

EIGHT ARE NOW OVER IN STATE

W. S. S. CAMPAIGN COMING TO END.

May Be Necessary to Put on Special Campaigns in Some Counties to Put Them in Clear by End of December.

(From Saturday's Daily.) With but little more than a month to go, it may be necessary to put on special campaigns in some counties of the state in order to put Oregon war savings stamps "in the clear."

Henry E. Reed, associate state director of W. S. S. work, has completed a table showing the relative standing of the counties in percentage of quota attained, and those counties showing less than 85 per cent. of their quota subscribed will be considered in line for special campaign work between now and the first of the year.

Counties more than 85 per cent. efficient now are considered in a fair way to reach their goal before the first of the year, when the campaign closes, but all county workers are being urged, nevertheless, to keep at it until success is clinched.

Eight counties of the state are already well "over the top." They are Clatsop, Coos, Jackson, Lincoln, Tillamook, Baker, Sherman and Wheeler.

The standing of the counties of the state, each county's quota, the maturity value of stamps sold, as of October 31, and each county's percentage of the quota sold on that date, is shown in the following table:

County	Official Quota	Maturity Value Oct. 31, 1918	Per Cent.

WILL RELEASE 30,000 DAILY

DEMobilIZATION OF AMERICAN ARMY IN THIS COUNTRY IS STARTED—OVERSEAS TRANSPORTATION HAMPERED.

(By United Press to The Bend Bulletin.) WASHINGTON, Nov. 25.—The discharge of soldiers in this country from the camps and training stations is expected to reach the high daily rate of 30,000 by the end of the week. Demobilization machinery has been speeded. By the new year more than 1,000,000 men on this side and abroad are expected to have been released and at liberty to return to their former occupations.

The only complications which now arise are in the transportation of the men from abroad. It is understood that England will withdraw a portion of the ships which have been tendered to this government for the transportation of soldiers abroad, and if this is done the home coming of the men will be hampered to a great extent.

CHRISTMAS PACKAGES MAILED.

(From Saturday's Daily.) Christmas packages to the boys overseas are being mailed in large numbers, according to officials of the Red Cross. There are but seven days left in which these shipments may be made.

RELICS OF WAR RECEIVED HERE

HAROLD J. SANDERS OF UNITED STATES NAVY SENDS VALUABLE COLLECTION TO HIS PARENTS IN THIS CITY.

(From Saturday's Daily.) A collection of valuable souvenirs from France and the battlefields was received in this city this week by T. J. Sanders of Awbrey road from his son, Harold J. Sanders, in the United States navy. The souvenirs were gathered by young Sanders while on his various trips to France in conveying the troops, the first trip to be made last July. He has just recently returned to an American port and mailed the collection from that point after his return.

The collection consists of seven hand-made silk handkerchiefs, embroidered with the colors of France and the United States; three rings made from the buttons taken from the uniforms of German soldiers, two of which have the imperial coat of arms of Germany inlaid for a setting, the third with the French coat of arms. A collection of French and English coins of various denominations, together with special specie manufactured by the city of La Rochelle and issued to the Americans who landed there during the celebration in their honor. In connection with the above were several books of post cards showing scenes in and about La Rochelle.

The handkerchiefs, hand embroidered, are the work of the young girls of France, who, according to the letter of Private Sanders, receive approximately one franc per day for their work.

Young Sanders on his last trip from France arrived in port late on the evening of November 11, the day on which the armistice was signed, and he describes the jubilation which was held aboard the vessel when the news was announced.

Another son, who is also in the navy, is stationed aboard the Nevada, one of the American vessels in the grand fleet which participated in receiving the surrender of the German vessels Wednesday.

FIREMAN BOYD LEAVES SOON

WAS ONE OF FIRST TO JOIN THE SERVICE FROM BEND AND HAS CROSSED THE ATLANTIC NINE TIMES IN FIFTEEN MONTHS.

(From Friday's Daily.) Clarence A. Boyd, master fireman with the United States navy, who has been on a furlough visiting here with his father, Chas. A. Boyd, during the past week, will return to his station at Hampton Roads, Virginia, tomorrow. Fireman Boyd was one of the first men in Bend to answer the call to the colors, enlisting in March, 1917. He was sent to Bremerton, and was from there transferred to Hampton Roads, having the distinction of being on one of the vessels in the first convoy of American soldiers across the Atlantic.

During the past 15 months he has crossed the Atlantic nine times, and has many interesting experiences to tell of the life aboard Uncle Sam's war vessels in the fight against the submarines.

During his stay here he has been straightening up some matters in connection with his homestead, and has been unable to visit with friends as much as he desired.

BOYS HOME BY CHRISTMAS.

(From Monday's Daily.) Several Deschutes county men now in the service are expected to be released in time to be home for Christmas, it was reported by relatives this morning.

LOW TEMPERATURES RECORDED

(From Tuesday's Daily.) Low temperature records for this time of year are being recorded at the local weather station, the minimum temperature last night being 18 degrees above zero. Sunday night the mark was 15 above.

NEW TEACHER ARRIVES.

Miss Jennie V. Larson of Portland arrived in the city this morning, and will fill the vacancy in the teaching corps caused by the resignation of Miss Rasmussen, which was effective November 1.

SLAVS STRIVE TO SAVE BABIES

CROATIA AND SLAVONIA, DENIED BY AUSTRIAN GOVERNMENT PRIVILEGES OF FEEDING DESTITUTE, TAKE IN SLAVONIC.

By Henry Wood (United Press Staff Correspondent.) ROME, Oct. 5.—(By Mail.)—Forty thousand babies from Austria's famine stricken provinces of Bohemia, Dalmatia, Herzegovina and Istria are being fed and cared for by the two more fortunate sister Slav provinces of Croatia and Slavonia. Details of this latest effort on the part of the Slav provinces of Austria to sustain each other until an allied victory insures them a national independence have just been received by Dr. Ante Trumbic, who, representing the Slav provinces of Austria, signed at Corfu on July 20, 1917, the pact with Serbia providing for a single united Southern Slav nation following the war.

Croatia and Slavonia rank as two of the most fertile provinces of Austria, and despite the ever increasing scarcity of food that exists throughout the dual monarchy, these two provinces continue to produce more than they need. Through their local diet they therefore proposed to the Austrian-Hungarian government that they be allowed to succor the other Slav provinces of Bohemia, Dalmatia, Herzegovina and Istria. The only condition they demanded was that in recognition of this they be exempted from military requisition of their food products.

The proposition was turned down by the Austrian-Hungarian government, whereupon the two more fortunate provinces of Croatia and Slavonia began immediately gathering together all the babies and little children from the other Slav provinces. No distinction was made either on religious grounds or grounds of diverse branches of the Slav race. The children likewise were distributed among the families of Croatia and Slavonia without religious or other distinction. Catholic children often were taken into orthodox families and vice versa. All are now being fed and educated toward the common end of saving the greatest number possible of the Southern Slav race, which has had the most disproportionate losses in the present war, for the future independent Slav state.

LABOR TO MEET ON DECEMBER 9

STATE FEDERATION TO HOLD ITS POSTPONED CONVENTION HERE WITHIN THE NEXT TWO WEEKS, SAYS ANNOUNCEMENT.

(From Friday's Daily.) The state Federation of Labor convention, which was to have been held in this city the week beginning October 14, but indefinitely postponed through an order of the state board of health department on account of the epidemic of influenza, will be held here the week beginning December 9, according to an official announcement received by members of the unions here yesterday.

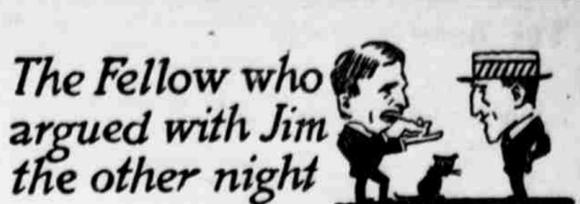

In the letter, which announces the definite date of the meeting, it is stated that the influenza epidemic in the state has abated to such an extent that it will no doubt be possible, with the sanction of the state board of health, to hold the convention at the time set.

City officials today stated that unless conditions here would take a sudden turn for the worse, there was no question that the ban would be lifted before that time, which is more than two weeks hence.

Members of the various labor committees which had in charge the entertainment of the guests during their visit here will take up the work where it was suspended by the state board's order, and make everything in readiness. Definite plans are to be announced at a later date.

WOOD DEALERS BEHIND ORDERS

Wood dealers in the city are behind on their orders several days as a result of the prevailing cold weather. Box wood cannot be delivered under a week's time, while dry slab and limb wood takes several days. There is no shortage of wood, but lack of available teams and men is given as the reason for the delay.

TWO DIE DURING MORNING HOURS

(From Saturday's Daily.) Two deaths, the first in several days, occurred at the Emergency hospital last night. Ralph Nichols, 29 years of age, a ratchet setter at The Shevlin-Hixon mill, died at 3 o'clock this morning. Nichols, whose home is in Libby, Montana, had been in the city but a few weeks when he was stricken with the disease. Complications followed shortly after and he was taken to the hospital on November 14. Arrangements for the funeral have not yet been completed, the authorities awaiting word from his wife, who, with two children, resides in Libby.

Lewis Nelson, 39 years of age, whose home is on McKay avenue, died at the Emergency hospital at 4:15 this morning. Nelson was an employe of The Shevlin-Hixon Company, working in the box factory. He had been ill for a number of days. He leaves a wife, who resides here, but no children.

AIRMAN WOULD HAVE EXPLAINED TO FRIEND

(By United Press to The Bend Bulletin.) LONDON, Nov. 3.—(By Mail.)—For steadiness of nerve and concentration of purpose it is impossible to beat the flying men. An airplane designer was flying as observer in one of his own machines

in order to have personal experience of its working. He was many thousands of feet high when he saw that a couple of wires had broken loose and were swinging in the wind. He got up, took out his camera, and photographed the flapping wires. Afterward he explained: "I thought if we crashed and were killed the camera's record would tell my friends what had happened."
