

BEND HAPPENINGS FROM DAY TO DAY

Wednesday—

W. F. Fryrear of Sisters was in Bend last night.

Mrs. H. K. Brooks returned this morning from Portland.

Nels Byberg was a passenger on last night's train for Portland.

L. D. Hoy is a visitor in Bend today from his Summer Lake home.

C. W. Thornthwaite, formerly of Bend, is now located in Anaheim, California.

Mr. and Mrs. E. G. Rourke of Crescent are spending a few days in the city.

Tracy Fairchild, who has been with the Brooks-Seaton Lumber Co., left last night for Seattle.

W. B. Daggett of Redmond was in Bend this morning transacting legal business at the court house.

Mrs. O. C. Henkle and son Vergil are spending a few weeks at Walla Walla, visiting relatives and friends.

Loven & Chinlund are making some extensive improvements in their store building this week to make room for increased stock of men's furnishings.

Arthur Jones, of Martin's Ferry, Ohio, will arrive tonight to accept a position as clerk in the Bend postoffice. Mr. Jones has had wide experience in the mail service. Acting Postmaster W. H. Hudson states.

Ladies of the Baptist church will meet at 2:30 o'clock tomorrow afternoon at the home of Mrs. C. J. Leverett, 525 Franklin.

Mrs. J. W. Wornstaff, of this vicinity, is ill at the home of her sister, Mrs. A. C. Larsen, of Portland.

Mr. and Mrs. John Dubois and children arrived in the city last night from La Pine, where Mr. Dubois is in charge of the engineering work in connection with the Walker Basin irrigation project.

Hardwig & Ward of Dunsmuir, California, have bought the alfalfa ranch of T. A. Tumay, 6 miles east of Bend. Mr. Hardwig and family will move on this week. The deal was made through the office of Henkle & Haines.

Tuesday—

M. G. Wagner returned Sunday from a business trip to La Grande.

Mrs. H. K. Brooks left last night for Portland to be gone for a few days.

Mrs. H. M. Horton returned this morning from a several weeks' vacation trip to Seattle.

Miss Sadie B. Schneider, of Portland has accepted a position with The People's Store.

A. P. Manion left yesterday for Seattle after visiting here for several days with his brother, Harry Manion.

Hugh Thompson, Ed. Lyons, and Mr. and Mrs. A. M. Pringle and guests, spent the week end at Odell lake.

Wilson Pettibone and Mr. and Mrs. John Pettibone have arrived in Bend from St. Paul, and will make their home here.

Mr. and Mrs. C. C. Colton, and daughter Gretchen have returned to Portland after a few days spent in and near Bend.

Robt. B. Moore returned Sunday from La Grande where he attended the meeting of the Loyal Legion of Loggers and Lumbermen.

Miss Bernadina Osterman has returned to Bend from a summer vacation spent at Seaside, and will resume her classes in piano.

Misses Ruth and Dorina Fleming, who have been visiting in Bend with friends, returned to their home in Portland Sunday evening.

Mrs. C. M. McKay and sons are now visiting with relatives at Walker Minnesota. They will also spend a few weeks in Wisconsin.

The Ladies' Guild of the Presbyterian church will meet with Mrs. Harris on Delaware avenue tomorrow afternoon at 2:30 o'clock.

Miss Beatrice Cheneay, of the Bend high school faculty, has returned from her vacation to take up her work in preparation for the fall term.

Deputy Sheriff August Anderson has returned to Bend after a visit of several weeks in Wilmar, Minnesota, and other points in the middle west.

D. E. Hunter, of the Bend Company returned yesterday morning from a short business trip to Canada where he has extensive farm holdings.

Mrs. F. D. Becker left for her home in Kallispell, Montana Sunday, after visiting here with her parents, Mr. and Mrs. G. J. Selk during the past month.

Mrs. Owen Ticknor and Mrs. T. C. Depue, of Portland who have been visiting with Mrs. A. M. Pringle for several weeks left last night for their homes in Portland.

Captain George S. Young, formerly county surveyor of Deschutes county, has returned to the United States from service overseas, and is now at Norfolk, Virginia.

Miss Helen E. Ely, of Oregon City has accepted a position in the ready-to-wear department of J. C. Penney Co., and Miss Florence Gilson has taken a position as cashier.

Joseph Wiley, vice president of the Hibernia National Bank, of Portland and William Healy, left on last night's train for Portland after spending several days fishing at Odell lake.

Charles Linster and John Westreicher of Evanston, Ill., are in Bend for a three weeks' visit at the home of Henry Linster. Mr. Westreicher is a banker of Evanston, and Mr. Charles Linster, formerly of this city, is a prominent merchant of the same city.

M. L. Job and family of Bend are camped at the Lithia Park auto camp in Ashland according to word which comes from that city. They are on an automobile trip and are looking for a location. They found the Ashland camp to be ideal in every respect.

Clarence and Frank Young have purchased the soda fountain and confectionery store of Charles Saylor in the O'Donnell building. The Young brothers expect to make several additions to the store. Clarence Young has been with the Bend Garage for some time and Frank Young recently was discharged from the service.

Put it in The Bulletin.

FEED INDIVIDUALLY.

Young pigs should be given their feed in such a manner that each individual pig gets its share. The simplest way to accomplish this is to allow the pigs to eat from a properly constructed feed trough, one that will keep the pigs out of the feed and will lessen the possibility of crowding.

Put it in The Bulletin.

SPUD STORING IS IMPORTANT

AIR AND LIGHT NEED MUCH ATTENTION.

Tubers Should Not Be Piled in Large Bins Without Proper Divi-sion and Insulation—Temperature Is Important.

Storing potatoes resembles banking money, because ordinarily it results in the potatoes selling for higher prices later in the season when the supply is not so abundant as at digging time. The potatoes earn dividends while in storage just as money in the bank accumulates interest. If all the potatoes were sold immediately after digging the prices would decline, due to the excessive offerings on the market. This is why storage is popular. It permits of holding the more or less perishable potatoes in a salable condition over as long a period as is economically desirable. Storage also insures a more uniform market supply throughout the season.

Care must be exercised not to store potatoes in large bulk where development of high temperature is deterioration will be favored. Specialists agree that 36 degrees F. is generally low enough for practical potato storage. A temperature of 40 degrees F. is as satisfactory except where dry powdery rot occurs. Potatoes exposed to strong or even moderate light soon become damaged for food purposes. Exposure of potatoes intended for seed purposes to moderate light if they are kept cool is not injurious.

Relative to moisture there should be sufficient moisture in the potato to storage to prevent the wilting of the tubers yet maintaining a humidity content low enough to prevent deposit of moisture on the surface of potatoes. Humidity of 85 to 90 percent is suggested by one investigator and a temperature of 33 degrees to 35 degrees F. Rapid and even distribution of air by means of air flues is important.

Storage of tubers in large bins or

plies is held to be bad practice. When potatoes are stored in a depth of 10 or 15 feet, the pile being covered by a layer of straw or other material, the heat generated by the potatoes is sufficient to cause them to rot. Over heating may be avoided by inserting division walls at intervals throughout the pile.

The division walls may consist of 2 by 4 inch uprights, on the 2-inch face of which are nailed 1/2 by 4 inch strips of any desired length, leaving a 1-inch space between each strip. This provides a ventilated partition, which can be of any height and length desired. By placing these in an upright position 5 to 6 feet apart as the bin or storage house is being filled good ventilation will be secured and an easy avenue of escape for both heat and moisture provided.

A light layer of straw on the floor over which potatoes are stored will be a great preservative aid. The pile will be insulated against cold and heat by covering the spuds with alternate layers of straw soil. As the cooler weather sets in more straw and soil should be added. The straw should be about six inches thick when compact and the final layer of soil should be six or eight inches thick, depending on weather conditions.

Edinburgh Landmark Gone.

An interesting bit of old Edinburgh, dating back about 1600, has been burned. The destroyed building, which consisted of a single story and attic, was one of the landmarks of the Holyrood area. It was the old Yew Tree tavern, and stood inside the bounds of the Holyrood sanctuary for debtors, within which, in days of yore, the fugitive was free from the attentions of his creditors.

INFLUENZA

**THIS WINTER
IS FORECASTED**

(Continued from Page 1.)

day with soap and water."

Commissioner Copeland says there is no cause for excitement since the board of health is watching symptoms of influenza the world over and is cooperating with other boards of health throughout America. It is also working on vaccines.

"Masks are no good, it has been demonstrated to the satisfaction of

scientists," says Dr. Copeland. "We are old fashioned here. We do not believe in closing schools or churches. We did everything unconventional here in 1918 and had the lowest death rate of all."

To prove that masks are dangerous instead of healthful, Commissioner Copeland cites the case of San Francisco, which had a high death rate, he thinks because "the masks are filthy, prevent the patient from getting good air, and cause him to re-breathe bad breath."

"Above all, let's not get excited," says Commissioner Copeland, who advises everyone to do his utmost to "keep his equanimity, piety and occupation."

CONSIDER BOTH.

A system of sheep farming that is to be continuously successful can not ignore either wool or mutton. In many cases the two products will be worthy of equal consideration. In others either one may be emphasized according to the peculiarities of conditions, management, and marketing.
