

## What's Doing In The Country

### HAY SUPPLY SAVES FARMERS FROM LOSS

PLEASANT RIDGE, Dec. 16.—This vicinity was visited by the worst snow storm in years. It started snowing Tuesday and continued all that day and the next until fully 3 to 4 feet covered the ground. The temperature went down to 10 degrees and 13 degrees below zero. The roads are not opened up so the farmers have not been able to get to town. There has been no delivery of mail for a week. The stock is not suffering as all the farmers in this immediate vicinity are well supplied with hay.

Mrs. Alfred Pedersen went to Deschutes Monday to work at the hotel. She was forced to remain there until Saturday on account of the heavy snow storm when Mr. Pedersen went after her with a saddle horse.

Fred Seeling came out from Bend Sunday morning and is visiting at the W. H. Gray home. He walked from Bend to Deschutes as there were no trains running that day.

Andrew Nelson was on the sick list several days this week but at last reports was better.

Bill McCormick of Deschutes was over on horseback Sunday to look after his sheep.

Mr. Sullivan who is herding sheep for Bill McCormick went to Deschutes Monday. He returned Tuesday evening having taken him all day to walk from Deschutes in the deep snow.

Several of the men of the neighborhood have been out with horses trying to break a road.

W. K. McCormack of Deschutes bought pasture from O. E. Anderson and H. T. Mikkelsen and is running his sheep on their places now.

Mr. and Mrs. H. T. Mikkelsen entertained the following guests at dinner on Friday evening: Mr. and Mrs. Alfred Pedersen, Mr. and Mrs. W. H. Gray, Mr. and Mrs. O. E. Anderson, Anton Ahlstrom, Miss Hilma Nelson, Mrs. Cathrine Johansen and Rasmus Peterson. The evening was spent in visiting and playing cards. The guests departed at a late hour having had a very enjoyable time.

Mrs. Ed Swalley was a visitor in Bend Saturday.

W. H. Gray butchered a hog on Saturday.

H. T. Mikkelsen has been pulling some trees for Mr. White this week.

Mrs. O. E. Anderson and Mrs. W. H. Gray went to Tumalo Monday afternoon to do some trading.

Anton Ahlstrom was in Redmond on business Monday.

Rasmus Peterson and Mrs. Cathrine Johansen accompanied by Mr. and Mrs. J. A. Chase were Bend visitors Tuesday.

N. D. Wood was a business visitor in Redmond Thursday.

Mrs. O. E. Anderson was in Redmond Thursday.

Anton Ahlstrom and W. H. Gray were business visitors in Bend Thursday.

Rasmus Peterson and Mrs. Cathrine Johansen were in Redmond Wednesday.

Mr. and Mrs. W. H. Gray were guests of Mr. and Mrs. O. E. Anderson at dinner Sunday.

O. E. Anderson and W. H. Gray were helping W. K. McCormack of Deschutes saw wood on Friday.

Mrs. Alfred Pedersen has been working at Deschutes several days this week.

L. A. Brandenburg was in Tumalo Monday after supplies.

A meeting was held in Redmond on Tuesday night to discuss matters pertaining to the Central Oregon Irrigation project. Those present from this community were: O. E. Anderson, Rasmus Peterson and J. A. Chase.

Sell your poultry through Bulletin classified ads.

### CORRESPONDENTS OF BULLETIN SNOWBOUND.

Probably because of the deep snows throughout Central Oregon, the usual amount of community news has failed to arrive for publication in the weekly edition of The Bulletin this week. It is expected, however, that means of communication will permit all correspondents to get in touch with The Bulletin office in time for the next issue.

### SMALL STOCK LOSS AT POWELL BUTTE

POWELL BUTTE, Dec. 18.—This year's storm found most people prepared for it. Very little loss has been reported as there is hay and hay to spare.

A great tie-up of Uncle Sam's activities resulted as the mails just absolutely failed to get through the snow drifts.

The roads everywhere were piled full and travel of all kinds was brought to a sudden halt.

The cellars and store homes were closed with care as the thermometer continued to drop down, down until on Friday morning, E. B. Williams reported 29 degrees below zero at 8:30 in the morning. All schools in the vicinity of Powell Butte were dismissed. An entertainment to be given by the pupils of Mrs. Geo. Hobbs school, was indefinitely postponed. The free dance at Community Hall was forgotten in the effort to save stock and poultry and to keep the house warm and comfortable. In fact it is only those who can date their residence in Crook county back to '85 who know of a precedent. That winter '85, the snow fell to a depth of three feet all over this country and stayed on for about six weeks, nearly every living thing on the desert died from the effect of it, either starvation or froze to death. It crushed over and men took axes and overtook deer in the snow, knocked them in the head.

The first mail to be distributed to Powell Butte was on Saturday, when the delivery was made from Redmond by team and cutter and was then taken by Ora Foster the R. F. D. man from Powell Butte post office to near S. D. Musard's home. No delivery was made on side roads, as it was only delivered where the roads were open.

Some anxiety is felt for the bands of sheep owned by Dominic Verges and Mike Angland as they are some where in the vicinity of Pine Mountain and it is feared they are without feed.

Dan Hourigan has two thousand head of sheep near Bend with plenty of hay to feed them.

Ned Angland drove his sheep in from the Deschutes country traveling slowly and breaking trails for them. They arrived at the home ranch Saturday night none the worse for their long tramp.

Powell Butte Sorosis, was to have met with Mrs. Arthur Milner last week, but this was postponed on account of the storm. The next meeting will be at the call of the President, Mrs. Carl Fisher.

The snow at Powell Butte fell to the depth of about 32 inches. Farther over toward Deschutes they report four feet.

Mrs. E. A. Bussett went to Redmond the first of last week and was storm bound for the rest of the week in Redmond.

Mrs. Frank Kissler and two youngest children started for Billings, Montana to spend the winter with her parents, but were prevented from leaving Redmond by the train blockade and returned to her home.

Uncle "Jack" Perry sustained frozen feet and fingers. He is now with

his daughter Mrs. Mary Tweet. Phil Dobson came over from Redmond Sunday with a sleigh and visited at the E. A. Bussett home.

Mr. Shumaker of Redmond is carrying the mail for Reeves Willcox this week in a sleigh.

A big hobo-sled and a four horse team went through Powell Butte Sunday with twelve passengers, business and professional men of Prineville who were endeavoring to reach their homes. Judge Duffy, District Attorney Wirtz, Rev. Van Nuy and Judge Wallace were among the number.

Mr. and Mrs. Arthur Milner drove a sleigh to Redmond Monday for supplies.

George Truesdale has been working hard with men and teams to open the roads in this section. They are succeeding in keeping the roads open with the exception of a few miles along the Henry Edwards and Dave Still ranches where the wind drifts the roads full of snow almost as fast as they are cleared.

School in this section resumed work Monday. Miss Fay Bussett and Mrs. George Hobbs opening up with good attendance.

Elma Peterson has been quite ill with gripe and sore throat but is much improved.

Henry Hanson brought a bunch of cattle home from Bend during the bad storm.

A movement has been on foot to invoke the recall on Mr. McGuffey, one of the directors of this irrigation district. The petition that was being circulated in this section met with poor success for signers as it seemed to be the opinion of some that it was an unwise move at this time. Mr. McGuffey was elected by a large majority over his opponent.

### RABBIT EXPERT IS REDMOND VISITOR

REDMOND, Dec. 18.—Like all other Central Oregon towns, Redmond was almost snowbound for a while last week. Traffic was almost completely stopped Wednesday, but Thursday a crew of men with from eight to twelve horses on a "crowder" began to clear the streets and main travelled roads from out of the city, so that by now it is possible for farmers to reach town.

Mr. Roy Skeen, who has been attending Willamette University, arrived the first of the week to spend his Christmas vacation at home.

Miss Marjorie Beebe, who has been attending Behnke-Walker Business college came home Tuesday night.

Mr. D. L. Jamison of the Biological Survey arrived in Redmond Wednesday morning to begin the campaign against jack-rabbits, but due to the snow fall which prevented farmers from holding meetings in the various locations, he decided to go on to Pendleton until conditions were more favorable in this section to conduct the campaign.

Neal Hazleton returned home Wednesday morning to spend a few days with his parents until work could be resumed in Portland. He went back to Portland Saturday night.

School was closed Tuesday night, with the intention of opening Monday morning, on account of the cold weather which froze all the water pipes. However, conditions not becoming any better, at a teachers' meeting Saturday it was decided to keep school closed until the Monday after Christmas, December 29.

Misses Eunice Wilson and Grace Sherwood and Mr. and Mrs. Hiram Smith returned to their homes in the Valley for the Christmas vacation.

Mrs. George Gates returned home Tuesday from a visit with relatives in North Dakota.

**Safety Fire Escape.** A woman has invented a fire escape for dazed and frightened victims. It consists of a seat and footboard fastened together by ropes like a swing. For further protection there is an extra loop of rope which slips over the head and tightens about the body.

## FAIRM STOCK

### SUCCESS IN SHEEP BUSINESS

Stomach Worm Is Most Widely Distributed and Serious Trouble With Average Flock.

(Prepared by the United States Department of Agriculture.)

In any system of continuous farm sheep raising, the health question is of primary importance. This question is chiefly one of internal parasites, and of these the stomach worm is the most widely distributed and the most serious. Fortunately, the trouble is entirely susceptible of practical control, and the methods of prevention are exactly in line with the practices that result in most economical production. It is possible, though doubtful, that the permanent farm flock can be maintained in maximum health when grazed entirely on permanent grass pastures. A system of division of grass land into sufficient parts to allow frequent long periods without sheep and use of longer grass for cattle will assist materially. Such a plan, combined with occasional use of medicine to prevent too serious infection, may prove to be practical.

The basis of success in the farm sheep business is in the frequency of changing to pastures which have not had any opportunity to become infected with stomach worms by older sheep. These frequent changes are particularly necessary during the stay of the young lambs upon the farm. The older sheep are less susceptible to the effects of the infection, though danger of their being injured thereby is not to be overlooked. The plan of frequent changes to fresh feed can be adapted advantageously to the most economical systems of using high-priced land in the rotation of crops to produce feed and forage for other kinds of livestock.

The principles of flock management for maximum health and for adaptation to other lines of farm production are illustrated in the following outline of a plan of crop production and feeding. Under a 3-Year Rotation of Corn, Clover and Small Grains, on 160 Acres.

3 acres corn—To finish 20 yearling cattle and 40 hogs.  
12 acres silage corn, 40 acres wheat, 20 acres clover hay—Forage for 20 cows.

Change Pasture to Keep Sheep Flock Healthy.

20 yearlings, 40 ewes, 20 ewe lambs and 200 stock; grain for sale or exchange for other feed.

20 acres clover pasture—Season's grazing for 20 breeding cows.

20 acres permanent grass pasture—Grazing for 20 yearling cattle on feed for December shipment.

10 acres forage crops.

In the above, sheep would be grazed as follows:

First—On winter wheat.

Second—On grass pasture with yearling cattle.

Third—With cows on clover pasture.

Fourth—On clover hay after hay cut.

Fifth—On grain stubble.

Sixth—In corn fields after silage cut or corn harvested.

Seventh—On winter wheat.

At other times on rape, soy beans, or other grazing crops on ten-acre field. Unused forage harvested for winter feed.

Such a plan as this allows sufficiently frequent change of pasture without any part of the flock going upon land that has previously carried sheep in the same year. The forage crop land is a safety measure for reliance in case of shortage of other feeds, and could regularly be used for carrying the reserved ewe lambs from weaning time until winter.

**ENDED WITH HONORS EVEN**

Rattlesnake and Pet Cat Staged Battle Which Caused Death of Both Combatants.

William Lessig, gateman at the Erie railroad crossing east of Ramapo, N. J., tells a story of a battle he saw between a rattlesnake and a pet cat. It ended fatally for both.

Mr. Lessig saw a rattler about four feet long going toward the river. He picked up a club and was about to start for it when, he declares, a cat leaped out ahead of him and set upon the snake.

The cat got a fine hold on the back of the rattler's head. But the snake fought desperately and got in a sting which caused the cat to release its hold and crawl away.

In twenty minutes the cat's body was swollen almost twice its size and the poison finally caused death.

The snake had been so severely grounded it was unable to find cover and when a crow discovered it lying in the open field it was too weak to offer resistance and was soon swinging in the air as the bird made off with it.

**Buck Hares in Combat.**  
An Australian correspondent describes "a dinkum stand-up fight" between buck hares. "They prop upright on their hind legs and box with their front paws, sparring, ducking, uppercutting in pugilistic fashion, fur flying in all directions. When one pugilist gets winded or passed out he falls on his back and skids his tail."

**Livingstone Memorial Tree.**  
One of the most curious memorials of Livingstone is the "name tree" at Victoria Falls, on the Zambesi. On the trunk Livingstone cut his initials and the date 1855 on the day of his first visit to the falls. In his book giving an account of this Livingstone says: "This was the only instance in which I indulged in this piece of vanity."

**Was Restless With Pain.**  
E. W. Kitt, R. F. D. 2, Box 9, Shorters, Ala., writes: "I took Foley Kidney Pills as I was restless at night with pains in my back and side, and they did me good. I can truthfully say Foley Kidney Pills is the medicine for kidney trouble." They relieve rheumatic pains, stiff, swollen joints, lameness, soreness—Sold Everywhere.
