for the **HOLSUM** bread
need that has
grown here.

THRIFT DAY AND ITS MEANING.
Observance of Thrift Day will be made all over the United States on February 3 by those who realize that the right kind of saving, efficient buying and careful business management mean ultimate prosperity to the disciples of thrifty Benjamin Franklin. Thrift does not mean the hoarding of the miser. It does not mean going without things that are actually needed, nor the substitution of inferior articles because of a slight difference in price. What it does mean is efficiency in buying, in selling, and in living. It constitutes the difference between extravagance and poverty on the one hand and economy and an assured place on "easy street," on the other. It is a time for checking up, and for making a good, substantial, dependable set of business resolutions for the year.

THRIFT

Health being most important, and at this
time the weather is such that we are liable
to contract a cold—even the "flu"— would
it not be a true act of thrift to buy one's
self a box of

Nyal's Laxacold Tablets

"One tablet a day
May keep the 'flu' away."

They contain: Cinchonine, Salicylate,
Acetanilide, Jalap, Podophyllin, Belladonna
Root, Aconite Root, Camphor, Oleoresin
Capsicum.

OWL PHARMACY
BEND'S BOOK STORE

NEW MOON Six-36

strikes the dominant note of the day. A "military" car in its trim, debonair gracefulness, efficiency and "conservation" advantages. Scores another tremendous success for the producers of the big Moon Six-66—represents the utmost the expert designer, coach builder and mechanic can accomplish at the price—no more than you would be asked to pay for a "quantity" Four.

A glimpse at the car value we speak of: Wheelbase, 114 inches—double cowl and high honeycomb (Fodder) radiator—walnut instrument board, front and rear—solid; beautifully finished—windshield smartly slanted—Spicer joints—Timken bearings—Continental motor.

See this truly lightweight Moon light Six—let us demonstrate for you.
