SWALLEY CO. TO USE AUTOMATIC GATES

The first self measuring headgates ever used by Central Oregon irrigation systems are to be installed by the Deschutes Reclamation and Irrigation Company, better known as the Swalley Ditch Company, in time for the coming irrigation season. Forty-five of these headgates have been purchased from the Coast Culvert & Flume Co. to be installed on all laterals tapping the main canal. They will cost in the neighborhood of \$2,000.
Those who attended the annual meeting of the ditch company Saturday night were given a demonstration of the manner in which the measuring device operates. The purpose for the meeting was the election of directors, Ed M. Swalley being

Mrs. Rosa Harris Gains 30 Pounds

Was so Run Down Could Hardly Get About—Is Well and Strong, Now.

"I have not only gained thirty pounds in weight, but I am enjoying so much better health than I have in years, I feel just like a new person," said Mrs. Rosa Harris, 444 Twenty-sixth Ave., North Seattle, Wash., recently. Continuing, she said:
"For the three years past I suffered so much from stomach trouble and had become so badly run down, that I had given up hope of ever getting any better. My appetite was extremely poor, and I had to force down every mouthful I ate, and most of the time I could not even retain this. I would become so badly nauseated. The least little thing I ate would sour, gas would form and press against my lungs so badly it was all I could do to get my breath, and I would have such intense cramping pains in my stomach they would nearly kill me. I was also badly constipated and had to take some sort of laxative almost every day. My kidneys bothered me a great deal and I suffered with pains across the small of my back, and, in fact, had pains all through my body nearly all the time. My head ached so bad nearly all the time I thought it would burst wide open and at times I would become so dizzy I would have to grab hold of something to keep from falling, and I would feel just like I was going to faint and black spots would dance before my eyes. I was so nervous the least little thing would upset me and at night I was so restless I could get but little sleep as I would roll and toss from one side of the bed to the other all night long, and in the morning I would feel so tired and exhausted it was all I could do to get out of bed. I lost weight so rapidly I soon became so weak I could not do my housework, it being all I could do to get about at all."
"I had seen so much about the good Tanlac was doing others, and, too, as many of my friends had praised it so highly I decided to try it. Well, as I had given up all hope of ever finding anything that would help me, you can imagine my surprise when I began to get better as soon as I had taken only a few doses of Tanlac. My appetite improved until it was soon better than it had ever been, and nothing I ate gave me a particle of trouble afterward. I continued taking it until I was soon rid of all my troubles. I am never bothered with pains in my stomach or back, and, in fact, never have a pain of any kind. I never have the headache or those dizzy spells any more, and have regained my strength until I can do all my housework with ease. I can truthfully say I believe Tanlac saved my life and I expect to praise it as long as I live."
"Tanlac is sold in Bend by Owl Drug Co., in Sisters by George F. Aitken; and in Bend by Horton Drug Co."

CULVER DWELLING IS MOVED TO BEND

A house begun in the county seat of Jefferson county three years and a half ago, will be finished in Bend when W. P. Myers completes his 19 room dwelling now in process of construction on Portland Avenue and Steidl road. When completed, the dwelling will be just as Mr. Myers planned it when he was district attorney for Jefferson county, and Culver was the center of county government, with the exception that one room will be added.
Two years ago, Mr. Myers moved to Bend, leaving the house only partly completed. A few months ago he came to the conclusion that the building would be of much greater value in Bend than in Culver. The structure was cut into five sections—all except the concrete basement, that is—loaded onto trucks, and brought to Bend, the last load arriving here only 30 days ago.

FEW OUT FOR NOMINATION AT PRIMARIES

tion or more, but the only official index of population recognized is the U. S. census. The 1920 enumeration has not been made public, and according to the 1910 census, Bend is a village of a little over 500 inhabitants.
Should a report on the last census be made in time, nominations for an entire new council, as well as for mayor, will be in order. No candidates for council have avowed themselves as yet, although it is known that few if any of the present councilmen will be desirous of re-election. For the position of mayor, the names of E. L. Payne, of the present council, and of L. L. Fox have been mentioned, with the bare possibility that Mayor J. A. Eastes will be out for another term.
