**SAVE THE TREES.**

Apparently Mr. Mather and Mr. Grant, who urged so strongly while here last Thursday that a strip of trees along the highway be saved, went on to preach the gospel wherever they could. A news dispatch to a Portland paper from Hood River quotes Mr. Grant as saying there: "These forests are to us easterners the most beautiful things along your roads. You permit the fire along the routes to remain in private hands and then build the roads through the timber. The first thing you know wood cutters have demolished one of the biggest assets you have."

Later in Portland, according to the same paper, they urged "protection of forests bordering the Columbia highway, along the main highway through Central Oregon near Bend and in the Crater lake region."

As a result of their work resolutions have been adopted by the Portland Chamber of Commerce looking to the preservation of timbered strips, and a committee is to give its attention to the task. We reprint the resolutions herewith with the suggestion that the Commercial club give its aid in this section. The resolutions are as follows:

"Resolved, that a committee be appointed by the two chambers to cooperate with the federal and state road building agencies to further the protection of the scenic beauties of Oregon's highways, to act as a force in urging appropriate legislation to this end, and to promote a state-wide organization for this purpose; and be it further

"Resolved, that the committees named, or another chosen especially for this purpose, shall consult with the state highway commission, the county authorities, the United States forestry service, the bureau of public roads, and large timber owners, relative to the preservation of timbered strips along scenic highways, either by reservation, donation or purchase, and to develop some plan whereby the means for this may be secured; and be it further

"Resolved, that the committee or committees named by the two chambers shall cooperate with the forest service in securing federal legislation, that along scenic highways any privately owned land in or near the national forests may be exchanged for national forest lands and the preservation of the timber assured."

**LOCAL FOOD PRICES.**

In the news item reprinted from a Portland paper elsewhere in the Bulletin today, reporting the meeting of the conciliation board on the local saw mill wage dispute, appears for the first time, the suggestion that the merchants of Bend are setting their prices to meet higher wages so that the mill worker gets no advantage from an increase in pay.

The word profiteer has not yet been clearly defined but if it can be shown that the Bend merchants are doing this we think they are profiteers. However, we doubt if any such a thing can be shown. An examination will probably disclose just the same sort of circle of costs and prices and wages that we have discussed before.

To clear the air, especially if the charges made in Portland have any degree of currency in Bend, an examination should be made. We urged a few weeks ago that the facts as to lumber prices should be brought out. In these days of suspicion and accusation facts as to food prices should also be made known, in order that the improper conditions, if they exist, may be corrected and if they do not exist that the public may know.

When congress considers the request for a \$3,000,000 appropriation to fight the high cost of living it ought to agree to save this amount by economies in other directions.

Henry Ford got a jitney plus war tax as damages from the Tribune.

**HIGHT MATURITY SILAGE BEST.**  
Experienced silage men do not rush their crops into the silo while yet immature, but hundreds of livestock men will put up silage for the first time this year and frequently make that mistake says E. L. Westover, federal and O. A. C. field specialist. Corn, peas and vetch, and sunflowers, best when the grain or seed has been formed and is passing into the dough stage.

**DRILLING WILL BE COMMENCED AT EARLY DATE**

**CONTRACT TO BE LET IN FEW DAYS.**

**CUPPER IS PLEASED**

**State Engineer Considers Conditions Above Benham Falls Encouraging—Type of Drills to Be Used Yet Undecided.**

After a trip of inspection to the Benham Falls reservoir site, made in company with Professor W. O. Crosby, head of the party of reclamation service geologists, his son, I. B. Crosby, and Fred N. Wallace of Tumalo, State Engineer Percy A. Cupper announced Tuesday that within the next three or four days the contract will be let for drilling, the final work necessary before a definite report can be turned in to the reclamation service.

Although he has previously been over parts of the reservoir site, Mr. Cupper stated that he had never gained so complete an idea of the conditions above Benham Falls as in his Tuesday trip. "It looks very encouraging," he said. "At present there is no indication that a reservoir would not be successful, but it is in order to obtain an absolute confirmation or contradiction of this preliminary opinion that drilling is to be done."

**Funds Are Sufficient.**  
At present it is planned to sink six holes, and the locations for three of these were selected Tuesday, while the others have already been approximately fixed by Professor Crosby. It may be found advisable to increase the number, Mr. Cupper said, but there is nothing definite on this as yet.

The state and the reclamation service will continue to cooperate in the final investigations, as has been done up to the present time, said Mr. Cupper, and he declared further that sufficient funds will be available so that the extent of the drilling will not be hampered. One phase of the matter is yet to be decided, for there is still some difference of opinion as to the advisability of using a diamond or a churn drill. As soon as a decision on this point has been reached, the contract will be let.

**Drilling Will Take Month.**  
The drilling, it is expected, will take approximately four weeks, and it is probable that Professor Crosby and his son will not stay for the entire time, leaving the direction of the work in charge of H. M. Schilling, of the U. S. reclamation service, now stationed at Hornistown. Whether the geologists will return to Bend in time for the completion of the work or whether they will complete their report with data on the drilling to be forwarded to them by Mr. Schilling is not yet certain.

Mr. Cupper left this morning for Portland and Salem.

**What's Doing in the Country.**

**NEWS ITEMS FROM PINEHURST SECTION**

**PINEHURST, Aug. 21.**—I. E. Wimer and son Raymond were in Bend Wednesday.  
Miss Ruth Bayley spent Wednesday with Miss Bertha Hasselburg.  
Mrs. C. W. Howell, Mrs. C. A. Howell, Mrs. C. H. Spough and Miss Violet Spough were Bend visitors Tuesday.  
George Mickels and brother Dave were in Bend Saturday.  
Mr. and Mrs. Cris Peterson and C. Peterson spent Monday and Tuesday on the Metolius fishing.  
Mrs. Mary Garner, who has been keeping house for R. H. Bayley and family, is visiting her daughter, Mrs. C. M. Phelps.  
J. L. Couch and son Melvin were in Bend Tuesday on business.  
Mrs. E. Tweedt called on Mrs. J. L. Couch last Saturday.  
C. H. Spough was a caller at the Devers ranch Monday morning.  
Several from this neighborhood spent Sunday evening at the home of C. W. Howell's brother at Plainview. They were Mr. and Mrs. C. W. Howell, Mr. and Mrs. Harry McGuire, Leroy Howell and Miss Nellie Howell.  
Several from this neighborhood

**Fifteen Years Ago**

(From the columns of The Bend Bulletin of August 19, 1904.)

S. C. Caldwell, of Albany, and H. R. Satchwell, of Newberg, reached Bend Wednesday night, and have begun preparations for a general plumbing, tinning and hardware business. They have the corner lot on Wall street near the Sather store and will erect a large two story building.

The office building of the Central Oregon Banking & Trust Co. is so far along that Guerin & Steinemann moved in yesterday, and the telephone office is also located there.

The 30 miles of telephone line between Bend and Prineville was completed Wednesday morning. The public was invited to make free use of the line Wednesday afternoon, after which time the 50 cent toll took effect.

Congressman Williamson was in Bend Wednesday looking over the country and calling on friends hereabouts. He was accompanied by Sheriff Smith. They returned to Prineville yesterday.

R. B. Nutzig will begin construction of his store building at the corner of Oregon and Wall streets next week.

It is reported that the Lytle Townsite interests are on the point of being transferred to parties from Minnesota.

The saloon in Lytle closed its doors last Saturday just after a row between a ditch workman named Spinks and Ballard Gile had taken place there, in which the stovepipe was knocked down, and in falling disfigured Spinks' face.

H. J. Overturf was talking to the man running the planer at the Pilot Butte mill Monday when his trousers leg caught on a shaft, and in an instant the pants leg was torn off. Overturf did not receive a scratch.

Steidl & Reed are building a logging road about a mile and a half over the hill west of their mill.

Hugh O'Kane, who was granted a saloon license by the county court, and has erected a building at the corner of Oregon and Bond streets for it, will open The Office saloon there tomorrow.

**Hold the date—Sept. 1. Big Banker-Farmer Mixer on Tumalo Island.—Adv.**

attended the sale near Redmond Monday.

Mrs. Reed went to Tumalo Saturday evening to do some trading.

C. M. Phelps, who works at the Tumalo garage, spent Monday evening at his home here.

Miss Nellie Howell, after spending several months with her sister, Mrs. Luther Clarkson, at Pullman, Washington, arrived here Monday evening.

Mr. and Mrs. Howard Hartley and her mother-in-law called at the McGuire home Monday evening.

G. M. Couch and daughter, Mrs. A. J. Harter, left Tuesday for near Ontario, where they will visit with relatives.

**Farmers, remember, big Banker-Farmer Mixer on Tumalo Island, Sept. 1.—Adv.**

**HOT WEATHER AIDS HAY AT TERREBONNE**

**TERREBONNE, Aug. 21.**—The hot weather the last few days is bringing on the second crop of alfalfa rapidly. The farmers are expecting an unusually good yield.

The Ladies' Pioneer club entertained their husbands and children in a most delightful manner last Friday evening. Tables were spread for about 100 guests and ice cream and cake were served in generous portions, followed by a program of witty toasts, music and surprise stunts by the ladies. Two numbers deserving special mention were "Reminiscences of the Club History" by Mrs. Gates and the presentation of the family album by Mrs. Peckham.

Mr. Allerdyce's brother and his wife, from Idaho, are visiting here this week.

Mrs. Johnson's brother, from Independence, is visiting the Johnson family and contemplates making his home in this section.

F. T. Cavendish and family from Estacada have rented the Swanson place for a short time while they look around for a desirable location.

M. M. Miller and family have returned from a trip to Vale and points in southern Idaho. They expect to locate in Idaho soon. They made the trip by auto and enjoyed it immensely.

R. V. Whitels of Heppner is visiting his father, George Whitels. He came over by auto and went on to Klamath Falls to attend the Elks' convention.

**Hold the date—Sept. 1. Big Banker-Farmer Mixer on Tumalo Island.—Adv.**

Put it in The Bulletin.

**ARMY SUPPLIES SELLING FAST**

**STOCK AVAILABLE FOR BEND ALREADY HALF GONE, AND REMAINDER WILL BE LARGELY SOLD BY TONIGHT.**

With 30 orders placed up to noon Wednesday at the Bend postoffice for U. S. army foodstuffs, half of the supply available had been exhausted, Acting Postmaster W. H. Hudson stated, and added that he expected there would be little left by evening, as orders are coming in with increasing frequency. One requisition will be sent in to San Francisco tonight and another will leave as soon as the remainder of the food offered to people of Bend and the vicinity has been spoken for.

Total supplies ordered up to this afternoon will reach more than 4000 pounds, and have a value of \$593.34, Mr. Hudson reported. String beans are now exhausted, and tomatoes are gone with the exception of a few gallon cans. Bacon sales are light because of the large quantity which must be taken for one order, but this will be overcome by clubbing, Mr. Hudson believes.

**Put it in The Bulletin. HIGH COST OF LIVING SUBJECT**

(Continued from Page 1.)

sent all the merchants of Bend, but said that there seemed to be no objection to opening an hour earlier if the eight-hour day remained in effect. He suggested the organization of a merchants' association in order that negotiations might be more effectively carried on.

**Landing Stage Asked.**

T. H. Foley, president of the club, read a letter from the Aero club of Portland asking that a landing field be provided in Bend. A representative of the flyers' organization will be present next Wednesday to discuss the matter more fully, he said.

E. L. Payne brought up the matter of declaring a jubilee week early in the fall when a carnival company will show here, and Frank R. Prince stated that he had been authorized by the local post of the American Legion to sign a contract for the appearance of the carnival in Bend. D. G. McPherson spoke at length on the patriotic motives and ideals of the American Legion, and on the grounds that part of the

**THE INSTRUMENT OF QUALITY**  
**Sonora**  
CLEAR AS A BELL

**Supreme in Tone!**

**EXAMINE** the Sonora critically. Study the long-running motor, the tone control at the sound source, the convenient envelope filing system, the universal tube for playing all makes of disc records perfectly without extra attachments, the improved sound box, the matchless curved design lines of the cabinet, etc., and you'll see why Sonora is unequalled.

Above all, Sonora's tone quality is what has made it famous, and for this it received the highest score at the Panama-Pacific Exposition.

Choose from our complete and wonderfully handsome line.

**Prices \$50 to \$1000**

Always on hand the latest and best Records, Columbia and Sonora Phonographs, Pianos and Player Pianos, Musical Instruments, Sheet Music.

proceeds of the carnival will go to Percy A. Stevens post, moved that a committee of the club be appointed to work with the legion in making the week a success. His motion was unanimously carried, and the committee will be named later.

**We also carry the most complete line of AMMUNITION**

of all calibre in Central Oregon. Every rifle and shotgun need of the sportsman can be supplied here.

When you make that **HUNTING** trip, bear in mind also that we have a most complete line of **SUPPLIES** that will make your hunting trip complete.

**A caliber for every purpose**

We now have a complete stock of Winchester rifles from .22s to elephant guns. They are on display in our store. Come down today, we want you to look them over, to handle them, fit them to your shoulder and sight down their barrels.

Even if you haven't the slightest idea of getting a gun just now, we want you to come in and see this complete exhibition of world-famous rifles.

Winchester rifles built the West. And for more than half a century they have been the standard of pioneers and sportsmen. As the need grew, Winchester originated a model and a caliber for every purpose.

We have a variety of these famous models in our store now; don't fail to call and see them.

**MODEL 30—Hammerless take-down self-loading rifle, 30-inch French barrel. This is the world's finest self-loader, choosing only its own .30 caliber Winchester cartridge. The favorite weapon of the modern hunter.**

**MODEL 30—Lever Action Repeating Rifle, solid frame or take-down, 30-inch barrel, Model No. 44, 45 and 46 Winchester cartridges. The most successful rifle ever made handling these popular sizes of cartridges.**
