MEETING CALLED TO ORGANIZE VOLUNTEER FIRE DEPARTMENT

(From Saturday's Daily.) Meeting this morning with Fire Chief Carlson, the fire committee of the city council ordered that work be started immediately to remodel the city fire station on Minnesota avenue, to allow for the housing of the city fire apparatus. Chief Carlson announced an organization meeting for a volunteer fire department, to be held at 7:30 o'clock Tuesday evening, at the city rest rooms. All

who are interested in becoming members of the department or feel that they have suggestions of value on the subject are urged to attend.

As assistant chief of the department, Chief Carlson this morning appointed Fred Ellenburg, formerly in charge of the Corvallis fire fighters, the crack volunteer department of the state.

The steps taken this morning by the committee and the fire chief followed a special meeting late yesterday afternoon of the city council with the committee of nine which worked with the former administration in bringing about a bond issue to purchase new fire apparatus. Unsatisfactory results from the present system of housing the fire truck at a local garage, criticised yesterday morning following the destruction of the James Bottrell house by fire, prompted the joint session.

It was decided that the fire chief should be put on a \$100 a month salary, that equipment should be moved as soon as possible from the garage to the city lot, and that the chief should drill the children of the Bend schools and organize a volunteer fire department. As soon as the new fire apparatus is received, another paid man will be added, and the chief's salary will be raised to correspond with that of the chief of police. He is given police power and will devote a considerable part of his time to the inspection of buildings.

A committee to work out plans for a new fire house was appointed by Mayor J. A. Eastes, consisting of D. G. McPherson, Carl A. Johnson, and G. H. Baker, while J. C. Rhodes, G. Benson and Ray Canterbury were named to look into the matter of a fire alarm, being instructed to confer with T. H. Foley, manager of the Bend Water, Light and Power company, and J. L. Gaither, local telephone manager. Both committees are to render reports at the next regular meeting of the council.

Chief Carlson stated today that temporary arrangements have been made with the telephone company to handle alarms until a permanent system has been worked out. Until that time individuals calling central to report a fire are requested to make their statements distinctly and to give the district in which the fire has broken out so as to avoid the possibility of costly error.

LOGGING ROAD PLANS GIVEN

BIG EXTENSION BEING CONSIDERED.

Work on \$100,000 Addition to Present Shevlin-Hixon Railway System May Be Started Within Month, Is Announced.

(From Thursday's Daily.)

That plans are under consideration for the important extension of The Shevlin-Hixon Company logging road, which if carried out will involve the expenditure of \$100,000, was made known today by J. H. Meister, recently retained as logging superintendent by the lumber company. The contract for the work is still to be let, but it is expected that this will be done within the next week.

Sketches prepared for the proposed addition to the railroad, show an extension of seven and one-half miles. According to present plans the road will leave the old main line at a point about six miles from Bend, will run in a southerly direction toward the Tallies, will cross the Deschutes river above Benham Falls, and will continue for a distance of one-half mile beyond that point, opening up a large body of pine timber to supply the big mill at Bend.

If the contract is let before another week, construction will start within the month, Mr. Meister states, and it is expected that the entire extension can be completed within six months' time. A force of men of from 100 to 150 will be employed.

Short addresses were made by Judge W. D. Barnes, R. W. Sawyer, J. P. Keyes, Rev. W. C. Stewart and L. C. Carroll.
