HIGHWAY NEED IS NOTED BY MAYOR BAKER

PORTLAND INTERESTS ARE CONNECTED.

FAVORS IMPROVEMENT

Will Seek to Interest People of Multnomah County in Providing Better Travel Facilities in Central Oregon.

"If the people of Portland knew the condition of roads in Central Oregon, the needs of your highway, and what the improvement of your roads would mean to them from the standpoint of tourist business, they would, to a man, be behind the movement for improvement of the north and south highway."

This was the declaration Monday of Mayor George L. Baker of Portland during a day's stop in Bend on his return from the Elks' convention at Klamath Falls. Mr. Baker was accompanied by his wife, who was confined to her room as the result of the hard trip over the rough road between Bend and Klamath Falls.

Should Be Tourist Mecca.

"Oregon would be a tourists' Mecca if these roads were what they should be," Mayor Baker said. "The Central Oregon route is the natural outlet from the state from the Columbia River highway, or if the trip is made in the opposite direction it leads directly to the highway and to Portland. It is my desire to write a story for the Portland papers showing the need of this section of the state, with the purpose of getting the people of Portland and Multnomah county interested in a better north and south road. It should be a boost for the state. As it now is, it is a knock."

Opportunity Seen.

Mr. Baker believes that now is the time of golden opportunity in offering inducements to travelers from the east. "We should build highways to places where people want to go," he said. "I consider it false economy to lay anything but the very best roads," he added. "I would favor hard surfacing, but if this cannot be had, get the next best."

He declared that the state north and south highway could not well be in more deplorable shape than it was found by the hundreds who made the trip to Klamath in the last week.

Clever Willis.

Glancing hastily over the pages of Willie Johnson's examination papers, the teacher was delighted to see that not one of the questions remained unanswered. But upon a more careful scrutiny her pride took a tumble. After nine of the twelve questions Willie had written politely, "I am sorry that this is a subject on which I have no information."
