OUT!

In order to show you the present condition of Staple Canned Goods, we quote from a letter from one of the largest jobbers on the Coast, under date of July 17, 1918.

"We cannot do anything for you on corn, as we have not a single case in the house and we will be unable to secure any until the new pack arrives. You understand we are out of all grades of corn—Standard Country Gentlemen and Maine."

OUR ADVICE IS

BUY NOW!

Bennett-Cooper Co.

ALFALFA CROP IS LARGE ONE

MORE RECEIVED IN ONE CUTTING THAN DURING ENTIRE SEASON PREVIOUSLY — DISCOURAGE SHIPPING.

(From Friday's Daily.)

The alfalfa crop in Deschutes county this year is far ahead of what it has been for a number of years past, many of the farmers harvesting more hay from the first cutting than has been received during an entire season in other years. This is partly due to better conditions for growing than in the past, but the scientific methods employed have also been a big factor in the increase.

County Agricultural Agent R. A.

Ward has just received from 30 farmers of the county answers to questionnaires mailed out by his office to the growers, seeking their opinions as to the proper crop for the county to net the greatest returns to the farmers, and with the exception of one instance all answers have been in favor of alfalfa as the one crop which will bring success. In the one instance the farmer placed alfalfa first, with sweet clover second.

Already inquiries have been received in the county from Tillamook, Linn, Coos and Douglas counties for alfalfa hay for feeding purposes, and there may be a trainload, of about 25 cars, sent to one of these places. This hay, baled, will bring the growers \$25 per ton, f. o. b. cars here.

The shipment of hay from the county to outside points is, however, being discouraged wherever possible, in an effort to keep the supply in the valley for the feeding of stock here during the winter.

One cent a word is all a little Want Ad will cost you.

County Agricultural Agent R. A.
