

CANDIDATE WAS AGAINST LABOR

HIS RECORD CONVICTS WALTER PIERCE.

Was Opposed to Eight-Hour Day in 1903 and 1905—Helped Defeat Measure in Legislature— Courts Labor Vote.

(From Monday's Daily.) (Special to The Bulletin.)

SALEM, Oct. 28.—Walter Pierce, Democratic candidate for governor, who has been parading as a friend of labor, stands convicted by his own official record as a demagogue and an enemy of labor. In 1903 and 1905 as a member of the state senate he was one of the ringleaders to put the skids under as fair an eight-hour day bill as any state ever attempted to put on its statute books. In 1918, because he is a candidate for governor and because labor has become a powerful factor in the state, he endeavors to bid for labor's vote by declaring that he has always been a friend of labor.

In 1903, as a member of the senate judiciary committee, he was one to put his sanction to an adverse report on a bill providing for an eight-hour day, and in 1905 he cast his vote as a member of the senate against the identical bill, after having been again a member of the judiciary committee which reported that the bill "do not pass."

The bill itself provided for an absolutely fair eight-hour day proposal for employer and employe. It contained none of the provisions which have caused opposition to develop to the eight-hour law. It specifically declared that the eight-hour work day should not apply to "domestic service, farm and stock raising employments." The provision for punishment was a nominal fine of \$10, or not more than \$100, or imprisonment in the county jail not to exceed 60 days.

It provided that the eight hours should mean eight hours of actual labor and not to include the time taken for meals or in going to or returning from work.

At the time it is understood Walter Pierce was an employer of labor in Eastern Oregon in a public utility. His change of heart has come since

when he climbed onto the wagon as a demagogue candidate for governor.

Any laborer who believes that Walter Pierce is his sincere friend should read the following bill, which he helped to kill in 1903 and also in 1905:

(Copy.)

'Oregon Legislature.
'Twenty-third Regular Session.
'SENATE BILL NO. 38.
'Introduced by Senator Brownell.
'1905.
'A BILL.

"For an Act making eight hours of labor a day's work in certain specified occupations.

"Be it enacted by the Legislative Assembly of the State of Oregon; and,

"Be it enacted by the People of the State of Oregon:

"Section 1. That eight hours of labor in all mechanical arts, trades and employments, in all sawmills, mills, factories and manufacturing establishments of every kind and nature whatsoever, in all labor pertaining to and connected with the operation of mines, whether such labor be skilled or unskilled, and in all other kinds of work, except domestic, farm and stock raising employments, shall constitute a day's work.

"Sec. 2. The eight hours herein provided for shall be construed to mean eight hours of actual labor and shall not include the time taken for meals or in going to and returning from work.

"Sec. 3. Any person, firm or corporation who shall in any way attempt, by threats of discharge or otherwise, to coerce his employes to labor more than eight hours for a day's work, in violation of the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not less than \$10 nor more than \$100, or imprisonment in the county jail not exceeding fifty days.

"Sec. 4. Justices of the peace shall have concurrent jurisdiction over the misdemeanor defined by this act."

CURE FOR OLD OR SPANISH INFLUENZA

Mrs. R. N. Palmerton has submitted the following cure for the Spanish influenza, clipped from the Spring Valley (Minnesota) Mercury:

Buy 10 cents worth of equal parts of camphor and chloroform; inhale it and rub over forehead, back of ears and on the upper lip. Keep a little bottle of it in the pocket and inhale occasionally.

Make a salve of one-half cup of lard or goose oil, add one-half teaspoon of red iodine (pure), one-half teaspoon of turpentine. Rub on the glands back of ears, throat and lungs, both back and front. If stomach is bad take ten drops of the camphor and chloroform in one-third glass of hot water before breakfast and at night.

The bowels must be kept open and a physic daily must be given with the prescription.

I commenced to have the old fashioned influenza and I did this and never was in bed and am well now.

I have used it in other cases for hay fever and catarrh and cured one case of hay fever of 40 years' standing.

Trusting all camps of the United States will copy this in kindness to the soldiers and others, I remain Yours sincerely,

MRS. MAY BARNARD-WILTSE, Chemist.

P. S.—If one has fever, take one-half glass of water, put eight drops of acetic in to radials. Give one teaspoonful every 15 minutes. Also make good strong black coffee and give one tablespoonful every half hour.

SMOKER WILL NOT BE HELD

CLOSING ORDER OF THE CITY WILL NOT PERMIT SMOKER TO BE GIVEN ON NIGHT OF ELECTION DAY.

(From Monday's Daily.)

The smoker which was to have been held at the Hippodrome Tuesday, November 5, will probably be called off on account of the city closing order being in effect at that time. The development of several new cases of influenza in the city makes it improbable that the lid will be lifted by that time.

Charles Olsen, the wrestler who was to have met Gustavo on that evening, stated today that he would leave either tomorrow or next day for Portland, as soon as it is definitely determined that no match is to be held.

Olsen has been working out at the gymnasium here with Hans Christianson, another wrestler, who was on the card for the same night, and states he was greatly surprised to see a gymnasium as magnificent as that of the B. A. A. C. in a town with a population no greater than Bend.

HOW TO MAKE GAUZE INFLUENZA MASKS

(From Monday's Daily.)

In the fight against influenza, gauze masks are being worn in many of the coast cities and it is expected that sooner or later Bend will come to them. The Red Cross directions for making the masks are as follows:

Take gauze 36 inches wide and 43 inches long. Divide into four strips nine inches wide. Fold each strip into halves, then into thirds, making six thicknesses of gauze.

Turn all raw edges and stitch all four sides to hold firmly. The mask now measures 7 by 8 inches.

Put three pleats on 7-inch end, lower pleat deeper than other two to allow room for chin. Width at end after pleats are laid, 3 1/2 inches.

Attach a tape 12 inches long to each of the four corners. Place a black thread in center of mask to designate outer side.

BUDGET FIGURES ARE OUT.

(From Saturday's Daily.)

The amount necessary to run the city during the coming year will be approximately \$28,840, according to a budget made up by members of the city council late yesterday afternoon. No change was made from the budget of last year with the exception of an addition of \$1200 to carry interest.

ARRIVES IN SALT LAKE.

Lieut. Harry G. Newton has arrived in Salt Lake City safely, according to a card received by his father, W. G. Newton, this morning. Lieut. Newton visited here Friday and Saturday of last week, leaving for Salt Lake Sunday morning.

Cut This Out—It Is Worth Money.

DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2335 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup, Foley Kidney Pills and Foley Cathartic Tablets. Sold everywhere.—Adv.

LA PINE BOYS ARE PATRIOTIC

WILL EACH GIVE \$5 WHICH THEY HAVE EARNED DURING THE PAST SUMMER TO THE LA PINE QUOTA.

(From Monday's Daily.)

There will be little difficulty in raising Deschutes county's quota for the United War Work drive if every one shows the same spirit as two La Pine boys who have just written to Manager T. H. Foley telling him what they are doing. The boys are Clifford and Clyde Clow, the two sons of C. H. Clow, prominent La Pine merchant and leader in patriotic work in that community.

The Clow boys, according to their letter to Mr. Foley, are getting into the game on behalf of the Victory Boys and Girls. Each boy or girl in this department of the drive is expected to give \$5 which he or she has earned, or to pledge this amount and earn it before a specified date. The Clows write that they have already earned their money and given it to the La Pine fund.

Their letter is as follows:

"La Pine, October, 25, 1918.
"T. H. Foley,
"Chairman County United War Work Drive.

"Dear Sir:

"My brother and I have accepted the challenge of the Victory club by giving \$5 apiece to the La Pine quota which we have earned honestly this summer.

"Yours truly,
"CLIFFORD AND CLYDE CLOW."

TOURS, FRANCE, IS INTERESTING

(From Thursday's Daily.)

Some of the wonders of the cathedral at Tours, France, is told by Sergeant Simeon G. Nickerson, a former Bend man, who is now with the 62nd Engineers, to his sister, Mrs. J. G. Sumner, of this city. The letter, in part, reads as follows:

"* * * France is a beautiful place, with lots of towns which we would term as villages in the States. The town of Tours, where we are now located, has a population of 130,000, and is nicely laid out with the exception of the narrow streets, those of the business districts being especially narrow. This is not true of the boulevards, however, which are very wide. Two rows of trees run through the center of these boulevards, with traffic on either side.

"The buildings are in the main built of stone and concrete and the larger portion of them very old. One tower here dates back to 300 B. C., so you see we are among the wonders of the old world. Julius Caesar destroyed this tower in one of his sieges in the year 55 B. C., and it was rebuilt on the same foundation in the year 300 A. D. The tower of the year 300 is still standing and is termed the new tower, although it is over 1500 years of age. The stone of which it is built is apparently as firm today as it was when it was placed there.

"Another of the wonders of all Europe is the cathedral here. It is the oldest in France and was erected in the year 300 B. C. It was destroyed in the beginning of the eleventh century, and the new one started in 1170 A. D. The foundation of the old building was used on which to place the new cathedral, and eight feet of the south steeple of the first building was used when the second was erected. The spires of the cathedral are about 186 feet high, while the building proper is over 100 feet in height.

"The inside is beautiful; over 150 feet in length. The saints are represented in statuary along each side of the interior. The tomb of King Louis VII is in the building. The ceiling is supported with massive pillars, 75 feet in height, while the pipe organ reaches from the floor to the tip of the gables. Priests are to be found here at all hours of the day and night praying, and candles are kept burning continually.

"The only wear shown on the entire building is on the stone floor, which is becoming quite rough.

"The story is told of a Spanish king who in early days came through the Tours valley, conquering all as he came. Arriving at Tours, his conquest ended and he placed his sword behind the altar in this cathedral. Later this sword was presented to Joan of Arc, who marched with her army for 15 days to receive the gift at the hands of the people."

That good Gravely taste!

Real Gravely is the common-sense chew for men. It is economical. A man gets his tobacco satisfaction out of a smaller chew and fewer of them. The good Gravely taste lasts a long while. Two or three small squares of Real Gravely stays with you

longer than a big hunk of ordinary plug. Each piece is packed in a pouch. These are the plain facts about Gravely Plug Tobacco.

It goes further—that's why you can get the good taste of this class of tobacco without extra cost.

PEYTON BRAND Real Gravely Chewing Plug 10¢ a pouch—and worth it!

STAMP SALES IN COUNTY LARGE

OVER TEN THOUSAND DOLLARS' WORTH IN THE COUNTY SOLD DURING THE MONTH OF SEPTEMBER.

(From Saturday's Daily.)

Total sales of war savings stamps amounting to \$10,139.20 were made in Deschutes county during the month of September, according to reports handed to the county chairman by the representatives of the various districts.

Bend's subscription was the largest, with \$7,984.35 for the month, with Redmond second at \$1,782.35 and Deschutes third with \$585.40. Other sales reported in the county from the outside districts were: Alfalfa, \$33.40; Brothers, \$29.40; Tumalo, \$80.80; Hampton, \$22; La Pine, \$94.50; Millican, \$67.85; Terrebonne, \$559.10, and Sisters, \$170.55.

One cent a word is all a little Want Ad will cost you.

Coughed So He Couldn't Sleep. Bronchial coughs, tickling in throat and asthmatic spasms break one's rest and weaken one so that the system is run down and serious sickness may result. Enos Hallbert, Paoli, Ind., writes: "I had a severe cold and coughed continually at night; could hardly sleep. Foley's

Honey and Tar cured my cough." Sold everywhere.—Adv.

RIVER TERRACE

The River Terrace Addition has been turned over to me as Sales Agent. This Addition is the most beautiful residence property in the city.

All payments on former and future contracts to be made through my office. Liberty Bonds taken on payment.
