The World at a Glance

With the German peace treaty as yet unratified by the United States Senate, two series of events stand out as of chief importance in the world news of the week, the reported attempts of the Germans to assure a favorable vote over Poland when once the plebiscite is taken to determine the nationality of Upper Silesia, and the amendments proposed to the text of the treaty by the American Upper House. According to reports from Polish officials and British news writers, the Germans are repeating in Silesia the atrocities committed in Belgium in 1914, ruthlessly ordering wholesale executions for minor violations of arbitrary rules, and deporting large numbers of the Polish male population of the province to insure a majority when the vote is taken. British news correspondents have urged pointedly that allied troops be sent to maintain order, but no action as yet has been definitely taken.

China Finds Champion. Signaling a rebellion against the ultimatum issued by President Wil-

son that no reservations in the peace treaty would be countenanced, the Senate Foreign Relations committee, in whose hands the treaty still remains, voted Saturday against allowing Japan the rights in the Shantung peninsula, formerly held by Germany, and favored instead restoration to China.

Another change of government for Hungary came Friday, when news of the retirement of Archduke Joseph was cabled under the Atlantic. It had been charged that his government was not representative of the people, and that it was his purpose to reinstate monarchical rule. He had never been recognized by the allies.

Invasion of Mexico Ends.

Possibility of international complications with Mexico passed into the realm of impossibility Monday, when American cavalry which had for several days pushed farther and farther into Chihuahua in hopes of capturing Mexican bandits who had taken and held two American aviators officers for ransom, gave up the chase and returned to the United

States. Threats of official protests in connection with the invasion, failed to materialize.

Strikes continued to be declared, and then to be declared off, but one which at present is not following this precedent is the walkout of railroad employes growing out of the interurban street railway strike in Los Angeles. At present the Southern Pacific in California, Nevada, and Arizona, has cancelled all its schedules, and the trouble is spreading rapidly on the Salt Lake and the Santa Fe lines. The strike is without the authority of the railroad brotherhood officials. The possibility that the officials of the railroad unions might endeavor to replace the men who are out on strike, was indicated yesterday.

Fire Situation Worse.

Another walkout of importance is that in Akron, Ohio, where the work of great rubber manufacturers is badly crippled by the strike of 2000 machinists.

In the northwest, the forest fire situation grows more and more serious, and the conflagrations in the Couer d'Alenes are causing tremendous timber losses, with no prospect of the fires being placed under control.

First Chief Justice.

John Jay was the first to hold the office of chief justice of the United States and received his appointment in 1789. He was born in New York, December 12, 1745. John Rutledge was nominated by the president and was the second chief justice of the United States. He was born in South Carolina in 1739.

Koreans Well Advanced.

The Koreans are much superior to both Japanese and Chinese in culture of heart and in mentality. They are progressive on constructive lines; in economics they equal America, and their spiritual side is well balanced, both men and women being eager for knowledge on ethical lines. They are reticent and refined in their moral nature.—Chicago Daily News.

Uncle Eben.

"Some men does hate to give anybody credit for anything," said Uncle Eben. "Dey can't throw a bouquet without tearin' off de roses an' handin' 'em out mostly stickers."

NEED COOPERATION IN CLEANING CITY

Mayor Asks Help from Citizens in Effort to Make Bend More Sanitary and Attractive.

Need for more thorough cooperation by the people of Bend, with city officials, in the matter of establishing better sanitary conditions, was pointed out today by Mayor J. A. Eastes, who is starting a campaign to make Bend a better and more healthful place to live in.

"In number of places within the city limits, some very unsanitary conditions have been found," Mayor Eastes declared, "and it is to the interest of all concerned that these cases should not be repeated. It may take a little extra work in bringing things up to the proper standard, but once this is done, there is little trouble in maintaining the proper conditions. Better health, and a city far more attractive to its inhabitants and to those who visit us may consider making their homes here, will be the reward."

Put it in The Bulletin.
