

# WILL RESTRICT FIRE PERMITS

## NO SLASHINGS TO BE BURNED.

State and Government Officials Here Will Not Issue Permits to Any

One for This Purpose—  
Proclamation Issued.

(From Saturday's Daily.)  
No further burning permits are to be issued by the fire wardens of the state for any purpose whatever, according to word which has been received by the state and government officials here in a proclamation issued by Governor Withycombe on July 8. Under the provisions of this proclamation, campers are cautioned against setting fires until a clear space of ground has been made at least six feet in diameter, and no fires are to be permitted to burn, even temporarily, during the absence of the party setting the fire from camp. The following is the proclamation:

"Because a general condition of drouth has fallen on the state of Oregon causing an unusually serious situation which threatens the destruction of forests, grass and grain fields, I feel justified in ordering that all permits to burn issued by state fire wardens as authorized by section 7, chapter 76 of the Laws of Oregon for 1917, be and are hereby suspended and that no more burning permits be issued until further notice.

"No camp fires shall be started in or near forest or brush covered lands within twenty (20) feet of any standing or down trees, brush piles or other litter that may cause the spread of fire, and under no condition is a fire to be built until the ground is cleared to mineral soil for a distance of six (6) feet in every direction and no such fire shall be left even temporarily until it has been completely extinguished with water.

"Inasmuch as the forests are one of the state's chief material resources and one of the chief sources of supply for ship timbers and material for aircraft construction now needed in the prosecution of the war, I also respectfully urge every person going into the woods during the current dry season to refrain from smoking, as any fire allowed to get beyond control is not only extremely dangerous to all classes of property but necessitates the use of labor and supplies that are so essential in other lines of endeavor under present conditions.

"In testimony whereof, I have hereunto subscribed my name and caused to be affixed the great seal of the State of Oregon this eighth day of July, 1918.

"JAMES WITHYCOMBE,  
Governor.  
"By the Governor:  
"BEN W. OLCOTT,  
Secretary of State."

## REED-SMITH BLOCK SECURES NEW LEASOR

Peoples Store and Variety Store Will Move Into Premises About First of August.

(From Saturday's Daily.)  
In a deal completed today, the Peoples Store, Frank Inabnit, manager, and S. H. Stockman of the Variety Store have taken a long time lease on the building formerly occupied by the Reed-Smith company on Wall street.

Mr. Inabnit, manager of the Peoples store, stated this afternoon that a 5-year lease had been secured on the property, his store to occupy the south half of the building, while Mr. Stockman will move his variety stock into the north half. A new stock of goods, along the lines now carried by Mr. Inabnit, will be added, and has already been ordered. The change will be made about August 1.

# IT'S JOY TO COOK FOR YANKEE LADS

By Miss Irene McIntyre  
(Written for the United Press.)

WITH THE AMERICAN BOYS AT THE FRONT, June 19.—(By Mail.)  
—We are grateful to be over here with our army and feel we are having wonderful luck to be able to make doughnuts and pies for our bit in the war.

We had no idea at all what our work would be when we first came, but we were quite prepared for anything. We only feared that we would not be sent to the front and would be doomed to remain in the rear.

At Bordeaux, when I landed and met the colonel, my first words were to ask him to send me as far forward as he could. He smiled and said nothing, so I waited in suspense.

Glady's, my sister, had come over earlier, and was then "somewhere in France at the front." There was joy for me when the colonel gave me orders to go to the little village where my sister was working, the most advanced point at which women were allowed in our army, and probably in any army.

## Order Brings Joy.

I had anticipated a gradual advance into the zone of the army from one post to another and was trying hard to keep from letting my eagerness to go where they were thickest from getting the best of me. My delight was all the greater on that account and little sister and I had a joyous reunion.

There is no way to tell how happy we are to be here. Our soldier boys

are the best in the world. They appreciate the tiniest thing we do for them and surprise us constantly with greater kindnesses than we can ever show them. They are awfully good and gentle and thoughtful around us, in spite of the strain they are under out here in the trenches.

The other night during a heavy barrage from both sides, when shells were breaking on the edge of our woods, a doughboy stood under our window to reassure us if we became alarmed. We did not learn of it until morning when he asked us if we had been scared. I said: "Why, no, you didn't hear us make a sound, did you?"

**He Was on Guard.**  
"No," he responded, "you didn't say a word for two hours, but I stayed there because I knew you couldn't be asleep and must be frightened. If anything had happened, I might have helped you."

At the time of the bombardment of our kitchen in the Siechprey battle, when I was picking up a few things in the hut preparatory to our enforced departure by the general's orders, the shells were bursting on all sides within a few yards.

A camofleur who had been very good to us came in to help me, and as the shells burst he said in such a quiet voice: "I think we had better stand against this wall for a few minutes. If a shell should strike in the wall would fall so. Here we will be safe."

Then he went on talking quietly about other things and made me forget to be afraid.

# FORGER TAKEN BY THE SHERIFF

## MAN WANTED FOR PASSING FORGED CHECKS HERE MORE THAN A YEAR AGO ARRESTED WHILE SWIMMING IN RIVER.

(From Friday's Daily.)  
W. W. Wenge, alias F. W. Schwade, alias F. W. Mueller, was arrested by S. E. Roberts, county sheriff, near Tumalo last night, charged with forgery and brought to this city and placed in the county jail.

Wenge, under the name of Mueller, operated in Bend over a year ago, passing worthless checks on both laundries here, one at the Bend steam laundry for \$36 and one at the Sanitary laundry for \$37.50. Immediately following the passing of the checks, and before he could be arrested, he disappeared and all efforts of the officers to obtain track of him were unavailing until day before yesterday, when it was reported to the sheriff's office that a man answering his description had been seen near Tumalo.

Mr. Roberts made the trip to Tumalo last night and succeeded in locating where Mueller was stopping. Arriving at the house he was not to be found, and then the officer went toward the river, where he found the man in swimming and arrested him and brought him here.

Wenge is a young man, of German parentage, although raised in this country. He has issued no statement, remaining silent regarding his check passing of over a year ago.

# SENDING THANKS FOR TOBACCO

## TWO CARDS ARE RECEIVED IN ANSWER TO BULLETIN TOBACCO FUND—APPRECIATE THE GIFT.

(From Monday's Daily.)

The tobacco sent out under The Bulletin tobacco fund is being received in France by the boys, the return cards being received by the contributors in this city. One was received early last week and Carl Johnson has received two cards within the past week, both written on May 11, which would indicate that this was the date on which the delivery of the tobacco was made. One of the cards, from W. E. Goddard, reads: "Just received package of smokes and inclosed I found this card so will take the privilege to thank the donor. It certainly makes a fellow feel good when he knows that the folks back 'over there' have not forgotten that we are over here."

The second, from George A. Gressens, is as follows: "Just received a box of tobacco and thank you very much. We are all well and are having a good time here. I will keep your address and will drop you a letter."

The above replies to the contributors speak for themselves regarding the appreciation which is displayed by the recipients of the tobacco. The fund, now under the direct distribution of the Red Cross, is again open, contributions being received at The Bulletin office.

## RED CROSS LOOKING FOR OWNER OF TEAM

Numbers Are Drawn on Saturday Night and No One Has Come Forth to Lay Claim.

Persons holding the lucky numbers on the Red Cross team, which was to have been awarded at the Hippodrome last Saturday night, have failed to come forward up to the present, and the Red Cross is in a quandary with the team on its hands. The first number drawn was 5335, and the second number 5262. The team will be held until next Saturday pending the arrival of the owner to claim them, and if no word is received by that time another drawing will take place. The holder of the first number is entitled to the team, but in the event no one appears with that number the second one drawn becomes the winner.

## DRAFT BOARD GETS FIRST AUGUST CALL

(From Monday's Daily.)  
The first call for drafted men for the month of August reached the local board this morning, calling for four men to entrain for Camp Fremont, California, on August 5. The names of the men have not yet been chosen by the draft board.

## CARLON CHILD IS SEVERELY BURNED

Falls Into Condenser at the Sanitary Laundry—Wounds Are Not Fatal.

(From Friday's Daily.)  
Vernon Walton Carlon, 4-year-old son of Mr. and Mrs. Thomas W. Carlon, was severely scalded when he dropped into a hidden steam condenser at the rear of the Sanitary laundry on Wednesday afternoon.

His body was badly burned, only his shoulders, head and arms remaining uninjured.

At the time of the accident the little fellow was playing with his dog in the yard of the Carlon residence, less than a block from the laundry. The dog escaped from the yard and started to run down the street, Vernon following. Not knowing of the exhaust he stepped on it as he was running and broke through, falling into the pit to his armpits. His cries aroused his father and the bookkeeper at the laundry, who rushed to his assistance immediately and taking him home administered first aid. Dr. Cousineau was called and has the patient under his charge and holds every hope for its recovery.

(By United Press to The Bend Bulletin.)  
WASHINGTON, July 16.—A number of Jews have been executed at Kherson in the Ukraine for hiding their grain from the Germans.

# JURISDICTION CONTROVERTED

## JOHN H. LEWIS TAKES UP C. O. I. PROJECT.

Asks That Some Sort of Definite Understanding Be Arrived at Between Land Board and Public Service Commission.

(From Friday's Daily.)  
(Special to The Bulletin.)

SALEM, July 12.—State Engineer John H. Lewis, in a letter to the public service commission, urges that some sort of a definite understanding be arrived at between that body and the desert land board as to who shall have jurisdiction over the affairs of the Central Oregon Irrigation company.

A few weeks ago the company submitted a plan for distribution to the commission. The commission, in its order covering the irrigation company, stated that any plan for distribution submitted by the company should be with the approval of the desert land board, and that board consequently sent the company's proposition to that board. The board has now given its tentative approval to the plan through State Engineer Lewis, but the state engineer makes it plain that it is only a tentative approval, declaring to the commission in his latest letter that "if it is your purpose to see that the water is distributed in accordance with some plan it would seem to me you would prescribe the plan and not attempt to enforce some plan upon which the approval of this office is required."

"We have gone over these plans and forms and see no objection to them and believe that in a general way they will prove successful and satisfactory," states Mr. Lewis in writing to the commission. "We wish it understood that we have made no field investigation nor have we checked up canal capacities to a sufficient extent to insure that the contract requirement as to the water delivered may be complied with in every particular and this is of course essential, and should it develop that the system of distribution as proposed by the company for this year prove inadequate, we would expect to secure some modifications to the same to the extent they might be necessary to promote the substantial compliance with the contract."

"It has not been our practice to approve a general system of distribution of the company, but rather to assist in the adjustment of any complaint which arises in connection therewith. If it is your purpose to see that the water is distributed in accordance with some plan, it would seem to me that you should prescribe the plan and not attempt to enforce some plan upon which the approval of this office is required, I make this suggestion in the spirit of co-operation as I feel there should be no conflict of authority on the Central Oregon project, as there now appears to be.

"I regard this matter of some importance for the reason that an irrigation district has now been organized on the Central Oregon project with a view to taking over its operation and doubtless the same procedure will be followed on all Carey act projects. This, in my opinion, will result in conflict of authority should the public service commission assume jurisdiction over irrigation districts or continue to exercise jurisdiction over the district that has grown out of a Carey act project. I feel therefore that the commission and the board should arrive at some definite understanding as to the extent to which control and jurisdiction over such projects are to be exercised by the public service commission."

## PLEASE PASS THE TANGELO.

(By United Press to The Bend Bulletin.)  
WASHINGTON, July 15.—Science has added another delectable fruit to man's larder. It's to be known as tangelo, and is a cross between the tangerine orange and the grapefruit, or pomelo.

The U. S. bureau of plant industry, which evolved the hybrid fruit, says of it: "It has little acidity, and resembles a tender and good-flavored orange more than either a grapefruit or a tangerine."
