THE FIRE QUESTION.

To an innocent bystander it would seem that the function of the Commercial club committee on fire protection was to keep after the city council until results were obtained. If obtaining results necessitated finding money, or developing way and means, first, the committee should work with the council to this end.

Recommendations for additions to the fire equipment have been made by deputy fire marshals who apparently knew their business. They made an estimate of the cost. The immediate question is simply whether or not the money can be found to purchase this material and, if it can be, whether or not the council will purchase it.

If it is purchased, or if it is not, there is a collateral question, namely, the organization of a volunteer department. This also will require some money which must come from the council. If the council will furnish it the committee can help in the organization of the volunteers.

THE NEXT LIBERTY LOAN.

On September 23 will open the sale of the fourth issue of Liberty bonds. What the total will be, what the quota for the state, what the county quota, is not yet known, but it seems probable that the amount will be so large as to make the Deschutes county quota at least as much as was subscribed on the third loan.

Although subscriptions to the loan will not be taken by the banks until the opening day, it is the hope of the campaign managers that long before then the people will have made up their minds to take bonds in the necessary amounts so that Oregon's quota will be reached in a few minutes on the opening day.

FACES TO THE FRONT.

On a recent visit to Texas I stopped at Marshall on my way to College station to rest on Sunday, July 21, with a friend who is the pastor of the First Baptist church there. I was not altogether surprised when he insisted that I should say something to his congregation at the morning service, but I was surprised to have an urgent call from a camp meeting 18 miles away to speak there in the afternoon, and I was very reluctant to go because I was tired, but I could not refuse a call from a group of farmers in my own state.

I reached the meeting just as the congregation has arisen for prayer. The minister prayed with great fervor in the usual way of evangelical petition and the congregation responded with fervent amens coming from every quarter of the tabernacle. There had been several conversions at the morning service and the air was electric with spiritual rapture.

He asked for victory to our arms and for our righteous cause, and he asked that our boys might return whole in body and mind and soul. The amens came in a great volume of heart-swelling emotion as the mothers and fathers thought of their sons. Then the minister dropped his voice and said with humility but with adamant resolution: "But, O Lord, if they must fall, let them fall with their faces to the front."

When mothers and fathers in remote districts, away from the sound of the rifle and drum and the sight of warships, airplanes and marching parades, can say amen to the courageous death of their sons, we need have no fear that the plain people of the United States will fall in the resolution to sustain our cause to the utmost.

STOP THE GRUMBLING.

Some dissatisfaction has been caused by the late orders concerning the consumption of sugar, but the discontented must remember that the food administration is not to blame. They should direct their criticism at the German junkers and not at the administration. The shortage of sugar has been largely caused by the U-boats. There is plenty of sugar in the world, but the lack of shipping and the sinking of sugar cargoes have caused all the trouble. Then it should be remembered that while the government is asking individuals to use 25 per cent. less for the next six months, they are still allowed double the amount our allies receive.

It is a small sacrifice that has been asked of the people, and there is no doubt that it will be complied with, although there will be some grumblers. It may be that before the six months has expired enough submarines will be destroyed to make the navigation of the seas safe enough to secure sugar from the more distant sources of supply.

Meanwhile, let the grumblers think of the boys who are giving all for their country, who are enduring cheerfully the sum of all hardships and danger, and then look at himself in the mirror when he complains of being deprived of the second spoonful of sugar for his coffee. One look should be enough.

In connection with the repairs being made on the steel bridge above the power company dam it would be a good plan to place netting along the rail by the foot walk. There are wide spaces between the pipe rail through which a child could easily fall, and that is the place on the bridge most attractive to a child and at the same time the most dangerous. A netting would cost comparatively little and it would bring relief to many a parent whose children have to use the bridge.

Mr. McAdoo has urged that all railroad employes remember the courtesy that is due the public. Treatment of the public by railroads under government control will be one of the tests of the service.

From the look of the court room yesterday afternoon, there are still a number of non-fighters in town whose work is not very pressing.

"Maximum Canning with Minimum Sugar."—The summer slogan.

News in Brief.

(From Thursday's Daily.) Club Worker Here.—A. I. O'Reilly, head of the industrial club work of the state, and connected with the Oregon Agricultural college, arrived in Bend yesterday and will spend several days here going over the work of the industrial club in Deschutes county in company with J. Alton Thompson, superintendent of schools. Mr. O'Reilly was in Bend last May, when the industrial club work was organized in this county. Returns to Portland.—Mr. and Mrs. Edgar B. Piper and Constance and David Piper, who have been spending the past ten days fishing at Odell lake, remained over night in Bend on their return to their home in Portland. Mr. Piper is editor of the Oregonian. The party will return to Portland by way of The Dalles and the Columbia highway. Receives Promotion.—Lloyd Kelley, who enlisted in the navy last year, has been promoted to first class yeoman. He is in the receiving ship office at Mare Island and in a letter to friends here sends his regards to all his former associates. He was employed at the First National bank before his enlistment. Hotels Are Crowded.—As a result of the great influx of tourists to Bend during the past four days the hotels of the city have been crowded. At no time during the season have the auto parties been as numerous as at the present time. Cow Testers Meet.—There is a meeting of the Deschutes County Cow Testing association at Tumalo this afternoon. One of the main topics of discussion will be silo building and the preparation of winter feed. Announcements Out.—Announcements are being sent out of the marriage of Miss Iva Agnes Cox, daughter of Mr. and Mrs. John R. Cox of this city, to Mr. J. William McDaniel in this city on August 13.

HUNS ARM TRAWLER SEIZED ON ATLANTIC

Several Fishing Boats Have Been Destroyed as Result of Activity of New Danger.

A CANADIAN PORT, Aug. 21.—The steam trawler Triumph, which has been seized by a submarine, is now armed with guns and manned by a German crew of 16 men, and is raiding the fishing vessels on the North Atlantic, the survivors arriving have declared. Three schooners have already been destroyed by bombs which were fired from the newly installed guns on the captured vessel. All of the crews have reached land.

WAR EXCHANGE

SUGAR-SAVING CANNING. Jams and Butters. 1. Cook the prepared fruits with enough water to prevent sticking. 2. Stir to keep from burning. 3. Cook gently until the mass begins to thicken. 4. Use less sugar than is called for in the recipes and cook longer. Very satisfactory results can be obtained by the use of sugar substitutes, corn syrups, honey, etc. The addition also of small amounts of mixed ground spices, vinegar, or crystallized ginger improves the flavor. 5. Continue cooking until the desired consistency is reached. 6. Pour into hot glasses or jars. 7. Put on sterilized covers. 8. Place in steamer for 15 minutes. This will avoid the necessity of using paraffin. 9. Remove carefully; set aside to cool; store. Cook longer for jam than fruit butter. What your son needs is a college education. Mt. Angel College, St. Benedict, Ore. Address Rev. E. L. Meier.—Adv.

Back Up The Boys in France GENERAL PERSHING SENDS WORD FROM THE FIGHTING LINE—"WE'LL WIN THIS WAR, BUT THE BUSINESS MEN OF AMERICA MUST STAND BACK OF US TO THE FINISH." There's more than one way to do this—buying Liberty Bonds, supporting the Red Cross—but most of all, conducting your business transactions on an economy basis. Economy in clothes buying means picking the clothes that will last. Cheap adulterated fabrics wear out quickly and are wasteful. All-wool garments give long, hard wear and save the government's supply of wool. We sell you Hart Schaffner & Marx suits and overcoats—the all-wool clothing. We'll stand back of you with our guarantee—that these clothes will wear. It's up to you to buy the right kind of clothes this year if you're going to back up the army in Flanders.
