The Brunswick

ALL PHONOGRAPHS IN ONE

Good mental as well as bodily stimulus comes only in surroundings of harmony.

Parents interested in the musical education of their children should choose a Brunswick Phonograph because it has achieved perfect sound reproduction. In no other instrument is tone reproduced with as great a richness and fidelity.

The Brunswick Method of Reproduction

The Brunswick Method of Reproduction is responsible for The Brunswick's superiority. It consists of two exclusive and scientific features—the Ultona and the Tone Amplifier.

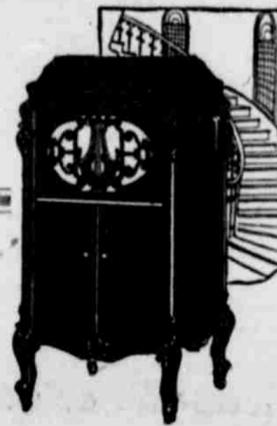

The Ultona

The Ultona plays all records. By a simple turn of the hand it presents the required needle, correct weight and precise diaphragm.

The Tone Amplifier

The Tone Amplifier is a vibrant tone chamber. Built entirely of wood like the sounding board of a fine piano or violin. No metal touches it. Hence its freeness from any harsh metallic sounds.

Knowing its super quality we do not hesitate giving it our full endorsement. Come in today. Let us play your favorite record on this beautiful instrument. If you like we'll make comparisons for you.
