They Are Not True

¶ Slanderous remarks have been made regarding the sanitary condition of the American Bakery and about its employes. These statements are absolutely without foundation.

¶ That an authentic report might be made regarding the sanitary condition of the bakery and the health condition of its employes we asked Dr. J. C. Vandeventer to make a special examination and inspection.

Dr. Vandeventer has this to say:--

"I have made a thorough and complete inspection of the plant of the American Bakery, and find that in every particular the management has complied with every requirement. The statements made against the bakery and its employes are untrue."

¶ Every effort is being made to give the public a clean, wholesome product and nothing is being spared to keep our establishment up to the standard of sanitation.
