less than eight additional blazes have been discovered by the lookout men, who have been placed in advantageous positions throughout the reserve.

Work Progressing.—Work on the new business block of the Bend Hardware company is progressing rapidly, the two side walls being nearly completed, and the rafters being placed over a portion of the structure to permit the moving of the stock to one side of the building while the balance is being completed.

Rains Help Farmers.—The light rains of the week have been of great benefit to the farmers of Deschutes county, according to reports that are being brought into the city from the outlying districts. While the rainfall was not great, the moisture served to accelerate the growth of the newly planted grains and vegetables.

Shriner Here.—Z. W. Hungate, formerly with the Northwest Banking and Trust company of Portland, was in town yesterday from his ranch east of the city. Mr. Hungate is a member of Al Kader temple, Portland, and will attend the Shrine ceremonials in this city June 29.

Marriage Licenses.—The following marriage licenses have been issued by the county clerk's office during the week: Charles E. Graves and Ida Parsons, Earl L. Powers and Beulah Cook, Arthur Earl Holmes and May Flower Willard.

Born.—To Mr. and Mrs. Paul John Gutfelsch of Kenwood addition, an 8 1/2-pound boy, Thursday, June 13.

Born.—To Mr. and Mrs. Ralph Bartlett, a daughter.

(From Thursday's Daily.)

Infant Son Dies.—The infant son of Mr. and Mrs. J. Newby died last night at the Bend surgical hospital. He was buried this afternoon in Pilot Butte cemetery from Niswonger's chapel.

Funeral Held Today.—Funeral services over the remains of Walter Richards, who was killed by lightning yesterday, were held from the Niswonger undertaking parlors this afternoon, under the direction of J. M. Nelson of the Baptist church. The Boy Scouts of Wolf Patrol No. 1, of which the deceased was a member, acted as pallbearers.

Returns from Portland.—A. Murphy, a former resident of Bend, but who has been living in Portland for the past six months, returned yesterday morning and will visit with relatives in this section until June 24, when he will join the men called in the local draft to report at that time.

Here from Redmond.—L. E. Smith, former county commissioner, is in the city on business from his home at Redmond. Mr. Smith reports crops in that vicinity looking extremely good since the warm weather has set in.

Buys Auto Truck.—W. R. Riley of La Pine, manager of the La Pine creamery, has purchased a new Ford auto truck, to be used for the transportation of creamery products from the factory to Bend.

Returns from Portland.—Mrs. George Snyder of Tumalo, who has been in Portland receiving medical treatment, has returned to her home much improved.

Telephone Lines Out.—As a result of the electric storm of yesterday, the government telephone service on the forest reserves has been badly crippled.

Installs Lookout.—Forest Supervisor Jacobson left yesterday afternoon for Black Buttes, where a lookout is to be stationed during the fire season.

fall no doubt would be a valuable asset if some of the spellbinders that could be named were touched up under the new plan.

Governor on Vacation. Governor Withycombe has been away from the capitol on a vacation for a few weeks, visiting his son Robert at Union and enjoying himself with his little grandchild. A long drag with his son's illness back in Washington, when for many weeks it was believed the son would never survive, along with the worries of a campaign and an attack of the grip, all have tended to make the governor's health none the best, but it is believed he will be recuperated and fresh as a daisy upon his return from his trip to Eastern Oregon.

Examinations for state teachers' certificates will be held in the county seats of each county of the state from June 26 to June 29, inclusive, according to an announcement made by Superintendent Churchill. The usual subjects will be covered and in addition domestic art, domestic science, drawing, manual training, mechanical drawing, music, physical culture, stenography and typewriting will be subjects to be given to applicants who desire special certificates.

Labor Shortage at Asylum. If you happen to find some strange man prowling around your back yard this summer, don't be surprised; it will probably only be a loose nut off from the wheel of state. Superintendent Steiner of the state hospital is finding such great difficulty in keeping employes at the institution, with competition keen for labor in the shipyards and war industries that the institution is operating on a shorthanded basis and probably will continue to do so more and more. But two alternatives are left—either to lock up all of the patients tight, or take a chance on some of them wandering away. A large share of insane people are made worse by being locked up, and the best cure for them is sunshine, work and air. Consequently, Superintendent Steiner is going to take a chance and he expects plenty of elopements this summer.

C. O. I. Order Hangs. Final disposition of the distribution scheme for the Central Oregon Irrigation company's project under the order of the public service commission, issued some time ago, is hanging in abeyance. The commis-

name might be tacked onto the board or commission, or whether it flies one flag or another, in the long run the bills come due just the same, and the fact that one pays for what one gets is a maxim written irrevocably on the tablets of time. If the state wishes to be a godfather to stud horses, and shower its parental blessings in other directions, it must remember that parenthood always costs money and that babies need shirts and shoes. The only way that money can be saved is to merely eliminate and blot out. And history shows that this can't be done. So far no one has pointed out that any of the state activities are really useless, and all of them are backed by an immense following, that sits on its hind legs and howls every time some patriotic taxpayer suggests that the immense following's own particular state hobby be cut out.

Stories for Newspapers. If the new plan of government goes through it will make lots of stories for the newspaper boys, but the cost will be there just the same. And the cost will be sufficient the next two years. This became evident when bids for the last six months' supplies for the present biennium were opened a few days since. Mounting costs indicated that many of the institutions will require deficiency appropriations before the year is up. Numerous supplies have jumped 25 or 30 per cent. on this latest batch of bids and when it is considered they jumped 25 or 30 per cent. six months ago, and 25 or 30 per cent. six months before that, and have been keeping up that ratio for several six months' periods, it will be seen that expenses of state government have been compounding with a vengeance and the taxpayers will have to handle the freight charges when the time comes. There will be considerable cussing over tax receipts the next few years, but, as a matter of fact, the state officials cannot be blamed for it. It is a certain fact they have been holding down expenses as economically as possible, and in some instances have perhaps been too parsimonious. But any householder, who has to pay for groceries, shoes, fuel and the other accessories of a not too luxurious life, will appreciate the fact that expenses are growing and the state cannot get off any cheaper than a private individual.

The high cost of living is hitting things with a stiff wallop and apparently there is no way to avoid it.

Might Help Politicians. Down in Portland the other day veterinarians of Oregon and Washington succeeded, so they said, in successfully removing the bray from a mule. This is in itself quite a feat, but it might be put to a practical use during campaigns, and next

proval. It is now there awaiting final decision. The company has passed the buck to the commission, the commission has passed it to the engineer, and now it may be shoved back to the commission. Time will tell.

MEN'S SUMMERTIME APPAREL

TODAY the supremacy of our Men's Clothes service is more pronounced than ever. You can readily realize the many advantages that accrue to you in these days of uncertain market conditions—by reason of our immense early purchases. We have ideal Summer Suits here in a wide variety. Suits to meet the needs of men of every build. Constructed of strictly all-wool fabrics in a wealth of new and novel patterns and color tones. New military styles, double breasted, semi-uniform fitting coats, two-button sack models and conservative styles.

Straw Hat Time

Is at hand, so do not delay another day, but come and choose before the assortment of sizes and styles are broken. Come early, so that you can get a becoming style.

Maurice P. Cashman

Home of Hart Schaffner & Marx Clothes

RUGS Most of the big mills on which we depend for Rugs are closed, or have turned their looms to the manufacture of supplies for the Government. As a result there is a shortage in the supply of Rugs, and the time is not far distant when there will be none on the market. If you are going to need floor coverings we would suggest that you buy now. Several fine patterns in Axminsters are priced in the 9x12 size at \$36.50

SUMMER FURNITURE are inexpensive. A piece or two on porch or lawn will help to make your home more comfortable during this warm weather.

Porch Chairs, \$3.95. Porch Rockers, \$4.50. Settees, \$2.90. Steamer Chairs, 2.95. Porch Swings, \$7.50.

UNIVERSAL RANGES

The Universal Cast Range will bake better and wear longer than the average steel range. The cast iron bodies will not burn or rust out like steel and will hold the heat for even baking. Universal Ranges are covered by a factory guarantee of satisfactory service, yet they cost no more than the common kind. Your old stove taken as part payment.
