**BEND HIGH OFFERS TWO NEW SUBJECTS**

French and Mechanical Drawing Is Added to Curriculum—Few Students Have Grades of Over 90.

(From Saturday's Daily.)

Two new subjects are being offered to the Bend high school students this semester—French and mechanical drawing. The French class is not as large as was anticipated, as there has been a big desire for a beginning class in Latin. The Spanish class, which was started last semester, has advanced far enough to take up advanced reading. Miss Miller has subscribed for a Spanish paper from Madrid, entitled the "El Heraldito."

The reports of last semester show a decrease in the average of standing compared with the first six weeks' work. Those having above 90 in every subject were: Lela Stutsman, Hargaret Inabnit, Marjorie Baird Louise Inabnit, Darle Burton, Hilda Brick, Alberta Landkammer, Ida Dahle, Jennie Noren, Janiece Simpson, Francis Heyburn, Lester Smith and Mildred Hoover.

The first inter-district debate will take place on Saturday, March 22. The high school's opponent will be the winner of the Umatilla district debate, which has not yet been announced. The question for the coming debate is "Resolved, that the U. S. should advocate an international police for the league of nations." Bend will have the affirmative side of the question.

Eyolf Corneliusen, a former student of Jamestown, N. Y., has entered the high school as a member of the senior class. Paul Brookings has again taken up his studies in B. H. S. after three months at the Oregon Agricultural college as a
