## LOCAL MILLS AFFECTED BY LUMBER EMBARGO EAST OF MISSISSIPPI

(From Wednesday's Daily.)  
By an embargo put in effect at midnight Tuesday and announced to the lumber interests of this vicinity yesterday morning, shipments of lumber to Wisconsin and points east of the Mississippi river and north of the Ohio, including West Virginia, are forbidden. The only chance of making shipments into this territory until the embargo is removed will be by obtaining special shipping authority from a government committee. Such authority can be obtained only by a consignee.

Since a large portion of the local lumber business consists of shipments into the territory included in this embargo the order has been re-

ceived here with a good deal of surprise and apprehension. Stocks are understood to be low and for a time the mills could run and fill up their yards, but this could not go on indefinitely.

Officials of the mills in Bend this afternoon were unable to give a great deal of light on the effect it is to have on the vicinity. It is generally presumed by them, however, that the order is only temporary, effective until certain adjustments have been made, after which the markets will again be opened.

The order affects lumber alone, and not the manufactured product, such as boxes, box shooks, sash and doors and similar outputs.

**Trains Are Late.**—Trains into Bend since Saturday have been running several hours behind schedule until this morning, when the passenger train arrived on time. The slides on the tracks have been removed and it is expected that train service in the future will move without interruption.

(From Saturday's Daily.)  
**Checked Up on His Men.**—One of the registrars in the county who kept a close watch on the men who were supposed to register on Thursday, Sept. 12, was J. D. Bowman, registrar at Sisters. Before the registration, Mr. Bowman, who is well acquainted with every man in the district, made a list of every man in that neighborhood and checked them off as they appeared before the board. When the day was finished he found he had nine men whose names still remained on the list, and making a search for them found all of them to be in the service, having voluntarily enlisted during the early summer.

**Tickets Selling Fast.**—Tickets on the 21-inch doll which is on display at the Owl Pharmacy are fast being taken by the public, and a considerable sum of money will be raised for the Red Cross and the donor, the proceeds to be divided equally between them. It is expected that the disposition of the doll will be made within a short time.
