Where Good Cooks Are Most Valued

Surely never in the world was honest good cooking of real honest good food enjoyed more than it is on a farm in rush times.

How the hungry hired help and neighbors do eat! How they do enjoy and appreciate good cooking!

Carnation Milk

will never decrease your reputation as a cook, Madam. Rather it will surely increase it.

It is nothing but pure cow's milk evaporated to the consistency of cream.

In creaming vegetables, in making bread, pastry and cakes—wherever you use milk in cooking—it gives a flavor that is very appetizing. Carnation can be whipped like cream, when thoroughly chilled of course, which proves its quality.

Carnation is used by thousands of people just as it comes from the can for cream on fruit and cereals and in tea and coffee.

The sealed can preserves it, when kept in a cool dry place, sweet and pure until used.

Buy Carnation by the case. Lay in a stock of it now, and you will be free of milk trouble at all times.

Your Grocer Has Carnation
