Why We Sell for Less

During the year 1917 the J. C. Penney Co. did a business of approximately fourteen million dollars. Last year, with 197 stores, they did twenty-one million dollars—making a gain of seven million in 12 months. It has taken this Company only 17 years to accomplish this, the most remarkable growth of its kind in history.

WHAT IS THE REASON?

Simply by giving better service and extending to the buying public the opportunity to better their condition financially by saving while purchasing the common necessities of life.

By giving their customers better values and better merchandise than they could ever hope to receive elsewhere.

By operating on a close cash basis, both in buying and selling, lessening the cost of merchandise to YOU, the consumer.

By having one price absolutely. A price even lower than the MAIL ORDER HOUSES, and keeping that price low for every customer, whether he be a banker or laborer, child or grown-up.

COST OF DOING BUSINESS

It costs the average merchant, with his high rent and other expenses, about 20 to 30 per cent. to do business.

It costs the J. C. Penney Co. only 10 to 12 per cent. **THERE YOU ARE, FOLKS.**

There's your extra cost, and we go farther than that. We are satisfied with less profit.

Grasp the opportunity. Jingle the silver savings. Get that independent feeling that goes with saving.

We Buy **J. C. PENNEY CO. Inc.** We Sell for Less

The World at a Glance

THE WORLD AT A GLANCE

For the first time the German peace treaty emerged from behind closed doors on Monday, when it was reported on the floor of the senate for debate, marking an important step in the progress of negotiations for world peace, on which the attention of the world is focused today. Verbal combats will be in order for the next month in the upper house before any definite decision is reached. It is predicted in Washington. In the meantime, President Wilson has reached the Pacific coast in the course of his league of nations and treaty speechmaking tour, and stump speakers from the senate have apparently relaxed their efforts in following him and nullifying his efforts.

A period of calm was noted during the past week in industrial circles, the only strike of any moment being the Boston policemen's walkout, which resulted in the city being at the mercy of rioters for two days before state troops were put in charge of the situation. The striking patrolmen are now branded as "deserters," and are not being permitted to return to work. The threatened steel strike, which was

planned to include 2,000,000 men, was indefinitely postponed, and all lines of industry seem to have quieted down in anticipation of the labor conference to be held in October.

One of the most disastrous floods in the history of the Texas coast came Sunday, and the victims of the tropical storm and tidal wave which accompanied it are listed at more than 300. Entire cities are without the necessities of life, and Governor Oicott, of Oregon, has urged the people of this state to extend aid to the sufferers.

Investigations of alleged "graft" on the part of the spruce production division are continuing on the Pacific coast, being now conducted in San Francisco. The most recent developments tend to connect former Governor Oswald West of Oregon in the tangle.

One more move in the peace question has been taken on the European side of the Atlantic, in the approval by the peace council of the Bulgarian treaty. It is to be handed to Bulgarian delegates in Paris tomorrow, without the ceremonies which attended the presentation of the German or Austrian treaties.

SMALLPOX INVADERS HOME NEAR REDMOND

REDMOND, September 18.—Some of the members of the J. O. Cunningham family west of town are down with small pox.

Mrs. Henry Schumacher left Sunday night for Bend, where she was operated on Monday.

The first car of sulphur ordered by the Farm Bureau arrived Monday afternoon. A second car is on the road and will arrive in a few days. Some four other cars have been ordered and will be in the latter part of this month. Several other orders are yet to be completed, and the total order for this year will average something over 200,000 pounds of sulphur to be used in Central Oregon.

An item of not a little interest to this community was the wedding Monday morning at 8 a. m. of Miss Olive Campbell, daughter of Mr. and Mrs. P. S. Campbell of this city, and Mr. J. Euston Price of Bend, at the home of the bride's parents. Father Sharkey of Bend officiating. The wedding breakfast was served directly after the wedding and at 10 the bride and groom left in their car for Pendleton where they will attend the Round-Up, and then proceed to California via Crater Lake for some three months and then return to Bend, where they will make their home. Mrs. Price is one of the popular young ladies of Redmond and was a formerly a member of the Bulletin's staff at Bend. Mr. Price is a resident of Bend, where he is employed by The Shovlin-Hixon Company. Only a few intimate friends and the bride's immediate family were present for the ceremony.

Mr. and Mrs. P. S. Campbell left Tuesday with Mr. and Mrs. Roy Branton for Portland via the McKenzie Pass. Mr. and Mrs. Branton arrived Friday evening in order to attend the wedding of Mrs. Branton's sister, Olive Campbell and Euston Price. Miss Howena Campbell came in on the train Saturday morning, and both left Monday night.

Word has been received announcing the birth of a nine and one-half pound girl to Mr. and Mrs. Clifford Ordway of Portland, formerly residents of Redmond. The young lady has been named Margaret Elizabeth. Last Thursday night practically all of the members of the high school met at Miss Hazel Wright's for the purpose of hazing the Freshmen. However, there were enough cars present for all students to go riding, and in the good time that followed, the original purpose was forgotten. Some of the cars went to Tumalo, others deciding Cline Falls was far enough from home.

E. J. Conly and Jerry A. Schooling of Deschutes were business callers in Redmond Wednesday.

Only two days of school were conducted last week, the last three days the teachers had to attend Institute at Bend. School has started again this week, but is still somewhat handicapped by the lack of sufficient books.

The DeMoss Entertainers gave a concert at the Methodist Church Monday night. A good sized crowd was present, and report having enjoyed the entertainment very much. Frank Newbold of Lower Bridge moved his family in last week in order that the girls might attend high school.

The Methodist Church is to give a reception for the new teachers and

pupils Friday night. A good program has been prepared and it is expected a large number will be in attendance.

CLASSIFIED ADVERTISEMENTS

Classified advertising charge per issue 20 cents for 20 words or less. One cent per word for all over 20. All classified advertising strictly cash in advance.
