

New York City Marine Band at Chautauqua

The New York City Marine Band is recognized as one of the standard musical organizations of the country. It is the same band that for several seasons past has created such wide-spread enthusiasm at the Palisades Park in New York City and at big conventions throughout the East. Mario Lo Zito, director, one of America's noted band leaders, is the oldest brother and most widely known of the famous Italian musical family of that name. With his personal magnetism, temperament and rare ability in musical interpretation, he has made the New York City Marine Band one of the most popular bands of the country. Mary Adel Hays, the New York coloratura soprano, who so won the hearts of Chautauqua audiences last year, has been re-engaged as soloist for the coming season and will appear at the night concert on the fourth day. Miss Hays is ranked by musical critics as one of the foremost band soloists of the platform.

CARELESSNESS CAUSE OF FIRE

75 PER CENT. DUE TO THIS CAUSE.

Letter Received by Local Warden Declares That Campers and Others Are to Great Extent Responsible.

(From Saturday's Daily.)

Seventy-five per cent. of all fires are caused by carelessness, according to a letter received by Fire Warden Bowman from the state office, in which the officials of the state and government are asked to secure the aid of the automobilists and campers in keeping down forest fires within the state. The letter, a portion of which follows, further states that at the present time the man power of the nation has been reduced by the war, and every forest fire adds that much more to the large numbers taken away from the farms and other needed employment. It says:

"The dry season has come and fire protection plans must now be brought into effective action. For a number of reasons fire losses are at this time particularly lamentable.

"Since the forest fire warning was first sounded in the United States an army of trained forest fire fighters of no mean efficiency has been developed. To this army you belong. Many of your former co-workers, skilled in fire protection work, are now in France. Therefore, it is up to you to carry an additional burden.

Drain on Nation.
"The huge drain on this country's resources because of war has drawn hosts of men from productive industries and increased the cost of living. Every forest fire needing men and supplies for its extinguishment is a further economic drain. It is particularly our present duty to prevent this waste as well as waste of timber. President Wilson says:

"Preventable fire is a public dereliction. At a time like this of emergency and manifest necessity for the conservation of national resources, it is more than ever a matter of deep and pressing consequence that every means should be taken to prevent this evil."

"Seventy-five per cent. of all fires are shown by our records to be caused by carelessness or evil design. The large number of people visiting the forests of Oregon—in 1917, 400,000—are there enjoying the recreation resources.

Engines Must Be Protected.
It is your sworn duty as an officer to use every means in your power to decrease the prevailing carelessness with fire and to obtain co-operation from automobilists, campers, hunters, fishermen and other travelers in your assigned territory. You will see that all locomotives and donkey engines operating in your districts are equipped with suitable spark arresters as required by the state laws. You should have no trouble in secur-

ing the cordial co-operation of every patriotic citizen.

Expenses High.
"The expenses attendant on hiring men to fight fire decrease the public treasury funds in these days of need, to say nothing of the loss of wealth caused by destruction of timber, which is Oregon's greatest material resource. Timber wealth in the eastern states has been materially decreased by fire and use. Ours is that much more important and valuable. Nature has been so generous with Oregon in timber that as Oregonians we often fail through familiarity to appreciate its significance in the state's future development. One-sixth in volume of United States timber is in our single state. We have a trust to the nation to fulfill in its protection. Timber at present pays the payrolls in this state and will pay them in the future if it is here. Timber will help regenerate Oregon in the years immediately following the war. These facts must be gotten to the public consciousness and appreciation. It is the true part of patriotism for every citizen to assist. Carelessness, as well as evil design, is due to a lack of appreciation of the patriotic work of forest fire protection."

JULY LIST OF NAMES PUBLIC

DRAFTS TO LEAVE ON JULY 5 ARE NAMED BY THE LOCAL BOARD—LIST FOR JULY 22 IS NOT YET MADE UP.

(From Saturday's Daily.)

The 17 men who are to answer the draft call on July 5th from Deschutes county have been chosen by the local draft board and are asked to report here on that date for entrainment for Ft. McDowell, California, the following day. The list of those who are to go on the 22nd of the month to Camp Lewis has not yet been completed, according to J. H. Haner, secretary of the local draft board, and will not be made public for two or three days, or until the lists have been completed.

The following is the list of those called for July 5: William R. Van Fleet, Bend; Edward G. Gutfleisch, Brothers; Winfield Creighton, Bend; Cecil Heath, Bend; Asa Byland, Bend; Chas. A. McAndrews, Cline Falls; Robert Crandall, Bend; John Leslie Wright, Cline Falls; Clyde Wornstaff, Bend; Earl H. Grube, Sisters; John A. Wischl, Tumalo; Chas. J. Salsbery, Hoquiam; Martin Hansen, Bend; Frank Spencer, Millican; Leslie E. D. Lowe, Bend; Fred Christofferson, Daly City; Henry Tom Moore, Roanoke.

FROM A JUSTICE OF THE PEACE.
W. H. Hill, J. P., Detroit, Tex., writes: "I used Foley Kidney Pills and say unhesitatingly that of all I have used they are the best, and have done the work where the rest failed." Backache, rheumatic pains, sore muscles, stic joints and too frequent bladder action are symptoms of kidney trouble. Sold everywhere.

LA PINE WOMAN MADE LOOKOUT FOR RED CROSS

MRS. CORA LELAND ACCEPTS FIRST POSITION OF THIS KIND AWARDED BY THE GOVERNMENT FOREST SERVICE.

(From Saturday's Daily.)

For the first time in the history of Oregon, and as far as is known for the first time in the United States, a woman, Mrs. Cora Leland of La Pine, has been installed as lookout at the Paulina peak station. Mrs. Leland has a shift the same as the male lookouts, extending over a 24-hour period, and occupies the lookout with her only companion, her son, less than 15 years of age.

The appointment of Mrs. Leland to this station is an experiment by the forest service to determine the capabilities of women for this class of work. As in most cases the position is a lonesome one, with little or no rest from their duties, few women are willing to enter into the work. At the Paulina peak station Mrs. Leland has a well equipped and furnished cabin, and is supplied with all the latest improved instruments for fire finding and determining the location of the blazes.

According to the officials of the forest service, she is entering upon the work with enthusiasm and it is expected will fill the position with all the efficiency of a man.

REED & HORTON CHANGES HANDS

H. M. Horton of Burns Buys Interest in Store with His Son Here—Mr. Reed Will Move to Burns.

(From Saturday's Daily.)

H. M. Horton of Burns has purchased the interest of N. F. Reed in the Reed & Horton drug store in this city, according to an announcement made this afternoon when the

BUCKHECHT ARMY SHOE

The standard Army Shoe—made from top-grade materials by top-notch workmen under expert supervision.

All the more reason why you should insist on the BUCKHECHT Army Shoe and accept no other.

Worn by thousands of men in all walks of life—

Attorneys Farmers Conductors
Physicians Orchardists Hunters

Look for the name BUCKHECHT—stamped on the sole of every Shoe.

At your dealers or—if he is not supplied—order direct from the manufacturers BUCKINGHAM & HECHT, San Francisco \$6.50 to \$7.50

WORK OR FIGHT BEGINS TODAY

WILL ENFORCE ORDER TO LETTER.

Special Circular Issued by War Department and Sent to Local Boards Defines Non-Productive Work.

(From Monday's Daily.)

PORTLAND, July 1.—A special circular just issued by the war department for the guidance of local boards in enforcing the "work or fight" regulations clears up all the doubtful points as to what constitutes "non-productive occupations or employment."

The work or fight regulations become effective today. They are to be enforced to the letter. Men having deferred classification but engaged in non-productive work or idling will be promptly reclassified into Class 1 if they do not engage in productive occupations when directed to do so by their local boards.

Following are the regulations defining what registrants are to be considered by local boards as engaged in non-productive occupations or employments, and following each section, in parentheses the official interpretation of points as to which doubt might arise:

"(a) Persons engaged in the serving of food and drink, or either, in public places, including hotels and social clubs."

(Does not include managers, clerks, cooks or other employes unless they are engaged in the serving of food and drink, or either.)

"(b) Passenger elevator operators and attendants; and doormen, footmen, carriage openers and other attendants in clubs, hotels, stores, apartment houses, office buildings and bath houses."

(The words "other attendants" include bellboys, and also include porters, unless such porters are engaged in heavy work.)

"(c) Persons, including ushers and other attendants, engaged and occupied in and in connection with games, sports and amusements, excepting actual performers in legitimate concerts, operas or theatrical performances."

(Includes, in addition to ushers and other attendants, all persons en-

gaged and occupied in games, sports and amusements, except actual performers in legitimate concerts, operas or theatrical performances.)

"(d) Persons employed in domestic service."

(Does not include public or private chauffeurs, unless they are also engaged in other occupations or employment defined by these regulations as non-productive.)

"(e) Sales clerks and other clerks employed in stores and other mercantile establishments."

(Does not include store executives, managers, superintendents, nor the heads of such departments as accounting, financial, advertising, credit, purchasing, delivery, receiving, shipping and other departments; does not include registered pharmacists employed in wholesale and retail drug stores or establishments, and does not include traveling salesmen, buyers, delivery drivers, electricians, engineers, carpet layers, upholsterers, nor any employes doing heavy work outside the usual duties of clerks.)

(The words "sales clerks and other clerks" do include the clerical force in the office, and in all departments of stores and mercantile establishments.)

(The words "stores and other mercantile establishments" do include both wholesale and retail stores and mercantile establishments engaged in selling goods and wares.)

The circular also says, in regard to acceptance of excuses by local boards:

"In addition to the cases where reasonable excuses may be accepted for temporary idleness or for being engaged in a non-productive occupation or employment, local and district boards have authority under the regulations to withhold or postpone action for a reasonable time in cases where it appears that the registrant, in good faith, is, or has been, seeking productive employment, and that such reasonable postponement will enable him to secure such employment.
