(By United Press to The Bend Bulletin.)

afternoon.

MAYNARD LANDS.

forced to land near Wahoo, Nebraska
because of a broken shaft. He was

Due to his excellent showing,
Lieutenant Maynard will not be de-
barred from further participation in
the air derby, the director of the air
service announced today. A plane
deserted by an officer who quit the
race, will be placed at Maynard's
disposal.

for the extension. Timber of ex-

ficient merry-go-round, sensational
whip and aerial swing.

The advance agent had only two
tips on the show. One was to the
"Boys" to take their girls to see Oh
Boy and the other to those eligible
to take their mother-in-law to the

TWO NEW FIRES ARE REPORTED

NATIONAL FOREST BLAZE IS AT
PRINGLE BUTTE, AND SECOND
NOTED IN TIMBER EAST OF
LA PINE LAST NIGHT.

Although the forest fire season
was theoretically over a month and
a half ago, Forest Supervisor N. G.
Jacobson, and Deputy H. E. Vincent
were called out last night to Pringle
Butte, where a fire is reported to be
in progress. At the same time, a
blaze of considerable extent on state
land east of La Pine had started,
and J. H. Haner drove out this morn-
ing to take charge of fire fighting
operations.

Practically all forest fires starting
since the early part of September
have been either wilfully set, or
have resulted from the carelessness
of campers and others, in throwing
away unextinguished cigarettes, or
in forgetting to put out their camp
fires, is the belief of forest officials.

SUN WILL GOVERN U. S. CLOCKS SOON

October 26, 1919, is the date set
by law for the change of time back
to "sun time," and the official end
of the daylight saving plan. It is
suggested that clocks be turned back
one hour on Saturday night, Octo-
ber 25. This will put all clocks
upon the new time Sunday, Octo-
ber 26. At present clocks are one
hour ahead of "sun time," which
gets you up one hour earlier and to
bed one hour before the old time.
Daylight saving was abolished by
congress recently over the veto of
President Wilson.
