# Maxwell

"Pay as you ride" on our easy payment plan

Among the vast number of motorists that consider reliability and economy the prime requisite of automobiles, the Maxwell is the choice of its price class.

The fact that a Maxwell gives MORE miles on gasoline, oil and tires—and that in doing so it gives stable, dependable service—is the great factor in creating the vast national demand for this car.

More than 100,000 persons who want to make their money go as far as possible will buy Maxwells in 1920. And some 40,000 persons who desire Maxwells will be disappointed because of the shortage.

The output of the eight great Maxwell factories will not—can not—meet the demand. It will probably be impossible for you to get immediate delivery later on. Order early, and you will at least get a definite and early delivery date.
