MEET THE NEED.

Although the armistice was signed November 11, the peak load of expenditures of the United States government was carried after that date. Expenditures for the six months to the end of February were for the heaviest period. This is shown by the following table.

September	\$1,557,264,285
October	1,664,862,261
November	1,935,249,309
December	2,060,975,854
January	1,962,350,949
February	1,189,913,903

This statement leads strongly to the conviction that the strongest reason why every one should subscribe to the limit for Victory loan bonds is the real need of the government for funds. In order to pay the accumulating costs the treasury department has been obliged to issue certificates of indebtedness in the amount of \$300,000,000 a week. These short time notes are almost due and must be taken up with the funds realized from the sale of Victory bonds.

As an investment, the Victory bonds are the most attractive security that has ever been offered. Soort maturity will protect the bonds from market fluctuations that have characterized some classes of security. In the opinion of financiers, Victory bonds will be regarded as essentially a cash asset. Exemption from tax extends for the entire period of four years. In other issues the exemption has been for two years.

EASY TERMS.

One feature of the coming Victory bonds which will make it easy for every patriotic citizen to take his share and more, in order to complete the county quota, is the arrangement for installment payments. These are distributed over a period of eight months beginning with the opening day of the campaign. The payments being made in six installments.

Payments will be required as follows:

Ten per cent. with application between April 21 and May 10.

Ten per cent. on or before July 15.

Twenty per cent. on or before August 12.

Twenty per cent. on or before September 9.

Twenty percent. on or before October 7.

Twenty per cent. on or before November 11, with interest on deferred installments.

Suppose a subscription for one \$100 bond, with the first payment or ten per cent. made on the opening day of the campaign. Seven months will then remain in which to save enough to take care for the \$90 balance. That is the subscriber for a \$100 bond, who puts away \$13 a month, beginning with May, will meet his payments easily.

Thirteen dollars a month is a small sum to save and a small sum to lend for the victory we have won.

The peace treaty is ready for the Germans. The next question is, "Are the Germans ready for the peace treaty?"

FIRE LOOKOUT IN BEND SUGGESTED

If Site on Awbrey Heights Can Be Secured, Forest Service Will Establish Public Observatory.

(From Tuesday's Daily.)

If some property owner on Awbrey heights will donate the use of a lot to the forest service, Bend will have a combination observatory and fire lookout this summer. This was the declaration this morning of Supervisor N. G. Jacobson, of the Deschutes National forest, who believes that an ideal lookout can be established within the city.

If the desired site can be obtained the forest service will build a 40-foot tower and will build and maintain a first class auto road to the base of the tower, adding another spot of interest for visitors in Bend. From a forest standpoint, the establishment of the station would make possible the elimination of the Lava Butte lookout, as the territory now overlooked by the observer at that station could easily be covered from Awbrey heights.

PLAINVIEW, April 17. — At a school board meeting held with Mrs. A. E. Hoss last Tuesday evening a decision was reached to have the school close Tuesday, April 22, according to regular schedule. BEND COMMERCIAL CLUB VOTES 'NO'

(Continued from Page One.)

timber available to them is so located that their output would go chiefly to the south, and that Bend might get only 10 per cent. of their business, whereas 90 or even 100 per cent. would come to this city when the timber is eventually logged off by the local companies.

Soldiers Speak 'in Loan.

The early part of the meeting was taken up with speeches on the Victory loan, Sergeant E. C. Frost, of the old Third Oregon, and Sergeant A. M. Fisher of the 32nd division, both overseas men, urging a ready subscription to the Victory notes as a true proof of America's patriotism. County Agent Koons, also recently returned from overseas service, was introduced by R. A. Ward, formerly county agriculturist, and also spoke on the coming Victory loan drive.

Sergeant Frost sketched the sacrifices made by the French people in floating their bond issues, and declared that the American people have no idea of what sacrifice really means. "The excitement of the war is over, but the bills remain to be paid," he said. "What are we going to do about it? It's the real test of patriotism that's confronting us now, and while you may hear that the war is over, just remember that there are still thousands of our boys across the water waiting to hear what we are doing to back them, and that the war is not over. The Germans are fighting this loan, and they would be tickled to death if we failed to make it."

"Oregon has been first in all things military. Let us keep our record intact and make good on the Victory loan."

We have done neither.

The war wont be over until the treaty of peace has been signed.

It wont be over until the Victory Liberty Loan is oversubscribed. It wont be over until We, the People,—not the banks—subscribe every cent the Government wants.
