

FACTORY WORK STARTED AGAIN AT BEND MILLS

SHORTAGE OF LOGS DELAYS SAWING

STREETS ARE OPENED

Work Rushed to Completion on County Roads—Trains Resume Schedule, But Supply of Freight Empties Withheld.

After remaining idle for three days, the plants of the Brooks-Scanlon Lumber Co., and The Shevlin-Hixon Company started partial operation on Monday. The Bend Water, Light, & Power Co. was able to fill part of the needs of the former company, and in consequence work was resumed at the box factory, while in the planer one machine was started. The mill is shut down for several weeks for the annual winter repairs, so that it is affected but little by adverse weather conditions. At the Shevlin-Hixon plant, the box factory, planer, and unstacker were busy today, but the mill was still closed due to lack of logs. A supply sufficient for a run of about two days is frozen fast in the pond, but until more are brought in from the woods, no attempt is being made to break up the ice.

Means of travel through the city have been plowed along practically all the streets, and it was expected that all the main roads in the county would be opened up by tonight. During the shutdown at the mills, the draft animals used at the plants were turned over for county

use, the Brooks-Scanlon teams were still at work today breaking way through the snow on the La Pine road.

Trains on Schedule.

Passenger trains are back on schedule on both the Oregon Trunk and the O. W. R. & N., but no definite information could be obtained as to when a supply of freight empties would come in. The first freight was received Sunday when shipments of perishable goods reached Bend.

While the temperature recorded in Bend Friday night and Saturday morning were unusually low, the mercury is gradually resuming its normal run. Twenty-two degrees below zero was the minimum recorded Friday night, three degrees warmer than the record established the night before. This mark was reached by 7 o'clock in the evening, and in the following hours of night and early morning, when the lowest point is usually reached, the mercury gradually rose until at 8 o'clock Saturday morning only six degrees below was registered, as compared with 23 below at the same hour yesterday morning. Normal winter temperature is now being recorded.

One of the records established in Bend during the days of severe cold, was the operation of the Bend Water, Light & Power plant, in spite of the low temperature. With the exception of cutting off service at the Brooks-Scanlon Lumber Co. plant, the power production was kept virtually at normal, although in 1911 zero weather caused a complete shutdown, Manager T. H. Foley said. A slight increase in the flow of water was noted today.

Minister Wants to Help.

It is only natural that one who has been relieved from suffering should feel grateful and want to help others. Rev. W. F. McSwyndole, 818 Elm St., Macon, Ga., writes: "My kidneys gave me much trouble before I took Foley Kidney Pills. I am ready at any time to speak a word for Foley Kidney Pills."—Sold Everywhere.

RANCHER SHOWS OSLER'S ERROR

MAN OF 64 YEARS HEADS PARTY WHICH BRINGS STOCK FROM FORT ROCK THROUGH BITTER STORM.

Osler was wrong—utterly and unquestionably wrong. A man hasn't even reached his prime until he has passed the half century mark, contends C. A. "Dad" Stephenson, aged 64, and just to prove it, he headed a party which came in on Saturday with \$5000 worth of cattle and horses, 60 head in all, owned by the Central Oregon bank, which had been ranging near Fort Rock, a distance of approximately 60 miles. The party, which had as its other members, J. M. McKinney, and J. P. Pulliam, travelled from Sunday until today, with only their wagons as shelter, through the hardest snow and the most bitter cold which has been felt in Central Oregon for 35 years.

The three left Bend last week, and spent several days in gathering the stock. Just as they were ready to start on the return trip, they discovered that they were out of provisions, and Mr. Stephenson footed it back to Fort Rock, 15 miles, for more supplies. On his trip back to camp, the storm started, he lost his way, but trudged on through two feet of snow, finally getting his bearings and reaching his companions after being steadily on the march from Fort Rock for 36 hours. Incidentally, he carried a 50 pound pack.

The trip to Bend commenced, and to get the wagons through, it was necessary to break trail for most of the way. This was another little chore for "Dad" but it wasn't much

worse than riding, he said. That afternoon, he started for his home in the Sisters country.

GUSTAVO IS WINNER OVER PAUL TANGEN

Uses Scissors to Good Advantage in Securing Two Straight Falls From Opponent.

Ad Gustavo, Bend middleweight grappler, tied another scalp to his belt Friday, when he took two straight falls from Paul Tangen, the "wrestling lumberjack," in their match at the Hippodrome. Gustavo won his first fall at the end of 13 minutes, with a head scissors and arm lock, and at the end of 38 minutes more again pinned his adversary's shoulders to the mat with an arm scissors and double wrist lock. Only a small crowd braved the intense cold to witness the contest.

A challenge issued by Roy Anderson, of Prineville, to the winner of the bout, was accepted by Gustavo, but the match will not be staged until warmer weather.

OFFICERS NAMED BY EASTERN STAR

Mrs. L. A. W. Nixon Heads Bend Chapter—Appointive Offices Filled by New Worthy Matron.

"Some Men Don't Know It Yet" says the Good Judge

This class of tobacco gives a man a lot more satisfaction than he ever gets out of ordinary tobacco.

Smaller chew—the good taste lasts and lasts.

You don't need a fresh chew so often. Any man who uses the Real Tobacco Chew will tell you that.

Put Up In Two Styles

RIGHT CUT is a short-cut tobacco

W-B CUT is a long fine-cut tobacco

W. B. & C. Co., 107 Broadway, New York, C.

Officers appointed by the Worthy Matron are: Frances Thompson, Adah; Mrs. Ralph Miles, Ruth; Mrs. W. D. Barnes, Esther; Mrs. Walter Grant, Martha; Mrs. H. H. Lamping, Electa; Walter Grant, Sentinel; Mrs. F. M. Gasbar, Marshal; Mrs. J. A. Thompson, Chaplain; and Miss Montello Harvey, Organist.

STOVE EXPLODES, OWNER UNHARMED

While thawing out frozen plumbing connections at his home in this city Friday, F. A. Howard, of the Owl Pharmacy, had a narrow escape, when an explosion threw a fragment torn from the top of the kitchen range, to the ceiling, where it hit with sufficient force to damage the plaster badly. The jagged piece

of iron passed only a few inches from Mr. Howard's head, and although he was covered with soot from the explosion, he was unharmed.

RANGE APPLICATIONS ARE NOW RECEIVABLE

Deschutes National Forest books were opened Monday to receive applications for grazing privileges during the coming year. The grazing capacity of the forest is approximately 9,000 head of cattle and horses and 65,000 head of sheep. Applications will be entered up to February 1.
