THE CHAUTAUQUA.

Last July some 35 citizens of Bend and Tumalo contracted with the Ellison-White Chautauqua system to pay for conducting a chautauqua here this summer. The arrangement is the same as that under which chautauquas have been held here for several years past. The local contractors, or guarantors, are to sell season tickets to a certain guaranteed amount, which sum goes to the Ellison-White company. Season tickets advance in price after the opening day and preceding that day only so many as will make up the guaranty will be sold.

In addition to the guaranty those who signed the contract bound themselves to care for various expenses incident to the affair, a provision of the contract allowing them 25 per cent. of the single admission receipts for this purpose. If any money remains after expenses are paid it must be used for the continuance of the local chautauqua.

In short, the local guarantors have made themselves responsible for a number of things and have no chance at any personal profit whatever. They simply insure that the program will be given for the pleasure of all who wish to attend. If the thing is not financially successful they make up the shortage; if it is successful they have the satisfaction of knowing that they have no shortage to make up, and that is all.

A good many people do enjoy the chautauqua. That is proved by the number who attend and by their approving comment afterward. This is written as a plea to all such who are not guarantors but who take pleasure in having the chautauqua here to come forward to purchase the season tickets now being placed on sale, and by that much to lessen the work and responsibility of the guarantors.

Do not make a few carry the whole load when they have done what they have for the benefit of all.

AGAINST FIRE CRACKERS.

of the later appointed committee. When the proposal was made at the Commercial club luncheon that Bend celebrate the Fourth of July this year in good, old fashioned style, someone suggested that one of the old fashioned features be "fire crackers and everything." The suggestion was not discussed and we do not know if it meets with the favor but if there is any plan under consideration for the removal of the city ban on the use of fire crackers in the coming celebration we venture to protest, and to urge that public sentiment make itself known in opposition to the plan.

The fire cracker, as a means of celebrating the Fourth of July, is a relic of the past. City after city, all over the country has forbidden its use, and for Bend to return to this Chinese devil driving plan would be a great pity.

Statistics gathered for many years show that the use of fire crackers on the Fourth has been responsible for hundreds of fires and for scores of serious accidents, especially to children. Many a child has lost an eye or a finger or a hand when handling explosive crackers on the Fourth. Many a parent has seen the day come with fear, has lived through it with agony and has seen it pass with rejoicing when his child has come through unscathed.

There are plenty of good, wholesome ways of celebrating the Fourth of July without putting life or property in jeopardy. Old fashioned ways may be good in some respects, but when it comes to the use of fire crackers on that day the new fashioned prohibition is the best.

"Sergeant Alvin C. York, 'the greatest hero of the war,' who killed 20 Germans, captured 36 machine gun nests and captured 236 officers and men all in one day, has taken unto himself a bride. Sooner or later all martial heroes meet their Waterloo."—Journal.

That is, the martial hero becomes a marital victim.

Congratulations to C. S. Hudson of the First National bank on his election as president of the Oregon State Bankers' association. A well deserved honor.

SERVICE AND ACCOMMODATION.

A. T. Stewart was one of the first great American merchants. In his day his New York store was the leader in merchandising methods, and it is not too much to say that most of the basic ideas of the modern department store originated with him.

In the "Reminiscences" of Raphael Pampelly, a famous American geologist, who has written one of the most interesting autobiographies of recent years, occurs a paragraph which suggests one of the reasons for Mr. Stewart's success. The store keeper of today may study the incident related with considerable profit to himself.

Mr. Pampelly, then a young boy, was in New York with his mother. She took him with her to do some shopping, he says, "and stopped to buy some lace at a little shop which had recently been opened by A. T. Stewart and was, I believe, the beginning of his career. I think he had no clerks. After selecting what she wanted, my mother, putting her hand into her pocket, found only a mass of small pieces of paper. She had started away with a \$50 bill loose in her pocket, and during the long walk had been absent-mindedly tearing it to pieces. Handing back the parcel, she turned to leave, but Mr. Stewart insisted most politely that she should sit down and he would make it all right. Then gathering the fragments together, he spent nearly an hour in matching and pasting them on paper, and handed the change to my mother. From that time to his death, and later during the existence of the house under his name, practically all of the shopping of our family was done at Stewart's."

THE KENWOOD CONTRACT.

We hold no brief for Catholics, or Baptists, or Methodists, or the members of any religious sect, but when we hear, as we did yesterday, that the award of the contract for the Kenwood school to E. P. Brosterhouse, a Catholic, showed the tendency of the school board to favor persons of that religion we were inclined to be sore.

The Kenwood contract was given to the lowest bidder after due advertisement and notice that bids were to be received. There were other bids besides that of Mr. Brosterhouse, but his was the lowest. Therefore he was given the contract. His religion did not enter into the matter.

People who start such talk are little better than knaves, and people who repeat it are pretty nearly plain fools.

If our old friend Villa, or any other Mexican roughneck, wants to start something and get a good run for his money he cannot pick a better time than the present. General Pershing has seen quite a bit of fighting since he went into Mexico after the bandits a few years ago.

A C. O. I. Co. settler, living near Redmond, advertises for a Canadian railway stating that long time loans will be made to settlers on its irrigated lands. It seems to us that a local farmer who will try to induce others to leave this section ought to be the first one to depart himself.

For the time being conditions favor California as a destination for tourists, but after July 1 the states will all be on the same footing, unless those on the border may be said to have the edge on the others.

Talk about grand and glorious feelings. The two men who landed in Ireland yesterday morning, 16 hours out from Newfoundland, must have had them to the highest degree.

If President Wilson carries out his threat to go to the people with the league of nations proposal, it ought to be a very enjoyable summer.

We no sooner get a tourist camp ground established than it appears that to be up to date we must also have an airplane landing field.

"Try not the pass" for the present. That story about passengers going through to Eugene by way of the McKenzie is apparently just a story.

In spite of all that has happened we still have faith in the Central Oregon climate. It may seem fickle just now, but it will change.

Taking the suggestion from near-silk and near-beer, let's add a new season—near-summer.

Plainly the people do not want politics in the schools and they are to be congratulated on the decision.

The German peace delegates find the treaty Hun-endurable.

Newfoundland is getting to be quite a hop field.

SERVICE MEN TO ORGANIZE

PREPARATIONS BEING MADE TO SECURE CHARTER FOR POST OF THE AMERICAN LEGION FOR DESCHUTES COUNTY.

(From Tuesday's Daily.)

As the result of general feeling among men in Deschutes county returned from service in the army, navy and marine corps in favor of the organization of an American Legion post in Bend, tentative arrangements are being made for a meeting of service men Thursday night. In preparation for this, a wire was sent to Portland this morning asking that State Chairman Ivers of the American Legion be present to direct the temporary organization. Later, when the membership is more truly representative of the service men of the entire county, permanent officers will be elected, application made for a charter and the name of the post selected.

All men from any branch of the service who were honorably discharged are eligible for membership, and the number of members necessary to organize a post is set at 20. The American Legion is primarily for enlisted men, and rank held while in active service receives no recognition.

The first convention of the legion will be held in Minneapolis November 10, 11 and 12, the gathering taking the form of an Armistice day celebration.

PLAN FOR LIBRARY DELAYING COUNCIL

(From Friday's Daily.)

Waiting for more definite information as to the length of time for which maintenance must be guaranteed in securing a Carnegie library, the Bend city council will not meet until some time next week to set the date for a special city election on the 1920 budget, Mayor J. A. Easton announced this morning.

Put it in "THE BULLETIN."

New Tanlac Plant Is Now Completed

Magnificent New Laboratory Has Daily Capacity of 36,000 Bottles.

What is said to be one of the largest pharmaceutical laboratories in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, the well known medicine, which, according to recent reports, is now having the largest sale of any medicine of its kind in the world.

The erection of the new plant was made necessary by the rapid growth of the business, as the older plant was found to be wholly inadequate to supply the ever increasing demand which at the present rate of sale will amount to more than five million bottles for the present year alone.

By the erection of this plant the manufacturers of Tanlac are giving to the world just one more evidence of the remarkable growth and expansion of their business and of their absolute confidence in its future.

This announcement will be read with interest, not only by the many thousands of Tanlac agents, scattered throughout every state of the union and throughout Canada, but to the millions who have used it beneficially as well.

The new building occupies 60,000 square feet of floor space. It is six stories in height, practically fireproof throughout, and is of striking architectural design. It also has private railway facilities.

This beautiful new structure now stands in striking contrast beside the old building where Tanlac was first made.

Visitors to the laboratories are strongly impressed with the extremely modern character of the equipment. Everything is provided and is splendidly arranged to promote systematic and rapid production. The very latest machinery and devices known to invention and pharmaceutical science are used.

The interior throughout is finished in spotless white, and all of the large force of employees wear white uniforms, which they are required to change daily. The main offices on the first floor are all finished in Carara marble and mahogany.

The entire process of manufacture is conducted under absolutely sanitary conditions. Even the bottles, made expressly to contain Tanlac, are washed and sterilized electrically by the ultra violet ray process. They are then filled by automatic machinery and the finished product is therefore never touched by human hands.

When Tanlac was introduced into Canada, history repeated itself, and the demand which had been created in the United States was quickly duplicated.

Start Now to Get Ready For the Fourth of July

Let Your Clothes Do the Saving

You don't object to saving money when you buy clothes; but don't save on the price; that's extravagant.

Pay Enough to get good Quality and let the clothes do the saving for you. Our clothes last so long that your clothes expenditure is lowered; that's why men think of this store as an economy center.

You will find our

Shoes

values without comparison in the city.

Florsheim Shoes

are good shoes. That's why we like to recommend them to all men.

M. P. CASHMAN,

BEND'S : BIGGEST : AND : BEST : CLOTHIER

Women's Summer Wash Dresses at \$3.95 to \$14.75

Made of various materials, such as voiles and ginghams, in a good variety of colors and designs. There is a style here to please every woman's preference.

Just Arrived from New York!

Women's Unusual Blouses for Summer Wear

These are the newest models of the season.

Lingerie Blouses

at
\$1.25, \$1.48,
\$1.68, \$2.48

Georgette Blouses

at
\$4.95 to \$15.00

Misses' and Girls

Middies and Smocks

\$1.48 to \$3.98

The PEOPLES Store

Put it in "THE BULLETIN."

located in the Dominion provinces. As a result it was recently found necessary to establish another Tanlac laboratory at Windsor, Canada, which is on somewhat smaller scale than the plant at Dayton, but in no less modernly equipped.

The new facilities give a daily capacity of 36,000 bottles, but as Tanlac is rapidly being introduced into foreign countries, it is probably only a question of a few years before even larger facilities will become necessary.

Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs and barks are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to the tens of thousands of druggists throughout the United States and Canada, to supply a demand never before equalled for this or any other medicine.

The executive sales offices are located in Atlanta, Georgia, and occupy almost an entire floor of the Fourth National Bank building of that city.

Tanlac is sold in Bend by the Owl Pharmacy, in Sisters by George F. Aitken, and in Bend by the Horton Drug Company.—Adv.

COUNTY PLANS STATE EXHIBIT

(Continued from Page 1.)

already provided for are a ball game between the Bend team and the Battery A, 147th field artillery, nine, competitive infantry drill and a speedy bout between two fighters who will be brought in from Portland or San Francisco. The lots on both sides of Bond street, between Kansas and Louisiana, will be used through courtesy of D. E. Hunter for the concessions, and the street will be roped off during the celebration. A. Whelan dwelt briefly on the arrangements being made for the boxing smoker.

Reviewing the school election held Monday, Carl A. Johnson and J. P. Keyes, two of the members of the board who were re-elected, took occasion to express their thanks to the people of Bend for the splendid endorsement of the directors' policies.

FIRST OFFERING OF TREASURY STOCK

Roosevelt Divide Mining Company

10c A SHARE 10c

One of our most successful financiers says: "The time to get into an enterprise is in its early stages."

The history of the properties of the Divide District has already proven the wisdom of this. Stocks that sold for a few cents a share 30 to 60 days ago have since doubled and trebled, some of them several times.

This is Your Opportunity to Join the Winners

Roosevelt Divide owns about 60 acres adjoining the Sunbeam and but a short distance from the Sutherland. The surface showing of this property is good, and there is every reason to expect it to become one of the big producers.

Application will be made to list on the San Francisco Exchange. Officers of the Company:

E. S. Herney, President
Fred Strassberg, Vice President
Milton Detch, Secretary
Geo. A. Foster, Treasurer and Manager

Mr. Herney is State Representative from Churchill County, and Mayor of Fallon. Fred Strassberg is a prominent business man of Churchill County, and until recently connected with the Churchill County Bank as Assistant Cashier. Mr. Detch is one of the best known mining attorneys in Southern Nevada. Mr. Foster, known as one of the liveliest wires in the State, has been in the mining business for over 30 years, and enjoys the confidence of all who have ever had dealings with him.

Wire orders and make checks payable to

Richardson & Foster, Fiscal Agents Tonopah, Nev.
