

COUNCIL BACKS PROTECTION OF BIRDS IN CITY

WILL ASK FOR STATE GAME PRESERVE.

NEW WALKS ORDERED

Expensive Construction Necessary on Bond Street—Dr. Finley Appointed Health Officer—Meeting Dates Changed.

Not only did the Bend council approve enthusiastically of the proposal made by Mayor J. A. Eastes last night for posting signs along the river to warn against the shooting of wild fowl, but more comprehensive action was taken, a petition to the State Fish and Game commission being authorized seeking the setting aside of that portion of the Deschutes from the old fish hatchery to the North Canal dam as a state preserve. In addition to the signatures of the city officials, approval of the Bend Company, The Shevlin-Hixon Company and the Brooks-Scanlon Lumber Co. will be needed on the petition, which is to be sent in as soon as possible.

In line with its recently announced policy of street improvement, the council acted on petitions asking for the construction of wooden walks in a portion of Center addition, and for concrete walks from Lava Road to Bond street, on Minnesota avenue. A more far reaching order was taken when a concrete walk on the east side of Bond street, from Minnesota to Greenwood, was ordered. No petition prompted this action, but it was pointed out that the wood walk between Oregon and Greenwood is in a decidedly dangerous condition. The only objection filed was that construction in this block may work a hardship on owners of buildings, some of which will be several feet above the walk when concrete is laid on the proper grade.

Woman is Health Officer.

In his report as chairman of the health committee, E. L. Payne stated that City Health Officer Dr. J. C. Vandervert had been absent from council meetings for several months, and that no monthly report had been handed in for October. He asked that the office be declared vacant, and the ensuing vote unanimously favored his motion. Mayor Eastes' appointment of Dr. Anna Ries Finley as his successor, was immediately endorsed, and Dr. Finley's acceptance was received a few minutes later.

Because the present meeting dates conflict with the new meeting time of the Elks lodge, a charter amendment was passed under an emergency clause, setting the first and third Fridays of each month as the dates on which the council will convene. By resolution it was decided that 7:30 o'clock should be the time at which the mayor's gavel will sound, instead of 8 o'clock as formerly. This rule will apply only during the winter months.

One Fire During Month.

Petitions asking the widening of the alley between Wall street and the river, from Oregon to Greenwood, and requesting the widening of Greenwood between Bond and the river, were referred to the streets committee.

Only one fire, that at the Brooks-Scanlon round house, was reported by Chief T. W. Carlon, while activity in clean-up work was shown in the report of Chief of Police L. A. W. Nixon. Twenty arrests were made during the month, four of these being juvenile cases.
