

ASK STATE HELP IN CENT. OREGON

NORTH UNIT SETTLERS IN JEFFERSON COUNTY ASK FOR CONSTRUCTION OF BENHAM FALLS RESERVOIR.

(Evening Telegram.)
(From Tuesday's Daily.)
SALEM, Aug. 31.—After a prolonged session of the state desert land board and representatives of the North Unit irrigation district of Jefferson county today, in which State Treasurer Kay advised the settlers to move off the project for their own good, the board finally agreed to join with the North Unit people in a petition to the federal government for co-operation. The petition will be in the form of a resolution asking the government to join with the state in the investigation of the feasibility of constructing the Benham falls dam and reservoir, the state to investigate the seepage losses and the feasibility of the readjustment of the Tumalo project, by making it a part of the West Side unit of the Deschutes project. Investigations are to be made prior to the proposed deal taking over the Central Oregon Irrigation company's holdings.

After Governor Withycombe had expressed a willingness to support the North Unit representatives in the proposed project, State Treasurer Kay said that he would support it on condition that the state would not be bound to any financial assistance in the future. State Engineer Lewis, who held the plan a practicable one on which to base action, agreed with Mr. Kay. Both Governor Withycombe and Mr. Kay agreed that the North Unit people are undertaking a tremendous work that is fraught with danger. Mr. Kay was especially emphatic on this point.

"Would you have us settle more off, then?" he was asked by Harry Gard, president of the district.

"I would for your own good," replied Mr. Kay. He cited the Morson and Chewaucan projects in support of his attitude.

State Engineer Lewis supported the project representatives in the contention that the land would be productive to a high degree if the government can be induced to build a reservoir. The plans contemplate later development of the consolidated Central Oregon projects, totaling more than 200,000 acres, and which will cost from \$8,000,000 to \$10,000,000.

A. D. Anderson said that one reason the Central Oregon Irrigation company is not prospering is that high salaries are being paid out of the maintenance fund. He mentioned monthly salaries of \$450 for the president and general manager, \$150 each for the secretary and attorney, \$100 as retainer fee for another attorney and minimum court costs of \$300 monthly.

BULLETIN TOBACCO FUND IS GROWING

\$10 Has Been Added to the Fund Since Check Was Sent to Headquarters Last Week.

(From Saturday's Daily.)
The Bulletin tobacco fund is continuing to grow and \$10 has been turned into the fund since the last remittance made last week. Those who have contributed since that time were: Mrs. N. G. Davis, 50 cents; Julius Peterson, \$1; Mrs. R. Canine, 50 cents; Mrs. George Bates, \$1; Carl Clow, \$2; Paul B. Livesly, \$5.

ENLISTMENT IS STILL POSSIBLE

MEN WHO ARE PAST THE AGE OF 40 YEARS WILL BE TAKEN INTO CERTAIN BRANCHES OF ARMY SERVICE, SAY ORDERS.

(From Friday's Daily.)
Enlistments for the army are again open. That is, men who are now over 40 years of age and who have not yet reached their 56th birthday may join certain branches of the service, providing they can pass the necessary physical examination. This was the announcement received by Sergeant Harvey of the army recruiting station here this morning. The order follows:
"Applicants for enlistments who have passed their 46th birthday and have not yet reached their 56th birthday may be accepted for enlistment in the following staff departments: Medical department (applicants must have letter from the surgeon general authorizing the acceptance); signal corps (applicant must be approved by chief signal officer); air service (applicant must present letter from the director of military aeronautics), and quartermaster corps."

All applicants are required to pass the prescribed physical examination and should possess the qualifications required for enlistment in the staff department desired.

Sergeant Brooks has stated that under the broadening of the age limit in acceptance for the branches noted above, it will probably mean that he will be retained at his post indefinitely.

LEWIS IN SQUAW CREEK DISTRICT

STATE ENGINEER MAKES TRIP OVER THE PROPERTY IN COMPANY WITH THE DISTRICT ATTORNEY—LOOKS GOOD.

(From Friday's Daily.)
For the purpose of approving the \$98,000 bond issue of the Squaw Irrigation district for taking over the property of the Squaw Creek Irrigation company, including 2600 acres of land, J. H. Lewis, in company with H. H. De Armond, attorney for the district, made a trip over the property Wednesday of this week. Mr. Lewis, it is stated, was much impressed with the project and the showing which was made. The crops on the tracts in that section have been exceptionally good this year, and at this time farmers are optimistic regarding the future outcome of the proposition. The irrigation district embraces approximately 8000 acres and is watered by a canal taken from Squaw creek.

GEORGE S. YOUNG HAS WINNING TEAM

Captain Geo. S. Young, former county surveyor of Deschutes county, but now commanding Company F of the 604th Engineers, has his picture appearing in two different places on the first page of the Washington Sunday Daily Star under date of July 28. Credit is given Captain Young for the support and financing of a baseball team from his company which has practically proven invincible, having captured 21 out of 23 games played.

WHO WILL VOLUNTEER?

To aid the Salvation Army in its war work in France the sum of \$50,000 is being collected in Oregon. This is the state's share of the national quota of \$5,000,000. For Deschutes county the quota is the small sum of \$400.

The city of Bend is supposed to raise \$275. The work is approved by President Wilson, by Governor Withycombe and by the State Council of Defense. Let's put Bend over with a rush and by volunteers. Make it unnecessary for solicitors to go out. Volunteer your subscription. Send or bring it to one of the drug stores or to The Bulletin office. Do it now.

At the Labor picnic yesterday a collection was taken for the Salvation Army fund amounting to \$167.15. It was one of the most generous outpourings of financial aid ever seen in Bend.

Instead of making this a part of the \$400 allotment, the donors request that it be sent in as a special contribution from the labor unions of Bend.

Now let the rest of us make up the quota voluntarily and quickly.

War Time Sweeteners

AMERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply.

They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening.

When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about one-half cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one-third tablespoons of corn sugar.

Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals.

Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful.

Preserving demands this year a thin syrup instead of a heavy syrup. If sugar is used one-half of the amount may be replaced by another sweetener.

Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps.

When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts.

Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and cakes.

WILL CONSIDER NIGHT SCHOOL

MEETING TO BE HELD AT THE BEND HIGH SCHOOL BUILDING BY CITIZENS ON NEXT TUESDAY NIGHT—TWO METHODS.

(From Friday's Daily.)
For the purpose of considering the advisability of establishing a night school in Bend during the coming school year to aid young men of school age working in the mills to complete their studies, a meeting is to be held at the high school auditorium next Tuesday evening at 8 o'clock. Supt. Moore will have charge of the meeting.

The proposition of establishing a night school here was taken up at a recent meeting of the school directors. At that time two propositions were put forth, one being the establishment of a night school, at which special subjects would be taught, and the second consideration being the partial school attendance plan. Under this plan boys of school age would be permitted to work in the mills part of the day and would attend school during the other part. In the latter plan it would be necessary for the mills to establish two shifts of four hours each with a different crew working at each shift. The result of the findings of the mill men will be reported at the meeting Tuesday night.

Mr. Moore this morning stated that it was the desire of both the directors and himself that all who are interested in the night school program be in attendance at the meeting.

FEDERAL LABOR MEN RETURN TO PORTLAND

No Decision Arrived at as to the Personnel of a Local Board for Central Oregon.

(From Saturday's Daily)
F. A. Douty and O. R. Hartwig of Portland, representatives of the federal labor board in Oregon, who arrived yesterday for the purpose of appointing a local board for this district, returned last evening. No announcements were made before their leaving of the personnel of the board at this place, and it was understood today that no decision had been arrived at, some difficulty apparently arising. Details are not available.

MAJOR COMFORT WILL DRILL MEN DRAFT EVADER IS BEING HELD

OFFICER FROM UNIVERSITY OF OREGON WILL INSTRUCT MILITIA MEMBERS IN MILITARY TACTICS FOR THREE WEEKS.

(From Tuesday's Daily.)
Members of the Bend militia who desire special training may have that privilege under the tutelage of Major Comfort of the University of Oregon, who will spend the next three weeks in this city. Officials of the militia made this statement today, and are requesting that all members of the militia report for drill tonight at 7 o'clock. The major will be in attendance and will make arrangements at this meeting for the training which is to follow.

Major Comfort arrived in the city yesterday in company with Dr. W. G. Manning, who has returned from the special officers' training course at the university.

LIQUOR FINES BRING IN \$1470

TOTAL FINES COLLECTED IN JUSTICE COURT SINCE FIRST OF THE YEAR OVER TWO THOUSAND DOLLARS—ALL PAID.

Deschutes county has been made \$2095 richer since January 1, 1918, in Judge Eastes court during the past eight months, establishing a record through fines which have been assessed and paid through cases tried for the court in a like time since its existence.

Of the total amount received for fines \$625 have been received in miscellaneous cases, and the balance, \$1470, has come from bootlegging cases where the arrests have been made by the county sheriff's office and prosecuted through the office of District Attorney H. H. De Armond.

Of the amounts given above there remains but \$300 which has not yet been paid into the fund. This is in the case of Mike Murge, arrested on a charge of having liquor in his possession, and who was convicted in the justice court and fined \$300 but took an appeal to the district court.

OTTO F. BILLUPS IS IN CHARGE OF THE MULTNOMAH COUNTY AUTHORITIES AT PORTLAND—TO BE SENT TO CAMP LEWIS.

(From Tuesday's Daily.)
Otto F. Billups, draft evader registered in Deschutes county, has been apprehended in Portland and is being held in that city subject to the order of the war department. Billups apparently disappeared from sight several months ago, and the efforts of the local war board to locate him were unsuccessful until word was received last week that he was working in the Portland shipyards under an assumed name.

Immediately upon receipt of the information of his location the local board sent notice to the Multnomah county authorities to place him under arrest and a telegram received from Sheriff Hurlburt this morning announces that he is being held. Orders have been issued to have him examined for physical fitness and if able to qualify to be inducted in the service under the call of September 3, to entrain for Camp Lewis.

BEND MEN RETURN FROM TRAINING CAMP

(From Tuesday's Daily.)
T. H. Foley, M. H. Horton, W. G. Manning, Roy Anderson and Ashley Forest returned Saturday night from Eugene, where they had been attending the second session of the officers' training camp.

PRICE FIXING BOARD TO MEET

(From Saturday's Daily.)
The first meeting of the price fixing board for Deschutes county under the supervision of the federal food administration will be held early next week. As soon as the work has been completed and prices arranged the findings will be made public.

A Woman's Hearty Recommendation.
Worry and overwork cause kidney trouble, and women suffer equally with men. Miss Sara Westen, Belvidere, Ill., writes: "I could not stoop and when down I had to crawl up by a chair. I was so lame I suffered agony. Now I feel like a new person, stronger and better in every way. I heartily recommend Foley Kidney Pills." Sold everywhere.—Adv.
