The Most Famous Musical Instrument in the World

Victrola fame is based on Victrola quality.

More people all over the world have wanted and have bought the Victrola than any other musical instrument of its type. Because the Victrola brings to them the greatest music by the greatest artists. Because it covers the whole field of music ... it may be a violin, a band, a piano, a voice ,at will. Because the Victrola is supreme in fidelity and beauty of tone. Because of all instruments the Victrola is the most completely responsive to every varying mood. And it is the instrument which the world's greatest artists have selected as the best. Which is

John Steidl, Steve Steidl, George Gove and Anton Kulstad returned yesterday from a week's hunting trip in the vicinity of Summit Lake. Mr. Steidl and Mr. Kulstad brought down

a buck each. A. F. Larson returned yesterday from Pendleton where he attended the convention of Oregon jewelers. Mr. Larson also attended the Round-He was accompanied to and from Pendleton by H. C. Ellis and J. D. Davidson.

ANDRUS BUYS RAMS.

R. O. Andrus, of the Cloverdale section has purchased to Rambouilet rams from the Baldwin Sheep ranch. These two rams were purchased for \$150 and when one year old weighed 195 pounds. The rams a pure breds and are registered.

TUMALO READY FOR BIG FAIR

STREET, STATE AND THE STREET, STREET,

DETAILS ROUNDING OUT FOR DISPLAY OF LIVESTOCK AND PRODUCTS OCT. 9-10-INTER-EST GROWS.

TUMALO, Sept. 25 .- Details are being rounded out for the annual fair at Tumalo under the auspices of the West Side Agricultural Fair Association. The fair will be held on October 9 and 10.

For the first time livestock will be shown in a separate department. A big feature is being made of the purebred livestock in the county, of which considerable has been introduced during the last two years. Pens and temporary buildings will be erected for this purpose.

The exhibit of farm products will be larger than usual this year, according to C. P. Becker, who was in Bend Monday in the interests of the association. The quality of the stuff on the Tumalo project in most respects is better than usual this year and an unusually good showing is expected.

ARTESIAN WATER TO INCREASE THE RANGE

Forest Service Will Drill Wells in Fort Rock District to Open

Up New Grazing Lands.

To look into the matter of sinking artesian wells in the Fort Rock secable range on the Deschutes National Forest, E. N. Kavanagh, from the district office in Portland, and Supervisor N. G. Jacobson started on Friday on a trip through Fort Rock Silver Lake, Summer Lake, and Paisley. They expected to be gone for

four or five days. At present, a large area of potentially valuable range in the Fort Rock country cannot be used because of the distance which stock would have to go to obtain water. By drilling wells farther out from the lands where it is now possible to graze cattle the Forest officials hope to open up a vast new territory to the stockmen.

BECKERS' ALPALFA SEED.

C. P. Becker, of Tumalo reports through the First National Bank of Bend has not only blossomed but has set on seed this fall. This is considered to be unusual with alfalfa so young. It usually takes three years before this condition arises.
