

PUPILS PRESENT ENTERTAINMENT

EXCELLENT PROGRAM IS ENJOYED

Schools Co-operate With American Legion on Last Day of Revellie Week—Songs, Dances, and Drills Please.

One of the most successful entertainments of the kind ever given in Bend was presented this morning at the athletic club when the schools of the city appeared in songs, folk dances, drills and recitations. For many of the numbers, the children were in costume. Direction of the musical part of the program was under Miss Bonnie Scribner, while Miss Ella Dewa was in charge of the dances and drills. The entertainment was given as the schools' part toward the Revellie Week celebration.

Particularly attractive numbers were the song by dainty little Japanese girls who on five days of the week are pupils at the Reid school, the Autumn song by a dozen or more little folks garbed to represent autumn leaves, also from the Reid school, a Japanese drill by high school girls, and a song by two Red Cross nurses from the Kenwood school, in which two boy scouts figured prominently. In the course of this number, one of the lads took the part of an injured soldier, and his comrade, using the regulation army method, promptly shouldered him and carried him back of the scenes to receive first aid. The girls glee club, of the high school, fully lived up to the high standard which has been set by the organization in years past.

Patriotic Spirit Shown.

The patriotic nature of the entertainment was typified in an excellent given reading by Miss Hilah Brick, of the high school, "Old Glory."

Other numbers worthy of special mention were the "Danish Dance of Greeting," by the Reid school, "A Joke on the Brownies," by Kenwood pupils; the "Dutch Dance" by the Central school; a lullaby by Rosina Forrest; the "Kinder Polka" by the Kenwood school; the "Soldiers' Song" by pupils from the Central school; a recitation, "Daddy's Little Man" by Robert Arnold; the "Goblin Song," by Central school boys; a duet by Eugene Ketcham and Merle Stutzman; a selection by Reid school boys and girls in which a program within a program was given on the stage, and a Jack-o-lantern song by boys from the Reid school.

A Mystery.

One of the great mysteries of life is why the wise who admit they know so much seem always to own so little.

Forerunners of Sickness.

Indigestion and constipation are the forerunners of half the ills of mankind. When food is properly digested, you are free from biliousness, gas, bloating, sick headache, sour stomach, coated tongue, Foley Cathartic Tablets cleanse the bowels, sweeten the stomach and invigorate the liver. Sold Everywhere.—Adv.

STUDENTS PULL OUT OF DEBT

ANNUAL PILOT FINANCED

Assistance is Given Football Team in Coming Trip to Klamath Falls Next Month.—Many Annuals Unsold.

By Margaret Inabnit. Because the high school is so financially distressed it has become necessary for it to sell its three Liberty bonds. Two of these bonds were purchased by the student body in the school year of 1917-1918 and the third in the year of 1918. The cause of the lack of funds is due to the publication of the high school annual of last year. Of the three hundred copies which were printed about one hundred remain to be sold. These books are for sale at all the drug stores. The failure of the annual to pay for itself has left a debt of one hundred and twenty-five dollars to be paid from the student body fund. The money obtained from the sale of the bonds will not only pay this debt but will also help to send the football team to Klamath Falls, which will be a very expensive trip.

A student body meeting was held Thursday in which the pupils voted to sell the bonds. There was very little opposition to this plan as only two voted against it.

DOULTRY NOTES

Hens will lay in an inclosed nest rather than in an open nest.

Feed the growing pullets well and keep them coming. It pays.

The Leghorns and other egg breeds require less housing space and less feed.

Plan to keep all thrifty pullets and vigorous, healthy year-old hens for egg production.

The returns from poultry on the farm, for capital invested, are probably larger than the returns from any other farm enterprise.

It should be remembered that filthy henhouses are ideal places for the breeding of many kinds of insect pests.

There should be at least one nest for each four or five hens, and they should be kept clean and well supplied with nest material.

It is almost impossible to rear turkeys satisfactorily in a thickly settled community or where they cannot have free range for they do not do well when confined in yards.

Not Right Kind of Laughter.

One is tempted sometimes to laugh at another's mishap or disappointment, but the laughter that leaves a sting in someone's heart is not the sort of laughter that helps anyone.

LOCATIONS FOR HOG RAISING

Well-Drained Farm Possessing Rich Soil That Will Produce Forage is Desirable.

(Prepared by the United States Department of Agriculture.)

An ideal location is on a well-drained farm possessing a rich soil that will produce grasses and other forage as well as the grains needed for fattening the hogs. This does not mean, however, that only those farmers holding rich, level lands should raise hogs, for as a matter of fact hogs are most easily handled on farms that are somewhat rolling. For the production of forage crops the rolling farm is often as good as the level one, and it often has the added advantage of shade and

Increase the Meat Supply of the Nation by Finishing the Hog Crop.

a better water supply. The hill farmer does not have the best situation in all things, but in many instances he has certain advantages which he does not appreciate.

It is an advantage to locate in a hog-raising community. There are many small problems in management which may be learned through actual experience in one's own community. In such cases the older breeders have for a long time been in contact with local conditions, and a new man may profit by their experiences without spending several years acquiring one of his own. Then, too, if a whole community will raise a certain grade or breed of hog, it can obtain a reputation for its product as a community such as an individual never could hope to win. When the buyers learn that a type or breed of hog which they desire is to be obtained in unlimited numbers in a certain locality, they will naturally turn there first to buy the animals. All of which tends to decrease the difficulties of growing and marketing for the small breeder.

The question of a market must always be considered, especially the facilities for reaching it and the type of hog it demands. Most communities have been successfully connected with the large central markets by the railroads, but these will be of little avail if the roads to the stations are poor. Good roads are of inestimable importance, for, among other things, they enable the farmer to market his products at any and all times, thus taking advantage of any favorable fluctuation in the market prices. As to the type of hog the market demands, that must be determined by local inquiry, but in order to bring the highest market price hogs must be well finished and fat. The greatest demand is for 200 to 300 pounds hogs, and farmers generally obtain the most profit by marketing their hogs at weights ranging from 250 to 300 pounds.

LIVE STOCK NOTES

It is a well and quite generally known and recognized fact that the serum treatment properly administered will immunize cattle against blackleg.

Keep an eye open for those fat, plump, young pigs that do not come out of their nest for exercise. They are the ones that are apt to have the thump.

To feed the pigs from the trough, arrange a creep so the pigs can go to the trough to eat without being interfered with by the sows.

No cow's color has ever caused her to produce one pound more of milk or one pound more of butterfat.

Animals should have enough room in barns and under sheds so they will be comfortable.

Keep plenty of clean, fresh water before the brood sows at all times.

Good pasture lands are the basis of successful dairy farming.

The water supply is of paramount importance in raising animals.

FAMOUS PALACE AND JAIL

Historic Tower of London Easily "Most Ancient and Most Poetic Pile in Europe."

Palace and prison, once noted also for its menagerie and its pageantry, birthplace and death house of monarchs, scene of hairbreadth escapes and reputed hidden treasures, ghostly in its memories of tortures and killing and sacred for its martyrs, the Tower of London amply warrants description as the "most ancient and most poetic pile in Europe," reads a bulletin of the National Geographic society.

William the Conqueror gave London a charter, but built the White tower to show the people how little that charter might mean. Like the English constitution the rambling London Tower of today is a product of centuries, and not one, but many towers, are now scattered over some 13 acres. The site had been a fortress since Roman times.

To the Middle Tower Elizabeth came back a queen five years after her jealous half sister, Mary, had kept her there a prisoner. The humpbacked Richard III hired three assassins to murder his nephews in Bloody tower. Not until years later were their bones found and taken to Westminster abbey.

Lady Jane Grey, she who "had the birth of a princess, the life of a saint, and the death of a malefactor," was beheaded in London tower.

LEGAL NOTICES

CALL FOR BIDS

Sealed bids will be received by the County Court of Deschutes County, Oregon, up to 10 a. m. on Friday November 14th, 1919, for the construction of a bridge across the Deschutes River on the county road across the Marsh Ahwrey homestead about three and one-half miles north of Tumalo, Oregon, and grading the west approach to the bridge for a distance of about 1950 feet. Bids will be received for both material and construction of bridge separately and together, and separate bid for said grading. Plans and specifications for said bridge and grading are now on file for the information of prospective bidders in the office of the County clerk, Court House, Bend, Oregon. A deposit of five per cent of the amount of each bid in cash or certified check will be required of each bidder as provided by law.

The Court reserves the right to reject any or all bids and to call for new bids.

W. D. BARNES, County Judge.
C. H. MILLER, County Commissioner.
