Standing, sitting and walking correctly are the first essentials to good health and that elusive charm we call style

All women wish to be well; but all women do not appreciate the vital importance of correct corsetry as an essential to good health. The well-known medical authority, Alice S. Cutler, M.D., warns us: "As a physician who knows that if it were not for ill-fitting and the wrong kind of corsets we would have very few female invalids, I am naturally determined to do everything in my power to educate the American woman in the proper fitting of corsets. Most learned physicians now recognize the modern corset as a hygienically healthful garment and one that is often the best means of providing corrective support for many bodily ailments."

valids, I am naturally determined to do everything in my power to educate the American woman in the proper fitting of corsets. Dangers of Hot Weather.
Any one is doubly liable to ill effects from the hot sun when stomach and bowels are clogged with a mass of undigested food. If you suffer from sick headache, biliousness, bloating, heaviness, or any ill caused by indigestion, take a Foley's Cathartic tablet and you will feel better in the morning.
