list with a total of 13,485 which represents an increase over last year of 2,969. Small increases are noted in the acreage sown to clover, orchard, garden and miscellaneous crops, totalling in all 3,116. There has been a noticeable drop in the acreage planted to grain, 5,868 acres being in during the 1919 season as compared with 7,898 last year. There is also shown a smaller acreage sown to potatoes and timothy. Coming under the heading of crops it is shown that 13,485 acres in alfalfa produced 3 tons to the acre with a valuation of \$709,100; clover, 825 acres, valued at \$41,250; timothy, 302 acres, valued at \$9,110; 5,868 acres in grain valued at \$510,510; 880 acres in potatoes valued at \$88,000. Of all the crops, the fol-

lowing represent the consumption on the project, hay, 32,255 tons; grain, 156,052; potatoes, 8,925 bushels. The value of the surplus is \$558,117 while the crop value produced is placed at \$1,368,976. The value of livestock is held at \$788,266 with beef cattle leading at \$257,810, sheep \$227,528; dairy cows, \$156,640; horses, \$126,640; hogs, \$19,648. The estimated market value of surplus livestock is \$213,234.

The estimated value of improved farms is \$3,307,431 divided as follows: cleared tracts, \$323,588; cultivated farms, \$2,983,843.

The population of the farmers shows an increase over last year of 304 persons, with a total this year of 1,785.

Large Acreage Served.

In the decrease column there is shown a slump in livestock over last year divided as follows: beef cattle, 9; dairy cows, 148; horses, 67; hogs, 183; sheep, 1,745.

Regarding the condition of the farmer on the project the following indicate his rating: number making money from place, 42; number merely making a living, 55; number making a failure, 6; number using outside resources, 53. In this classification the better condition this last year over 1918 are marked, there being more making money, fewer merely making money, failures and fewer using outside resources. There are 229 automobiles on the project while last year there were 172.

There are 22,965 irrigable acres in cultivation; irrigable land in cultivated tracts, not cleared, 6,081. A total acreage of 32,541 was served by water this year against 30,197 acres last year.

Some Distance.

Hewitt—Times have changed. Jewett—Yes, it is a long way from grandfather's clock to a wrist watch.
