### OCEAN HAS KEPT ITS SECRET

No One Knows What Became of the Steamer President, Missing Since March, 1841.

The first steamer to be reported missing was the President, which sailed away from New York as long ago as March, 1841. Perhaps it was because big steamers were then marvels in the eyes of the people of both the old and the new world that the whole public of America and of Europe thought of nothing but the missing liner over a period of many weeks. Ship after ship arrived which had started after the President and still no tidings of the missing ship came to hand.

On April 13—unlucky day—a letter was received by one of the family of a passenger of the President, saying that the missing ship had been driven to Madelra with a damaged rudder. Flags were hoisted and there was joy on both sides of the Atlantic, but, alas! it was all a cruel hoax.

Since the ill-starred day when the President left New York there have been many missing ships, and the story of the old American liner has been repeated again and again, with perhaps a slight variation in detail. Some mysteries, although never actually solved, give us something on which to found a theory. The ship which sailed away with a cargo of railway metals, matches and gunpowder, and was afterward reported "missing," may have sunk, but Sherlock Holmes would probably have thought otherwise.

Not Much Wasted Nowadays.  
Tin and copper are not wasted, although thrown away by one who has no further use for them. Detinning processes enable manufacturers to recover most of the tin and use it over

again, and copper is almost as good when resmelted as when first taken from the mine.

Even the bones which come from our tables are not wasted. Bones are of value for glue making, and they are persistently gathered up and sold to the glue factories. Millions of pounds of glue are made yearly from bones. Heretofore the trouble has been to find a perfectly waterproof glue or cement which would hold the particles together under the effects of water; but today cement is used which is absolutely waterproof.—Leslie's Weekly.

### GRANT REFUSED TO ANSWER

When President, He Declined to Tell House Where He Had Been During Absence.

During President Grant's administration a movement was started to call Grant to account for having been absent from Washington. The house asked him by resolution to inform it what official acts he had performed while away, says an exchange. The hero of Appomattox replied:

"I freely inform the house that from the time of my entrance upon my office, I have been in the habit, as were all of my predecessors, of absenting myself at times from the seat of government, and that during such absences I did not neglect or forego the obligations or duties of my office, but continued to discharge all of the executive offices, acts and duties which were required of me as president of the United States. I am not aware that a failure occurred in any one instance of my exercising the functions and powers of my office in every case requiring their discharge, or of my exercising all necessary executive acts in whatever part of the United States I was at the time have been."

## Troubles Cost Him a Fortune

Texas Farmer Suffered for Fifteen Years—Is Relieved By  
By Tanlac.

"A few bottles of Tanlac have done me more good than other medicines and treatments that cost me a small fortune," said C. C. Fisher, a prosperous farmer living at Irving, Route 1, a few miles from Dallas, Texas.

"For fifteen years," he continued, "I suffered so terribly from stomach trouble that I thought I could never get well. Everything I would eat went back on me and I would belch up my food so sour that it would nearly strangle me. The gas on my stomach would press on my heart so as to cause it to flutter and I would have the hardest time getting my breath. I was really in such awful condition that I felt that I had about got to the end of the row.

"But I feel now like I am good for many years yet for Tanlac has fixed me up so that I can eat anything and everything without any bad after effects and since gas has stopped forming in my stomach I am not troubled with palpitations or shortness of the breath. I have gained six pounds already and am working hard on my farm every day now and am glad to recommend Tanlac for the wonderful way it has helped me."

Tanlac is sold in Bend by the Owl Pharmacy, in Sisters by George F. Aitken, and in Bend by the Horton Drug Co.—Adv.

## When The Flag Goes by Memorial Day

MAY 30th

**H**ATS OFF as the flag passes; that has always been the rule; but Americans had to go to war to learn what the flag means, and how to pay honor to it.

Decoration Day is no longer a memorial of the Civil War; it is a day of tribute to all heroic souls who have shown devotion to the highest patriotism; to those who gave their lives, and to those who were willing to do so.

Store closed all day, May 30th
