

METOLIUS RIVER FAVORITE OF EARLY SEASON ANGLERS

(From Saturday's Daily.)

In spite of the few inches of snow which fell last night, many Bend people will spend the day out of town, and it's a safe bet to say that the majority of those carrying rod and reel will motor to the Metolius, known for years as one of the best early season trout streams in Oregon. As for the trout themselves—Well, after you've battled with one of those 20-inch beauties you'll know you've been to a real party.

Most of the anglers during the first four days of the season fished the Metolius and reported that in spite of the large number of sportsmen frequenting the stream from year to year, trout are abundant, big and gamey. Fly books should be well stocked with dark bucktail and stone fly, but if you can sneak up on a trout fly and impale it on your hook you will find the fish especially partial to a living bait at this time of year.

Roads are reported in very good shape, and for newcomers in this section directions are given for

reaching the stream. Drive by way of Tumalo and Sisters, and from the latter point in a northwesterly direction, skirting the base of Black butte on the west side. From here the road turns due north for two miles and a half, then branches off to the right, and with a mile more you are at the Allingham ranger station, the first point you can reach on the Metolius.

If instead of taking the branch road after passing Black butte you keep on straight ahead, Dan Helsing's ranch is the end of your journey, with good fishing and prime country cooking waiting for you.

Supervisor N. G. Jacobson of the Deschutes national forest warns against taking the road around the head of the Metolius at this season, as the ground is still water-soaked, and at least the heavier cars would probably mire down. Excellent road maps of the Deschutes forest have been prepared and may be had free by calling at the forest service office in the First National Bank building or at The Bulletin office.

AMATEUR PLAY WELL RECEIVED

EXCELLENT WORK BY HOME TALENT CAST IS NOTED IN PRODUCTION OF "WHAT HAPPENED TO JONES."

(From Saturday's Daily.)

The best amateur theatrical production ever put on in Bend was witnessed by a large crowd at the athletic club gymnasium last night when the dramatic department of the club, under the direction of Jay B. Noble, appeared in the popular farce, "What Happened to Jones." Embarrassing situations furnished abundant comedy, and special scenery recently completed added to the effectiveness of the cast.

In the leading role, George Pauly showed decided ability, and was equally at home as a salesman of playing cards and hymn books, or when masquerading as an Australian bishop. Good support was given by Nieta Hazleton, a live wire in the family of a college professor, and by Jay B. Noble, as the professor. Mrs. Noble, as a spinster who believed herself in love with the supposed bishop, and Dorcas McMunn, as a Swedish servant, handled comedy roles with good effect. Other members of the cast who should be mentioned were Chloe Parkins, wife of the professor, and Margaret Bond, George Parkins, Marie St. Clair, Ray Golden, George Curtis, J. C. Wanichuk and Theo Bond.

Musical specialties consisting of a cornet solo by Ashley Forrest and vocal selections by the Bend Imperial Male quartet consisting of Dr. Turner, Prince and Sylvester Staats and O. A. Thorson, were given between acts, and before the conclusion of the play an appeal for support in the club membership drive, which will start next week, was made by Fred A. Woelfen, president of the organization.

The orchestra was composed of Olaf Halvorsen, Dr. Ketchum, Mr. Forrest, Emmett Molitor and A. Halvorsen.

Cut This Out—It's Worth Money. DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup, Foley Kidney Pills and Foley Cathartic Tablets. Sold everywhere.—Adv.

GENERAL STAFF TO INSPECT U. S. ARMY

NEW YORK, April 7.—Secretary Baker sailed today for France, officers of the general staff accompanying him. They will inspect the army units remaining abroad.

COUNTY COURT NAMES VIEWERS

COMMISSIONERS HOLD BUSIEST SESSION IN MONTHS—IMPORTANT ROAD AND IRRIGATION MATTERS INTRODUCED.

(From Thursday's Daily.)

After working overtime yesterday, the Deschutes county court started work this morning on the second day of the busiest court session in months. Road work featured the meeting, and as the outcome of petitions brought in yesterday viewers were appointed for the Frank Tattl road in the Alfalfa district and the Danieleki road northwest of Redmond.

In an effort to cut down needless expenditure, the court wired George T. Cochran, water superintendent of state district No. 2, asking that he withhold the appointment of a watermaster for this county. The action was taken on the request of F. N. Wallace of Tumalo, J. Alton Thompson of the C. O. I. district and Gus E. Stadig, president of the Squaw Creek irrigation district. It is argued that the Squaw Creek district is practically the only one in the county where a watermaster is needed, and that the services of a high priced employe are not required.

COUNTY SIGNS HIGHWAY PACT

AGREEMENT WITH DEPARTMENT OF AGRICULTURE FOR MACKENZIE PASS ROAD SENT FROM HERE FOR ENDORSEMENT.

(From Friday's Daily.)

Deschutes was the first of the two counties interested formally to agree to the government proposal for the construction of the Mackenzie Pass highway, when County Judge W. D. Barnes and Commissioners Seth Stookey and C. H. Miller affixed their signatures to copies of the agreement between the department of agriculture and the county. The agreement was immediately returned to Portland to be sent to Lane county for a similar indorsement.

The estimated cost of the highway is \$355,000, covering a total distance of 53.8 miles. Of this, 16.2 miles is in Deschutes county and 14.4 miles in the Deschutes national forest. It is expected that work will be started from the Sisters end of the highway at the same time that construction is begun in Lane, instead of working through from the west side as was originally intended.

You need a SIMPLEX Silo Now

Here are three big reasons why the Simplex Silo is the best silo to buy.

The Crisell tangent top always keeps the top of the silo in a true circle. The side cable bracing extending from the roof to the foundation holds the silo constantly upright. The top fastening securely connects the stave wall with the tangent top, the roof and the side cable bracing, making a flexible roof joint, so that contraction and expansion can take place without warping or twisting the silo.

Tangent Top a Wonder

U. Gabriel, Hillsdale, Ore., owner of the silo here shown, says: "The bracing system is the main part of a wood silo. I consider the side cable bracing and the tangent top construction of the Simplex Silo the best I have ever seen."

These exclusive features are found only on the Simplex; yet every silo should have them. Simplex Silos are made of the very best material, and shipped out, ready to erect. Sold on easy terms, part down, balance in monthly payments. Write for our Free Silo Book.

LOYAL LEGION AIMS DEFINED

T. A. MILLS OF HEADQUARTERS OFFICE SAYS RELATIONS WITH UNION MOST AMICABLE—NO WAGE LIMIT, SAYS DIRECTOR.

GUSTAFSON ESTATE IS SETTLED TODAY

(From Saturday's Daily.)

One thousand and forty-one dollars, minus attorney's and administrator's fees, representing the estate of Alex. Gustafson, was turned over to Oscar Nilson of this city today to be sent to Gustafson's father in Sweden, officially closing a case of more than a year's standing in probate court.

Explaining the work and aims of the Loyal Legion of Loggers and Lumbermen, T. A. Mills of the headquarters office at Portland, speaking at the athletic club Saturday night, emphatically denied that the legion is seeking in any way to injure the Timberworkers' union. He declared that the two organizations should not conflict, and quoted from an address recently given by Otto Hartwig, president of the State Federation of Labor, in proof of this point. The speaker read from the Loyal Legion constitution and by-laws, explaining points on which questions have been raised.

W. D. Smith, employe member of the general board of directors of the legion, vigorously attacked a statement which he said had been published in a recent issue of the Labor Bender to the effect that the employe members of the directorate of the organization are "boss controlled." He denied this directly, and to disprove alleged conflicting aims of Loyal Legion and union, showed his Four L button and his union emblem side by side on his coat lapel.

PAPEC Throws as it blows - Fills the highest Silo!

"It blew into a 32-foot silo with ease. I tried to choke it down, but couldn't do it," wrote Mr. W. Sams, Skamania, Wash.

There's no silo too high for the Papec Cutter and it's a great power saver. With a Papec you can cut your fodder at just the right stage and save all its nutrients.

PAPEC CUTTER

Every man who wants to make the biggest profits out of silage needs a Papec. You can run it with your own farm engine. Cut your silage slowly and let it settle—you get more in the silo then and it is better silage.

Papec Cutters built in all sizes—from the 6-ton an-hour machine, operated with a 4-h.p. engine, to 30-ton-an-hour size.
