

## "Here's a Friendly Tip" says the Good Judge

Men who know tobacco, chew the best without its costing them any more. They take a little chew and it's amazing how the good taste stays in a rich, high grade chewing tobacco. For lasting tobacco satisfaction, there's nothing like a small chew of that rich-tasting tobacco.

## SHEPHERD'S DONT'S

(Prepared by the United States Department of Agriculture.)

1. Don't keep sheep on wet land.
2. Don't feed moldy or spoiled hay, roots, silage or grain.
3. Don't forget to keep salt and fresh water before the sheep.
4. Don't neglect the sheep in winter. Keep them in good condition.
5. Don't forget to tag the ewes before breeding and lambing time.
6. Don't forget exercising the bred ewe.
7. Don't let the lamb go too long without suckling.
8. Don't neglect to feed the lamb grain as soon as it starts eating.
9. Don't let parasites kill your lamb

### Interest Young People in Sheep Raising.

For lack of some fresh green pasture

10. Don't shear your ewes until warm weather comes.
11. Don't tie your fleeces with anything but wool or paper twine.
12. Don't hesitate to ask any questions of the county agent, or write to the department of agriculture at Washington, D. C.

### FINISH ANIMALS FOR MARKET

Horses, Cattle and Some Classes of Sheep Can Be Fed Quantities of Roughage.

Animals being fattened for market and animals during the first year of their growth should not be expected to consume large quantities of cheap roughage, but horses, cattle and some classes of sheep that are being carried through the winter can be fed rations carrying appreciable quantities of cheaper roughage, provided they are properly supplemented with nitrogenous feeds of the right sort, such as leguminous hays or linseed or cottonseed meal.

### PROPER WAY TO FEED SHEEP

During Stormy Weather Feed Them in Shed in Long Manger Constructed for That Purpose.

Never feed straw and hay to the sheep by throwing it down in heaps on the ground, but have a long rack for the purpose; and when it is stormy do not allow them to stay out, but feed them inside the shed in a long manger made for the purpose.

### LIVE STOCK NOTES

A tablespoonful of blood meal mixed with a little milk is very good for a calf that has diarrhea or other digestive disturbance. It is highly nutritious for a weak calf, too.

The keeping in repair of wire fences is necessary on the stock farm and so the wire stretcher is a handy tool, both in repairing and building new fences.

When oats cost no more than half as much as corn the swine division of the University of Illinois recommends they can be fed profitably to hogs.

Hogs are very sensitive to wind and cold at night and will suffer just as much as a cow or horse in cold open houses.

The best results from feeding skim milk to pigs are obtained when about

### ELKS WILL PRESENT FLAG TO BEND POST

Handsome Silk Emblem Purchased For Gift—Dedication Expected To Come on Armistice Day.

For presentation to Percy A. Stevens Post, American Legion, the Bend Lodge of Elks has just purchased through C. A. Warner, a handsome American flag, five by eight feet, and made of heavy silk taffeta. The flag is attached to a serviceable hardwood staff, and is surmounted by an American eagle of solid brass. The whole is entirely suitable for any purpose in connection with the work of the post.

The date of presentation has not been announced, but the members of the Bend Post are anxious that the dedication of the flag should be on Armistice Day.

### SHEEPMAN FINED FOR DRUNKENNESS

Ten Dollar Penalty Assessed Against D. Z. Robinett—Shatters Bottle When Arrested.

Arrested Wednesday night by Deputy Sheriff August Anderson, D. Z. Robinett, shepherd, pleaded guilty this morning in Police court to a charge of drunkenness, and was fined \$10 and costs. The particular brand of intoxicant used by Robinett could not be ascertained, for just as he was placed under arrest, the shepherd shattered the bottle containing his entire supply, against a brick wall.

### When A Child Has Croup.

Thousands of mothers say Foley's Honey and Tar Compound is the best remedy they know for croup, coughs and colds. It cuts the thick, choking mucus, clears away the phlegm, opens air passages and eases hoarseness. The gasping, strangling fight for breath gives way to quiet breathing and peaceful sleep. ### BUSINESS IS GOOD, SAYS O-W. OFFICIAL

William McMurray, General Passenger agent for the O. W., R. & N. railroad, was in Bend Thursday on one of his periodic visits to Central Oregon, and reported that the railroad he represents is enjoying a heavy run of business. He had nothing to say in connection with the proposed elimination of one of the railroad lines up the Deschutes valley.

### FATIGUE CAUSE OF DISEASE

That Fact Being Admitted, It Follows That the Best of All Cures Is Rest.

From time to time somebody proposes the "rest cure" for all maladies, and for a time we hear a great deal of it. Then the subject is dropped, and little appears in the public prints concerning its value. But invariably it comes up again, and the "rest cure" is advocated for all manner of ailments.

Just why we should not go ahead and accept it as a fact that the best treatment for most diseases is rest, we do not know. It is well settled in science as anything pertaining to diseases that absolute rest is of the greatest benefit; that most diseases are the actual result of fatigue of one kind or another. The human body is able to take care of itself when it is not tired; it does not take care of itself when it is overworked, no matter how many drugs are poured into it.

There is a splendid work to be done by the physicians in the matter of teaching the people how to rest. Not one person in a hundred understands it. Unless the average person actually feels fatigued, he doesn't realize that his body is tired—or that his mind and nervous system are crying for rest. The average person doesn't know there is anything the matter with him unless he feels pain, and yet there are many maladies that are not accompanied by pain.

A Lot of 'Em. It's a queer world. If you don't think so try to count all the good friends who have been away on vacations that you haven't missed.

### KNOWS NO NORTH OR SOUTH

Southern Doughboy Who Fought in France Is Strong for the Appellation "Yank."

The monicker, Yank, is going to stick. Just read what this fellow, who was born south of Mason and Dixon's line, writes:

"I come from a line of 'rebels' who boast that they did not surrender. Until I was quite a husky chap I believed that 'd— Yankee' was one word and 'Republican' its synonym, and knew the 'rebel yell' as a varsity boy knows his college yell. Before the war I wore a slouch hat, rode horseback and shot squirrels. I still say cawn bread, think Dixie should be our national air, that Robert E. Lee was the world's greatest general, and Jefferson Davis, sub, the world's greatest statesman.

"But, speaking for myself and a not overly small bunch of fellow 'rebels,' I am exactly satisfied with the

honest, hard-fisted, firm-jawed and seemingly inevitable nickname of Yank, and say, with one of the papers back home:

"Let Yank be the official battle name of our boys, and the 'rebel yell' their official battle cry."

In truth, the South and the North are welded.—Stars and Stripes.

### Cutting the Nation's Tire Bill.

"Forty makes of motor tires were submitted to the bureau of standards by the office of the quartermaster general," writes Thomas H. Uzzell in Everybody's. "They were given laboratory 'durability runs,' after which they were autopsied by the rubber specialists. Their carcasses were cut up and the pieces boiled, roasted, stretched. The results were discouraging. Even the best of them seemed to suffer from improper 'toughening.'

"So into their little rubber-mill went the experts, with notes furnished them by the tire manufacturers, and proceeded to make up some tire rubber which had the proper degree of toughness. They succeeded. They passed out the word: 'The trouble is that you makers are not sifting your zinc oxide before mixing it with the rubber compound.'

"The makers began to sift. Better tires resulted. Some \$30,000,000 were saved to the government. And today you are enjoying a cut in your tire bill by getting better tires—a result of that experiment with zinc oxide."
